A Brief Introduction to The Arabic Alphabet John F. Healey,G. Rex Smith,2012-02-13 The Arabic alphabet has a rich history, one that is closely linked with the development of culture and society in the Middle East. In this comprehensive introduction the authors trace the origins of the Arabic alphabet back to Aramaic, which also gave rise to the Hebrew and Greek alphabets. Using detailed illustrations the authors investigate early Arabic papyri and early Islamic inscriptions as well as classical Arabic scripts. John F. Healey and G. Rex Smith bring the story up to the present day by examining the practice of calligraphy, printing and computing in Arabic.

The book is a useful resource for any Arabic school. Genie Arabic letters for kids will be in particular helpful for teaching and learning Arabic for beginners of all ages, particularly learners who do not necessarily live with a native speaker. The letter alif is soundless and used to express the long vowel 'aa' and also as a support for the hamza sign. - The Arabic language does not contain capital letters. The Arabic letters are written in slightly different forms, depending on whether they come at the beginning, middle, or end of a word. For your learning practice curve, this volume milestone step starts with isolated letters. Arabic Language Sound Transcription This workbook includes guided sound pronunciation suitable for native English speakers. However, we advise looking for letters sounds over the internet, especially for authentic Arabic letters pronunciation. What to Expect from Genie Arabic Writing Workbook? **A Guide to Writing Arabic** Sara Hoffmeier,2012 One of the myths surrounding Arabic is that the script is impossible to learn. This is not true. Writing Arabic is much easier than you would imagine. Arabic uses an alphabet, not hieroglyphs or pictograms. And there are far fewer shapes to master in Arabic than in the European languages. In Arabic there is really only one basic shape for each of the 28 letters of the alphabet. There are no capital letters and there is no real distinction between print and handwriting. Furthermore, writing from right to left is not as difficult as many people would imagine. In many ways it is a more natural movement to be pushing the pen rather than pulling it, certainly for someone who is right handed. This guide will take you through the Arabic alphabet, letter by letter, explain how to write each letter, how to combine the letters, and it will provide

plenty of opportunities for practise. This guide is also a great first introduction to the Arabic language.
