*Bridges Translation of the Ten Qira at of the Noble Qur'an* Fadel Soliman,2020-01-31 Bridges' translation aims to help non-Arabic readers in pondering the Qur'an (tadabbor). The translators focused not only on translating what God meant to say, but also on translating how He spoke. There are three main new features in this translation that make it unique: 1. It is the first translation which includes the ten Qira'at (modes of recitation). The main text is written in accordance with the Qira'a of Asem, narrated by Hafsa. Variations from that are presented in footnotes denoted by 'Q'. The translation presents around 30% of the variations of the Qira'at--those which affect the meaning. 2. It is the first translation that takes into consideration the Qur'anic phenomenon of grammatical shifts, whether in verb tenses, numbers, or pronouns. These are a great source of pondering for the reader. 3. To denote whether a pronoun like 'you' or an imperative verb like 'say' is plural, dual, or singular, the translators did not impose their understanding on the reader by adding text between brackets like (O Prophet) to denote singular form, or (O mankind) to denote plural form. Rather, this distinction was achieved by adding a superscript after pronouns and imperative verbs. For example: youpl is used for a plural pronoun, yousg for a singular pronoun, and youdl for a dual pronoun.

Fluent Forever Gabriel Wyner,2014-08-05 NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn’t learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he’s discovered. Starting with pronunciation, you’ll learn how to rewire your ears and turn foreign sounds into familiar sounds. You’ll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you’ll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you’ll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
