Speculative Everything Anthony Dunne, Fiona Raby, 2013-12-06 How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

The Sumerians Samuel Noah Kramer, 2010-09-17 The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation.—*American Journal of Archaeology* An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity.—*Library Journal*

Economic Fables Ariel Rubinstein, 2012 I had the good fortune to grow up in a wonderful area of Jerusalem, surrounded by a diverse range of people: Rabbi Meizel, the communist Sala Marcel, my widowed Aunt Hannah, and the intellectual Yaacovson. As far as I'm concerned, the opinion of such people is just as authoritative for making social and economic decisions as the opinion of an expert using a model. Part memoir, part crash-course in economic theory, this deeply engaging book by one of the world's foremost economists looks at economic ideas through a personal lens. Together with an introduction to some of the central concepts in modern economic thought, Ariel Rubinstein offers some powerful and entertaining reflections on his childhood, family and career. In doing so, he challenges many of the central tenets of game theory, and sheds light on the role economics can play in society at large. *Economic Fables* is as thought-provoking for seasoned economists as it is enlightening for newcomers to the field.

Ron Arad Ron Arad, Paola Antonelli, 2009 Even among the most influential designers of our time, Ron Arad stands out for the versatile nature of his work and his daredevil use of materials and technology. Idiosyncratic, surprising and always visually arresting, Arad's work communicates joy in creation, pleasure in invention, and pride in technical and constructive qualities. He has deftly avoided a recognizable style for over twenty years; his style is rather a matter of character, reflective of his disregard for established disciplines. Through his own work and his decade long tenure as the Head of Design Projects graduate programme at the Royal College of Art in London, Arad has greatly influenced the current debate on design's relationship with art, technology and innovation, and nurtured some of the most promising young designers in today's international scene. Published to accompany the first major retrospective of Arad's work in the US, the catalogue features an interview with the artist and essays on his use of innovative materials and technology, his role as an educator and communicator on the importance of design, and his place in the

larger design and art market. A lavishly illustrated plate section provides visual and written documentation of approximately eighty works.

Beauty Matters Yael Reisner, 2019-10-21 Beauty in architecture matters again. This issue of AD posits that after 80 years of aggressive suppression of engagement with aesthetics, the temporarily dormant preoccupation with beauty is back. This is evidenced by a current cultural shift from the supposedly objective to an emerging trust in the subjective – a renewed fascination for aesthetics supported by new knowledge emanating simultaneously from disparate disciplines. Digital design continues to influence architectural discourse, not only due to changes in manufacturing but also through establishing meaning. The very term 'post-digital' was introduced by computational designers and artists, who accept that digital gains in architectural design are augmented by human judgement and cognitive intuition. The issue takes an interdisciplinary approach to this re-emerging interest in beauty across neuroscience, neuroaesthetics, mathematics, philosophy and architecture, while discussing the work of the international architects, in both practice and academe, who are generating new aesthetics. Contributors: Alisa Andrasek, Izaskun Chinchilla, Marjan Colletti, Peter Cook, Robbert Dijkgraaf, Winka Dubbeldam, David Garcia, Graham Harman, Claudia Pasquero and Marco Poletto, Alan Powers, Gilles Retsin, Kristina Schinegger and Stefan Rutzinger, Fleur Watson and Martyn Hook and Semir Zeki. Featured architects: Archi-Tectonics, ecoLogicStudio, NaJa & deOstos, Kazuyo Sejima + Ryue Nishizawa/SANAA, soma architecture, Studio Gang, John Wardle Architects and Tom Wiscombe Architecture.

Farther Away Jonathan Franzen, 2012-04-24 Jonathan Franzen's *Freedom* was the runaway most-discussed novel of 2010, an ambitious and searching engagement with life in America in the twenty-first century. In *The New York Times Book Review*, Sam Tanenhaus proclaimed it a masterpiece of American fiction and lauded its illumination, through the steady radiance of its author's profound moral intelligence, [of] the world we thought we knew. In *Farther Away*, which gathers together essays and speeches written mostly in the past five years, Franzen returns with renewed vigor to the themes, both human and literary, that have long preoccupied him. Whether recounting his violent encounter with bird poachers in Cyprus, examining his mixed feelings about the suicide of his friend and rival David Foster Wallace, or offering a moving and witty take on the ways that technology has changed how people express their love, these pieces deliver on Franzen's implicit promise to conceal nothing. On a trip to China to see first-hand the environmental devastation there, he doesn't omit mention of his excitement and awe at the pace of China's economic development; the trip becomes a journey out of his own prejudice and moral condemnation. Taken together, these essays trace the progress of unique and mature mind wrestling with itself, with literature, and with some of the most important issues of our day. *Farther Away* is remarkable, provocative, and necessary.
