Developed by I Corps Foreign Language Training Center Fort Lewis, WA For the Special Operations Forces Language Office United States Special Operations Command LANGUAGE TRAINING The ability to speak a foreign language is a core unconventional warfare skill and is being incorporated throughout all phases of the qualification course. The students will receive their language assignment after the selection phase where they will receive a language starter kit that allows them to begin language training while waiting to return to Fort Bragg for Phase II. The 3rd Bn, 1st SWTG (A) is responsible for all language training at the USAJFKSWCS. The Special Operations Language Training (SOLT) is primarily a performance-oriented language course. Students are trained in one of ten core languages with enduring regional application and must show proficiency in speaking, listening and reading. A student receives language training throughout the Pipeline. In Phase IV, students attend an 8 or 14 week language blitz depending upon the language they are slotted in. The general purpose of the course is to provide each student with the ability to communicate in a foreign language. For successful completion of the course, the student must achieve at least a 1/1/1 or higher on the Defense Language Proficiency Test in two of the three graded areas; speaking, listening and reading. Wounded City Nancy Foner, 2005-08-25 New York has eight million deeply personal and unique stories of pain and perseverance from September 11, 2001. But the toll of tragedy is greater than the anguish it inflicts on individuals—communities suffer as well. In Wounded City, editor Nancy Foner brings together an accomplished group of scholars to document how a broad range of communities—residential, occupational, ethnic, and civic—were affected and changed by the World Trade Center attacks. Using survey data and in-depth ethnographies, the book offers sophisticated analysis and gives voice to the human experiences behind the summary statistics, revealing how the nature of these communities shaped their response to the disaster. Sociologists Philip Kasinitz, Gregory Smithson, and Binh Pok highlight the importance of physical space in the recovery process by comparing life after 9/11 in

two neighborhoods close to ground zero—Tribeca, which is nestled close to the city's downtown, and Battery Park City, which is geographically and structurally separated from other sections of the city. Melanie Hildebrandt looks at how social solidarity changed in a predominantly Irish, middle class community that was struck twice with tragedy: the loss of many residents on 9/11 and a deadly plane crash two months later. Jennifer Bryan shows that in the face of hostility and hate crimes, many Arab Muslims in Jersey City stressed their adherence to traditional Islam. Contributor Karen Seeley interviews psychotherapists who faced the challenge of trying to help patients deal with a tragedy that they themselves were profoundly affected by. Economist Daniel Beunza and sociologist David Stark paint a picture of organizational resilience as they detail how securities traders weathered successive crises after evacuating their downtown office and moving temporarily to New Jersey. Francesca Polletta and Lesley Wood look at a hopeful side of a horrible tragedy: civic involvement in town meetings and public deliberations to discuss what should be done to rebuild at ground zero and help New Yorkers create a better future in the footprints of disaster. New Yorkers suffered tremendous losses on September 11, 2001: thousands of lives, billions of dollars, the symbols of their skyline, and their peace of mind. But not lost in the rubble of the World Trade Center were the residential, ethnic, occupational, and organizational communities that make up New York's rich mosaic. Wounded City gives voice to some of those communities, showing how they dealt with unforeseen circumstances that created or deepened divisions, yet at the same brought them together in suffering and hope. It is a unique look at the aftermath of a devastating day and the vitality of a diverse city. A Russell Sage Foundation September 11 Initiative Volume

The Hidden History of 9/11 Paul Zarembka, 2011-01-04 How much insider trading occurred in the days leading up to 9-11? How compromised is the evidence against alleged hijackers? Why were there no military interceptions? To what extent does the testimony of more than five hundred firefighters differ from official reports of what happened at the World Trade Center buildings that day? How inseparably connected are Western covert operations to al-Qaeda? How is Islamophobia used to sustain US imperialism? What was the 9-11 Commission? With contributions from Nafeez Mosaddeq Ahmed, Four Arrows, David Ray Griffin, Jay Kolar, David MacGregor, Diana Ralph, Kevin Ryan, and Bryan Sacks, this path-breaking work examines 9-11 and its background, showing how much remains

unknown and where further investigation and debate is needed.

### **Overseas Business Reports ,1962**

Shields of Deception Ben Beeler,2001-01-11 In Brooklyn an Arab protester risks death in a desperate attempt to keep from being questioned by police. In Toronto a flight attendant's body is found in her apartment several days after she discovers a disturbing secret about a passenger from her last flight. In Georgia, police uncover a package they expect to contain drugs, but what they find baffles even the most seasoned investigators. These seemingly disjointed events begin to intertwine when NYPD Detective Lieutenant David McClellan, who is reluctantly assigned to the Intelligence Division, engineers what is supposed to be a textbook sting operation, but turns out to be anything but. McClellan is plunged onto a bizarre and twisted trail of international terrorism and murder as he tracks an ex-Russian military intelligence operative, turned freelance terrorist, on a path of almost certain pyrotechnic devastation of an unknown target. Complicating the investigation, McClellan is partnered with a female detective with whom his personal life begins to involve. Department politics and bureaucratic self-preservation threaten to derail his investigation just as McClellan closes in on his quarry in a heart-stopping game of cat-and-mouse, matching his analytical abilities and street-wise perceptions, with the Russian's meticulous cunning and capability for staying one step ahead.

The Arabs in Antiquity Jan Retso,2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam, is described in this book. It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history. It is suggested that the ancient Arabs were more a religious community than an ethnic group, which would explain why the designation 'Arab' could be easily adopted by the early Muslim tribes. The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed, both being united by common bonds of religious ideology and law.

**A Dictionary of Andalusí Arabic** Federico Corriente,2022-06-20 A detailed scientific description of the Andalusí Arabic dialect bundle did not exist until recent times, although the correct understanding of some of its texts bears heavily on many momentous conclusions drawn by contemporary scholars about the extent and depth of cultural interaction between the Arabs and the West. After many years of work on the grammar of this variety of Neo-Arabic, and having produced accurate editions of its materials, the author now undertakes the task of establishing its lexicon, both synchronically and diachronically, by listing words and idioms and trying to provide the etyma of most items. This volume will be useful to students of Arabic dialectology and also to those concerned with any kind of literature produced in Al-Andalus, as well as to Romance scholars who may find the solution to many an etymological riddle

**Psychological War Trauma and Society** Irit Keynan,2015-04-10 This book explores the psychological trauma affecting soldiers and civilians who have encountered the violence of war or terrorism, arguing that the enigmas surrounding war trauma are rooted in culture, collective memory and social norms. Focusing primarily on a large-scale sociological study in Israel, chapters detail the ideological, political, historical and economic factors that shape the multifaceted connection between individual and collective trauma, probing the exterior layers of Israeli society and exposing the complex relationship between society and emotionally scarred individuals everywhere. Divided into three main parts, particular attention is paid to the treatment of soldiers and civilians, and the tension between the medical and societal approaches to PTSD, shedding light on the intricate relationships between war trauma and society worldwide. Part 1 looks at traumatized soldiers and the changing attitudes towards CSR and PTSD; Part 2 explores civilian trauma and shock, including the first published research on the implications of war trauma in Israeli Arab society; and Part 3 analyses the deficiencies and contradictions in current international definitions and discourses of trauma, and the profound consequences of war trauma in society as a whole. *Psychological War Trauma and Society* will be of key value for academics and postgraduate students in the fields of psychology, sociology, history, Jewish studies, military studies, social work, terrorism studies and political science, as well as professionals who work with traumatised individuals, either directly or indirectly, including psychologists, psychotherapists and social workers. The Hebrew edition of the book was the winner of the 2012 AIS (Association for Israel Studies) Shapiro Award for Best Book in Israel Studies.

**Forms of Address in Mosuli Arabic** Kamal Hussein,2018-08-14 Academic Paper from the year 2018 in the subject Communications - Miscellaneous, University of Mosul, language: English, abstract: The nature of this study is to investigate the socio-cultural rules that govern address usage in daily conversation in Mosuli Arabic within family members. A socio-pragmatic approach is adopted in this study and by using semi-structured interviews to collect data from 80 participants in English Department, College of Education for Humanities, University of Mosul. The selection of the participants is done through four variables namely: age, gender, educational status and marital status. In this study, two theoretical framework are selected as a model of analysis namely the communication accommodation theory and the power and solidarity theory of Brown and Gilman. The study finds that the age and family status are the most effective determiners of address choice in Mosul society. Language is the main way for exchanging information and knowledge. In addition, it shows individuals' identities, cultures, relationships and preferences to become closer or distant from each other. The way people open and end conversation, and address one another in a given situation are significant in the study of communication. Address forms are not neutral in communication. They convey attitudes and feelings; the choice of these terms is based on the way interlocutors evaluate communication situation. The choice of address terms reveals the social relationship between the addresser and the addressee. Meanwhile, it represents the social characteristics of speaker. Every time one person

speaks to another, there is created a host of options centering around whether and how persons will be addressed or named. By now, still there are many unanswered questions about address terms, since address terms are as complicated as the society itself. The main issues are how people address each other and how distinct forms like personal names, family names, pronouns, titles, nicknames are used to address.
