Using detailed illustrations the authors investigate early Arabic papyri and early Islamic inscriptions as well as classical Arabic scripts. John F. Healey and G. Rex Smith bring the story up to the present day by examining the practice of calligraphy, printing and computing in Arabic.

A Guide to Writing Arabic Sara Hoffmeier, 2012 One of the myths surrounding Arabic is that the script is impossible to learn. This is not true. Writing Arabic is much easier than you would imagine. Arabic uses an alphabet, not hieroglyphs or pictograms. And there are far fewer shapes to master in Arabic than in the European languages. In Arabic there is really only one basic shape for each of the 28 letters of the alphabet. There are no capital letters and there is no real distinction between print and handwriting. Furthermore, writing from right to left is not as difficult as many people would imagine. In many ways it is a more natural movement to be pushing the pen rather than pulling it, certainly for someone who is right handed. This guide will take you through the Arabic alphabet, letter by letter, explain how to write each letter, how to combine the letters, and it will provide plenty of opportunities for practise. This guide is also a great first introduction to the Arabic language.

Learn Arabic Nizar Hajj Ahmad, 2017-12-27 This book was designed to introduce Arabic Alphabet to learners of All ages. The book is in two parts: The Student's Book and the Activity Book. The Student's Book includes the basic lessons with supportive exercises and wordlists. The Activity Book includes the reading and writing activities which reinforce the material covered in the Student's Book. The objective of dividing this work into two books is to make it easier for learners, especially the young ones. To cover all alphabet items and provide sufficient and variant exercises is somehow unachievable within one book as it will become bulky; heavy to carry and handle. The work is divided in a way that it can be used easily and practically. The Student's Book can be used to learn how to read while acquiring new vocabulary items. The Activity Book is to practice writing and reinforce the vocabulary items through various quizzes and exercises. Every word in the book is illustrated with an image to link the visual memory (the

identified) to the written form of the word (The identifier). Each chapter is entailed with a word list that includes all the words in the chapter. The words are presented in three aspects: - Arabic - English - Image Although the book is illustrated in a way that it looks like a children's book, it can be practically used by adult learners to learn the alphabet, how to read and build up their vocabulary. The book is originally aimed to introduce Arabic Alphabet to speakers of other languages. However, because it uses English as the main medium to introduce Arabic, the book can be used to increase the English vocabulary of Arab children who are using the book to learn Arabic. Therefore, the book can be used by primary schools in non-Arabic speaking countries or international schools in Arab countries to teach early years pupils. The Student's Book includes 8 chapters. Each of these chapters includes the following sections: 1. Letters and Words 2. Reading exercises 3. Wordlist with images The Activity Book includes relevant chapters to the lessons in the Student's Book. Each chapter includes: - Reading exercises - Quizzes - Colouring activities - Writing activities The parent or teacher can start with the Student's Book and move to the Activity Book whenever they think that the learner is ready to explore and do more exercises.
