

Arabic Radio Online For Ipad 10

Richard Fletcher,Heather Crawford

A Social History of Contemporary Democratic Media Jesse Drew,2013-05-02 The last few decades have helped dispel the myth that media should remain driven by high-end professionals and market share. This book puts forward the concept of communications from below in contrast to the globalization from above that characterizes many new developments in international organization and media practices. By examining the social and technological roots that influence current media evolution, Drew allows readers to understand not only the Youtubes and Facebooks of today, but to anticipate the trajectory of the technologies to come. Beginning with a look at the inherent weaknesses of the U.S. broadcasting model of mass media, Drew outlines the early 1960s and 1970s experiments in grassroots media, where artists and activists began to re-engineer electronic technologies to target local communities and underserved audiences. From these local projects emerged national and international communications projects, creating production models, social networks and citizen expectations that would challenge traditional means of electronic media and cultural production. Drew's perspective puts the social and cultural use of the user at the center, not the particular media form. Thus the structure of the book focuses on the local, the national, and the global desire for communications, regardless of the means.

Research Anthology on Usage, Identity, and Impact of Social Media on Society and Culture Management Association, Information Resources,2022-06-10 Much of the world has access to internet and social media. The internet has quickly become a new hub for not only communication, but also community development. In most communities, people develop new cultural norms and identity development through social media usage. However, while these new lines of communication are helpful to many, challenges such as social media addiction, cyberbullying, and misinformation lurk on the internet and threaten forces both within and beyond the internet. The Research Anthology on Usage, Identity, and Impact of Social Media on Society and Culture is a comprehensive resource on the impact social media has on an individuals' identity formation as well as its usage within society and cultures. It explores new research methodologies and findings into the behavior of users on social media as well as the effects of social media on society and culture as a whole. Covering topics such as cultural diversity, online deception, and youth impact, this major reference work is an essential resource for computer scientists, online community moderators, sociologists, business leaders and managers, marketers, advertising agencies, government officials, libraries, students and faculty of higher education, researchers, and academicians.

FCO performance and finances Great Britain: Parliament: House of Commons: Foreign Affairs Committee,2011-02-11 This report focusses on the FCO's financial situation and the implications of the Spending Review 2010 for its work and performance, and that of its associated body, the British Council. The FCO is one of the major departmental 'losers' in the Spending Review. Reductions in spending on the FCO, if they result in shortfalls in skilled personnel and technical support in key countries and regions, can have a serious effect in terms of the UK's relations with foreign countries, out of all proportion to the amounts of money involved, especially in relation to the UK's security and that of its Overseas Territories. Cuts to the core FCO budget of even 10% may have a damaging effect on the Department's ability to promote UK interests overseas. The FCO will also face cuts of 55% to its capital budget. The target of raising £50 million per year through selling existing buildings may be difficult to achieve, and may not secure savings in the long-term. A further reduction in the opportunities for more junior UK-based staff to serve in overseas posts, and a consequent diminishing of experience and morale among FCO employees, could over time have a damaging effect on the quality of British diplomacy and the effectiveness of the FCO. The British Council, facing a 25% cut in spending, should give detailed information on its strategy for implementing the cut, which may well trigger fundamental rethinking of the role and work of the Council.

The Media ,2007 As the title suggests, the book commences on the premise that in contemporary conflict, - war amongst the people - the objective is public opinion. Conventional warfare between clearly identifiable armies is no more: now armies are sent to neutralize insurgents, armed militias and terrorists amongst a civilian population, preferably with the latter's consent. A states actors in combating terrorism - the military, the police or the security services - may achieve tactical successes against the terrorists, but strategic success cannot be achieved unless the government and its agencies can both maintain the consent of its population and discredit the goals of the terrorists they face. The media have a vital role to play in both these criteria of success: they must challenge the methods used by governments to ensure the legitimacy of the latter's counter terrorist policy and practice, and they must find a balance between reporting incidents of terrorism and serving the terrorists interests.

The Times Index ,2013 Indexes the Times, Sunday times and magazine, Times literary supplement, Times educational supplement, Time educational supplement Scotland, and the Times higher education supplement.

International Marketing: An Asia-Pacific Perspective Richard Fletcher,Heather Crawford,2013-08-28 International Marketing, 6e is written from a wholly Australasian perspective and covers issues unique to local marketers and managers looking towards the Asia-Pacific region, the European Union, and beyond. It presents a wide range of contemporary issues faced by subsidiaries of multinational enterprises (MNEs) as well as small and medium scale enterprises (SMEs), mainly exporters, which make up the vast bulk of firms involved in international business in the Australasian region. International Marketing, 6e clearly demonstrates the links between the different stages of international marketing, connecting analysis with planning, planning with strategy and strategy with implementation. Key concepts are brought to life with comprehensively updated statistics, recent illustrations, and a variety of real-world examples and case studies.

The Cloud in IoT-enabled Spaces Fadi Al-Turjman,2019-07-31 The Cloud in IoT-enabled Spaces addresses major issues and challenges in IoT-based solutions proposed for the Cloud. It paves the way for IoT-enabled spaces in the next generation cloud computing paradigm and opens the door for further innovative ideas. Topics include Cloud-based optimization in the IoT era, scheduling and routing, medium access, data caching, secure access, uncertainty, home automation, machine learning in wearable devices, energy monitoring, and plant phenotyping in farming. Smart spaces are solutions where Internet of Things (IoT)-enabling technologies have been employed towards further advances in the lifestyle. It tightly integrates with the existing Cloud infrastructure to impact several fields in academia and industry. The Cloud in IoT-enabled Spaces provides an overview of the issues around small spaces and proposes the most up-to-date alternatives and solutions. The objective is to pave the way for IoT-enabled spaces in the next-generation Cloud computing and open the door for further innovative ideas.

Arab Voices James Zogby,2010-10-12 The Arab World is a region that has been vastly misunderstood in the West. Arab Voices asks the questions, collects the answers, and shares the results that will help us see Arabs clearly. The book will bring into stark relief the myths, assumptions, and biases that hold us back from understanding this important people. Here, James Zogby debuts a brand new, comprehensive poll, bringing numbers to life so that we can base policy and perception on the real world, rather than on a conjured reality. Based on a new poll run by Zogby International exclusively for this book, some of the surprising results revealed include: * Despite the frustration with the peace process and the number of wars of the past few years, 74% of Arabs still support a two state solution to the Palestinian-Israeli conflict. And over one-third of Lebanese, Saudis, and Jordanians think that their governments should do more to advance peace. * Despite wars in and around their region and the worldwide economic crisis, when asked Are you better off than you were 4 years ago? 42% of those polled say they are better off, 19% worse off. * Arabs like American people (59% favorable rating), values (52%) and products (69%), giving them all high ratings. And Canada gets high favorability ratings everywhere (an overall rating of 55% favorable and 32%

unfavorable). * However, Arabs overwhelmingly rate American society more violent and war-like (77%) or less respectful of the rights of others (78%) than their own society. Why? Because of the Iraq war and continuing fallout from Abu Ghraib, Guantanamo, and the treatment of Arab and Muslim immigrants and visitors to the United States. * What type of TV show do Saudis and Egyptians prefer to watch? The answer is, Movies, which draws over 50% of the first and second choice votes. In Morocco, the top rated shows are soap operas and music and entertainment programs, drawing almost two-thirds of the first and second choice votes. Religious programs are near the bottom of the list of viewer preferences, garnering less than 10% of votes in all three countries.

The World Book Encyclopedia ,2002 An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

Australia All Over Ian McNamara,2007 Based on the long running ABC radio programme Australia all over.

Nazi Propaganda for the Arab World Jeffrey Herf,2009-11-30 Jeffrey Herf, a leading scholar in the field, offers the most extensive examination to date of Nazi propaganda activities targeting Arabs and Muslims in the Middle East during World War II and the Holocaust. He draws extensively on previously unused and little-known archival resources, including the shocking transcriptions of the "Axis Broadcasts in Arabic" radio programs, which convey a strongly anti-Semitic message. Herf explores the intellectual, political, and cultural context in which German and European radical anti-Semitism was found to resonate with similar views rooted in a selective appropriation of the traditions of Islam. Pro-Nazi Arab exiles in wartime Berlin, including Haj el-Husseini and Rashid el-Kilani, collaborated with the Nazis in constructing their Middle East propaganda campaign. By integrating the political and military history of the war in the Middle East with the intellectual and cultural dimensions of the propagandistic diffusion of Nazi ideology, Herf offers the most thorough examination to date of this important chapter in the history of World War II. Importantly, he also shows how the anti-Semitism promoted by the Nazi propaganda effort contributed to the anti-Semitism exhibited by adherents of radical forms of Islam in the Middle East today.

Big Bang Disruption Larry Downes,Paul Nunes,2014 It used to take years or even decades for disruptive innovations to dethrone dominant products and services. But now any business can be devastated virtually overnight by something better and cheaper. Software-based products are replacing physical goods. And every service provider must compete with cloud-based tools that offer customers a better way to interact. Today, start-ups with minimal experience and no capital can unravel your strategy before you even begin to grasp what's happening. Never mind the innovator's dilemma--This is the innovator's disaster. And it's happening in nearly every industry. The good news is that any business can master the strategy of the start-ups. In our summary of 'Big Bang Disruption : Strategy in the Age of Devastating Innovation', Larry Downes and Paul Nunes identify four key stages of the new innovation life cycle, helping you spot potential disruptors in time. And they offer twelve rules for defending your markets, launching disruptors of your own, and getting out while there's still time. --Back cover.

The Action Bible ,2020-09-01 The Action Bible presents more than 230 fast-paced narratives in chronological order, making it easy to follow the Bible's historical flow and building up to the thrilling climax of God's redemptive story. Plus, these spectacular updates take the action to a whole new level: 25 new stories showcase a more extensive exploration of God's work in our lives. 23 expanded stories highlight additional experiences of the people who tell God's story. 128 new pages of illustrations deliver a richer artistic experience with more close-up faces, historical details, and dramatic colors. Every page sparks excitement to explore God's Word and know Him personally. Readers will witness God's active presence in the world through stories from the life of Jesus and great heroes of the faith. Let this blend of powerful imagery and clear storytelling capture your imagination and instill the truth that invites you to discover your own adventure of life with God. Sergio Cariello's illustrations for The Action Bible leap off the page with the same thrilling energy that earned him international recognition for his work with Marvel Comics and DC Comics.

Commerce Business Daily ,2000-04

Terrorist Use of Cyberspace and Cyber Terrorism: New Challenges and Responses M.N. Ogun,2015-10-08 ICT plays a crucial role in the pursuit of modernization in the countries of Slovenia, Croatia, Albania and Bulgaria, which form the South Eastern European (SEE) region., The quest for Euro-Atlantic integration and the undeniable necessity for direct foreign investment have encouraged the SEE countries to invest in the development of cyber technology, and it has become the dominant area for social, economic and political interaction within the region. This has had both positive and negative consequences. This book presents the proceedings of the NATO Advanced Training Course (ATC), held in Ohrid, former Yugoslav Republic of Macedonia, in December 2014. The ATC addressed serious concerns about terrorist use of cyber technology in South Eastern Europe, which not only has the potential to destabilize regional efforts to create a platform for increased development by creating a breeding ground for the training of extremists and the launching of cyber attacks, but also represents a direct and indirect threat to the security and stability of other NATO partner countries. The book will be of interest to all those involved in countering the threat posed by terrorist use of the Internet worldwide.

Inside Arabic Music Johnny Farraj,Sami Abu Shumays,2019-07-18 What makes hundreds of listeners cheer ecstatically at the same instant during a live concert by Egyptian diva Umm Kulthum? What is the unspoken language behind a taqsim (traditional instrumental improvisation) that performers and listeners implicitly know? How can Arabic music be so rich and diverse without resorting to harmony? Why is it so challenging to transcribe Arabic music from a recording? Inside Arabic Music answers these and many other questions from the perspective of two insiders to the practice of Arabic music, by documenting a performance culture and a know-how that is largely passed on orally. Arabic music has spread across the globe, influencing music from Greece all the way to India in the mid-20th century through radio and musical cinema, and global popular culture through Raqs Sharqi, known as Bellydance in the West. Yet despite its popularity and influence, Arabic music, and the maqam scale system at its heart, remain widely misunderstood. Inside Arabic Music de-mystifies maqam with an approach that draws theory directly from practice, and presents theoretical insights that will be useful to practitioners, from the beginner to the expert - as well as those interested in the related Persian, Central Asian, and Turkish makam traditions. Inside Arabic Music's discussion of maqam and improvisation widens general understanding of music as well, by bringing in ideas from Saussurean linguistics, network theory, and Lakoff and Johnson's theory of cognition as metaphor, with an approach parallel to Gjerdingen's analysis of Galant-period music - offering a lens into the deeper relationships among music, culture, and human community.
