Report of the Events Relating to Maher Arar Commission of Inquiry into the Actions of Canadian Officials in Relation to Maher Arar,2006

Rendition to Torture United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations, Human Rights, and Oversight,2007

Hope and Despair Monia Mazigh,2009-10-20 The inspiring story of Monia Mazigh's courageous fight to free her husband, Maher Arar, from a Syrian jail. On September 26, 2002, Maher Arar boarded an American Airlines plane bound for New York, returning early from vacation with his family because a work project needed his attention. He was a Canadian citizen, a telecommunications engineer and entrepreneur who had never been in trouble with the law. His nightmare began when he was pulled aside by Immigration officials at JFK airport, questioned, held without access to a lawyer, and ultimately deported to Syria on the suspicion that he had terrorist links. He would remain there, tortured and imprisoned for over one year. Meanwhile his wife, Monia, and their two children stayed on visiting family in Tunisia, unaware that their lives were about to be torn apart. Upon her return to Canada, Monia was horrified at the media's and public's willingness to assume that the Canadian police and intelligence agencies, and their American counterparts, take on her husband as a terrorist was correct. She began a tireless campaign to bring public attention and government action to her husband's plight, eventually turning the tide of public opinion in Arar's favour, and gaining his release and return to Canada. Of her willingness to speak out, she has said that she was never afraid: "I had lost my life. I didn't have more to lose." This is a remarkable story of personal courage, and of an extraordinary woman who lets us into her life so that other Canadians can understand the denial of rights and the discarding of human rights her family suffered. Candid, poignant, and inspiring, this is the most important book of the season.

Higher Education and the Palestinian Arab Minority in Israel Khalid Arar,Kussai Haj-Yehia,2016-04-08 Higher Education and the Palestinian Minority in Israel examines perceptions concerning the characteristics of higher education acquisition in the indigenous Palestinian Arab minority in Israel. Arar and Haj-Yehia show that Palestinian Arabs in Israel clearly understand the benefit of an academic degree as a lever for social status and integration within the state of Israel. The authors discuss difficulties met by Palestinian high school graduates when they attempt to enter Israel's higher education institutes, and the alternative phenomenon of studying abroad. The cultural difference between Palestinian traditional communities and 'Western' Israeli campuses exposes Arab students to a mix of ethnicities and nationalities, which proves to be a difficult, transformative experience. The book analyzes patterns of higher education acquisition among the indigenous Palestinian minority, describing the disciplines they choose, the challenges they encounter, particularly for Palestinian women students, and explore the implications for the Palestinian minority and Israeli society.

School Leadership for Refugees' Education Khalid Arar, 2020-05-11 School Leadership for Refugees' Education examines how educational leaders shape and lead different practices to meet refugee students' educational needs, while also considering issues of equity and social justice. It presents cutting-edge theoretical understanding and rich first-hand research findings, which point out the local idiosyncrasies and cross-national themes involved in leading welcoming schools for newcomers. The book provides a global analysis of policy guidelines and up-to-date research findings concerning refugee education. Vast populations have been forced to leave their homelands in recent years due to war, political conflict and economic collapse. The countries that provide sanctuary need to ensure quality education that will allow these destitute but hopeful children to build a new future. Through this book a comprehensive model is presented to guide culturally relevant educational leadership to welcome newcomers in their schools and society. This book will be of great interest for academics, researchers, and postgraduate students in the fields of educational leadership, social justice education and educational administration.

The Refugee System Rawan Arar, David Scott FitzGerald, 2022-09-29 Some people facing violence and persecution flee. Others stay. How do households in danger decide who should go, where to relocate, and whether to keep moving? What are the conditions in countries of origin, transit, and reception that shape people's options? This incisive book tells the story of how one Syrian family, spread across several countries, tried to survive the civil war and live in dignity. This story forms a backdrop to explore and explain the refugee system. Departing from studies that create siloes of knowledge about just one setting or solution to displacement, the book's sociological approach describes a global system that shapes refugee movements. Changes in one part of the system reverberate elsewhere. Feedback mechanisms change processes across time and place. Earlier migrations shape later movements. Immobility on one path redirects migration along others. Past policies, laws, population movements, and regional responses all contribute to shape states' responses in the present. As Arar and FitzGerald illustrate, all these processes are forged by deep inequalities of economic, political, military, and ideological power. Presenting a sharp analysis of refugee structures worldwide, this book offers invaluable insights for students and scholars of international migration and refugee studies across the social sciences, as well as policy makers and those involved in refugee and asylum work.

Conversational UX Design Robert J. Moore, Raphael Arar, 2019-05-29 With recent advances in natural language understanding techniques and far-field microphone arrays, natural language interfaces, such as voice assistants and chatbots, are emerging as a popular new way to interact with computers. They have made their way out of the industry research labs and into the pockets, desktops, cars and living rooms of the general public. But although such interfaces recognize bits of natural language, and even voice input, they generally lack conversational competence, or the ability to engage in natural conversation. Today's platforms provide sophisticated tools for analyzing language and retrieving knowledge, but they fail to provide adequate support for modeling interaction. The user experience (UX) designer or software developer must figure out how a human conversation is organized, usually relying on commonsense rather than on formal knowledge. Fortunately, practitioners can rely on conversation science. This book adapts formal knowledge from the field of Conversation Analysis (CA) to the design of natural language interfaces. It outlines the Natural Conversation Framework (NCF), developed at IBM Research, a systematic framework for designing interfaces that work like natural conversation. The NCF consists of four main

components: 1) an interaction model of “expandable sequences,” 2) a corresponding content format, 3) a pattern language with 100 generic UX patterns and 4) a navigation method of six basic user actions. The authors introduce UX designers to a new way of thinking about user experience design in the context of conversational interfaces, including a new vocabulary, new principles and new interaction patterns. User experience designers and graduate students in the HCI field as well as developers and conversation analysis students should find this book of interest.
