*In Arabian Nights* Tahir Shah,2007-12-26 Tahir Shah's The Caliph's House, describing his first year in Casablanca, was hailed by critics and compared to such travel classics as A Year in Provence and Under the Tuscan Sun. Now Shah takes us deeper into the heart of this exotic and magical land to uncover mysteries that have been hidden from Western eyes for centuries.... In this entertaining and penetrating book, Tahir sets out on a bold new journey across Morocco that becomes an adventure worthy of the mythical Arabian Nights. As he wends his way through the labyrinthine medinas of Fez and Marrakesh, traverses the Sahara sands, and tastes the hospitality of ordinary Moroccans, Tahir collects a dazzling treasury of traditional stories, gleaned from the heritage of A Thousand and One Nights. The tales, recounted by a vivid cast of characters, reveal fragments of wisdom and an oriental way of thinking that is both enthralling and fresh. A link in the chain of scholars and teachers who have passed these stories down for centuries like a baton in a relay race, Shah reaches layers of culture that most visitors hardly realize exist, and eventually discovers the story living in his own heart. Along the way he describes the colors, characters, and the passion of Morocco, and comes to understand why it is such an enchanting land. From master masons who labor only at night to Sufi wise men who write for soap operas, and Tuareg guides afflicted by reality TV, In Arabian Nights takes us on an unforgettable journey, shining a light on facets of a society that are normally left in darkness.

The arabian nights Andrew Lang,2023-11-06 The Arabian Nights, also known as One Thousand and One Nights, is a collection of Middle Eastern folktales and stories compiled and translated by various authors over centuries. While Andrew Lang is known for his colorful translations of folklore, he is not the primary translator or compiler of The Arabian Nights. The collection is derived from various sources and has been translated by many individuals over time. The Arabian Nights includes famous tales such as Ali Baba and the Forty Thieves, Aladdin and the Magic Lamp, Sindbad the Sailor, and many others. These stories are set in the Islamic Golden Age and feature a mix of adventure, fantasy, and romance. They have had a profound influence on world literature and storytelling. Andrew Lang, a Scottish author and folklorist, is better known for his collections of fairy tales, including the Colored Fairy Books series. While he contributed to the world of folklore and fairy tales, his work primarily consisted of translations and adaptations rather than being the principal translator or compiler of The Arabian Nights.

*Rebel of the Sands* Alwyn Hamilton,2016-03-08 The New York Times bestselling novel by the Goodreads Choice Awards Best Debut Author of 2016, published in 15 countries! Mortals rule the desert nation of Miraji, but mythical beasts still roam the wild and remote areas, and rumor has it that somewhere, djinn still perform their magic. For humans, it's an unforgiving place, especially if you're poor, orphaned, or female. Amani Al'Hiza is all three. She's a gifted gunslinger with perfect aim, but she can't shoot her way out of Dustwalk, the back-country town where she's destined to wind up wed or dead. Then she meets Jin, a rakish foreigner, in a shooting contest, and sees him as the perfect escape route. But though she's spent years dreaming of leaving Dustwalk, she never imagined she'd gallop away on mythical horse—or that it would take a foreign fugitive to show her the heart of the desert she thought she knew. This startlingly original Middle-East-meets-Wild-West fantasy reveals what happens when a dream deferred explodes—in the fires of rebellion, of romantic passion, and the all-consuming inferno of a girl finally embracing her power.

The Arabian Nights Encyclopedia [2 volumes] Ulrich Marzolph,Richard van Leeuwen,2004-08-24 The most comprehensive treatment of the Arabian Nights ever published, with more than 800 detailed encyclopedic entries and a wealth of authoritative essays and resources. The tales of the Arabian Nights have long been the focus of scholarly research and critique, but no English language work has ever attempted an all-embracing treatment of them. The fruit of years of research, The Arabian Nights Encyclopedia is the first comprehensive reference work introducing both the Arabian Nights and the context of their genesis and aftermath in Near Eastern, European, and world culture. Editors Ulrich Marzolph, one of the world's foremost scholars of Near Eastern narrative culture, and Richard van Leeuwen, a prominent scholar of the Arabian Nights, present detailed, authoritative, and up-to-date research on virtually all aspects of the tales, including major protagonists, themes,

In addition to the 800+ encyclopedic entries and numerous essays, the work introduces research that has not previously been published, making it an invaluable resource to scholars, educators, students, and the general public, as well as an essential addition to the core collection of academic and public libraries.

**Dark Ecology** Timothy Morton,2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in Blade Runner (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.
