Popular Archaeology Dan McLerran,2014-11-11 The first, special premier print edition of Popular Archaeology Magazine is designed as a premium quality coffee table magazine book, published on high quality stock and featuring arguably the finest article content yet published in a single special issue of the magazine. In this beautiful volume, readers will learn about: recent discoveries that are radically changing what we know about human evolution; a sensational discovery in the Yucatán Peninsula of Mexico that shows us how an ancient paleo-american is speaking to us from a watery grave deep underground, shedding new light on Native American origins; how conservationists in a lab are bringing ancient Egyptian artifacts and mummies back to life; the resurrection of an Egyptian pharaoh's grand throne room; the hundreds of new archaeological discoveries being made in Iraqi Kurdistan, where ancient Mesopotamian cities once thrived; new wall-painting discoveries at Angkor Wat; and eye-opening new findings at what is now the largest ancient Mycenaean city ever discovered.

Archaeological Ethics Karen D. Vitelli,Chip Colwell-Chanthaphonh,2006-02-09 The second edition of Archaeological Ethics is an invitation to an ongoing and lively discussion on ethics. In addition to topics such as looting, reburial and repatriation, relations with native peoples, and professional conduct, Vitelli and Colwell-Chanthaphonh have responded to current events and news stories. Twenty-one new articles expand this ongoing discussion into the realm of intellectual property, public outreach, archaeotourism, academic freedom, archaeological concerns in times of war, and conflicting values. These compelling articles, from Archaeology Magazine, American Archaeology, and Expedition are written for a general audience and provide a fascinating introduction to the issues faced every day in archaeological practice. The article summaries, discussion and research questions, and suggestions for further reading_particularly helpful given the vast increase in related literature over the last decade_serve as excellent teaching aids

and make this volume ideal for classroom use.

Snapshots of the Past Brian M. Fagan,1995 Archaeology has been a subject of endless fascination to scholars, students and the general public. For the past three decades, Prof. Brian Fagan has been the key narrator of the story of the past for many, through his textbooks, trade books and numerous magazine and journal articles. In recent years, Fagan has reported on the latest news, theories, and controversies in archaeology through his regular Timelines column in Archaeology Magazine. In Snapshots of the Past, Fagan collects many of these vignettes into a single work, leading the reader on a tour through time and space that ranges from the ascent of the human species to the public controversies that concern today's archaeologist. In these 30 brief chapters, the author offers readers a series of snapshots of the issues of greatest contemporary interest: the Eve hypothesis, the peopling of the New World, site looting, the translation of Mayan hieroglyphs, the domestication of animals, the impact of feminism on archaeology, the archaeology of slavery, and evidence of human cannibalism, among many others. Included among the articles are several pieces written specifically for this volume, including a description of the recent, spectacular cave art finds at Chauvet Grotto in France. For instructors of archaeology, the book is a handy compilation of brief, interesting cases to engage your students. For serious archaeologists, the book represents a collection of works of one of the important synthesizers of the field. For the avocational archaeologist, the book provides a fascinating, readable update on issues of current concern.

Incredible Archaeology Paul Bahn,2020-11-03 Discover the world's best and most beautiful archaeological sites Incredible Archaeology offers a journey through the best archaeological sites the world has to offer. With stunning photography, it serves as both a dazzling spectacle and travel inspiration, making it perfect for armchair travelers and world adventurers alike! Archaeological sites tell a story spanning thousands of years, and the ones in this book range from the well-known to hidden gems, handpicked for their desirability as destinations. Explore the cliff dwellings at Mesa Verde (the largest archaeological preserve in the United States), the Abu Simbel twin temples in Egypt that commemorate Pharaoh Ramesses II and his queen Nefertari, the Terracotta Army in China, the Nazca Lines in Peru that feature large geoglyphs in the desert soil, and the hill fort known as Maiden Castle in England. These are just a sampling of the top-notch sites you'll find in this book. Incredible Archaeology takes a striking tour through human history, so come along!

Writing Archaeology, Second Edition Brian Fagan,2012-03-15 Archaeology's best known author of popular books and texts distills decades of experience in this well-received guide designed to help others wanting to broaden the audience for their work. Brian Fagan's no nonsense approach explains how to get started writing, how to use the tools of experienced writers to make archaeology come alive, and how to get your work revised and finished. He also describes the process by which publishers decide to accept your work, and the path your publication will follow after it is accepted by a press. The new edition contains chapters on academic writing and on writing in the digital environment.

Secrets of Ancient Egypt Archaeology Magazine,2004 The 27 articles are reprinted from both the print and online versions of Archaeology magazine. Some detail recent discoveries, present new interpretations, and explore who lived along the Nile long ago. Others address such issues as how to protect the remains of the ancient culture from development, tourism, looting, and the illicit antiquities trade.

Archaeology & You George E. Stuart,Francis P. McManamon,1996

A Brief History of Archaeology Nadia Durrani,Brian M. Fagan,2016-06-17 This short account of the discipline of archaeology tells of spectacular discoveries and the colorful lives of the archaeologists who made them, as well as of changing theories and current debates in the field. Spanning over two thousand years of history, the book details early digs as well as covering the development of archaeology as a multidisciplinary science, the modernization of meticulous excavation methods during the twentieth century, and the important discoveries that led to new ideas about the evolution

of human societies. A Brief History of Archaeology is a vivid narrative that will engage readers who are new to the discipline, drawing on the authors' extensive experience in the field and classroom. Early research at Stonehenge in Britain, burial mound excavations, and the exploration of Herculaneum and Pompeii culminate in the nineteenth century debates over human antiquity and the theory of evolution. The book then moves on to the discovery of the world's pre-industrial civilizations in Egypt, Mesopotamia, and Central America, the excavations at Troy and Mycenae, the Royal Burials at Ur, Iraq, and the dramatic finding of the pharaoh Tutankhamun in 1922. The book concludes by considering recent sensational discoveries, such as the Lords of Sipán in Peru, and exploring the debates over processual and postprocessual theory which have intrigued archaeologists in the early 21st century. The second edition updates this respected introduction to one of the sciences' most fascinating disciplines.

Native Americans and Archaeologists Nina Swidler, 1997 Since 1978 Daniel B. Reibel's Registration Methods for the Small Museum has been the definitive guide to registration methodology. Long considered an indispensable reference tool by historians and archivists, this new third edition covers topics of increasing significance, such as the new accessibility of computers and the ways in which small museums can actively employ this technology with new registration software. Reibel's considerations of technology and its implications for the small museum excellently supplement the content which originally made this text a classic - an authoritative and comprehensive discussion of effective registration techniques for the small museum presented in a concise, readable manner with sample registrar's manuals forms for immediate use.

Archaeology for the People John Cherry, Felipe Rojas, 2016-02-29 In 2014, the Joukowsky Institute for Archaeology and the Ancient World organized an international writing competition calling for accessible and engaging essays about any aspect of archaeology. Nearly 150 submissions from over two dozen countries were received. Archaeology for the People gathers the best of those entries. Their diverse topics—from the destruction of historic, urban gardens in contemporary Istanbul to the fall of the ancient Maya city—offer a taste of the global reach and relevance of archaeology. Their main common trait, however, is that they prove that archaeology can offer much more to a general audience than Indiana Jones or aliens building pyramids. All of the articles collected in this book combine sophisticated analysis of an exciting archaeological problem with prose geared at a non-specialized audience. This book also offers a series of reflections on how and why to engage in dialogues about archaeology with people who are not specialists. These include a stunning photo-essay that captures the challenges of life at an archaeological site in northern Sudan, interviews with a number of leading archaeologists who have successfully written about archaeology for a broad public or who are actively engaged in practicing archaeology beyond academia, and a discussion of the experience of teaching a Massive Open Online Course (MOOC) about archaeology to over 40,000 students. This book should be of interest to anyone who has wondered how and why to write about archaeology for people other than archaeologists.

Popular Archaeology Dan McLerran, 2014-10-15 This special print edition of the Fall 2014 issue of Popular Archaeology Magazine contains compelling accounts of some recent discoveries and developments in the fields of archaeology and anthropology, including discoveries that have

changed the face of human evolution, a finding in an underwater cave in the Yucatan Peninsula that tells a story with implications for Native American origins, excavations at the largest ancient Mycenaean site ever discovered, new wall paintings at Angkor Wat, and much more.
