Journal of Interdisciplinary Science Topics, Volume 6 Cheryl Hurkett, 2017-06-09 The Journal of Interdisciplinary Science Topics (JIST) forms part of the 'Interdisciplinary Research Journal' module in the third year of both the BSc and MSci Natural Science degrees. It is intended to provide students with hands-on experience of, and insight into, the academic publishing process. The activity models the entire process from paper writing and submission, refereeing other students' papers, sitting on the editorial board that makes final decisions on the papers, to finally publishing in an online journal. This book is a compilation of the papers written by undergraduate students that were published during the 2016/2017 academic year.

Day Camp Programming and Administration Jill Moffitt, 2011 More and more recreation and fitness professionals are called on to create day camps for children in facilities that have traditionally been geared to recreation and fitness users. New programming and operational challenges arise as professionals are asked to serve a different population with innovative programs through these camps. You can overcome those challenges with Day Camp Programming and Administration: Core Skills and Practices. This handy reference, which is geared toward new professionals, will help you * conduct a needs analysis and prepare a proposal for a facility-based camp, regardless of your setting; * develop business and marketing plans for your camp; * manage risk and generate money through your camp; and * manage programming, staff training, and administrative processes from conception through evaluation. The book comes with a CD-ROM that supplies you with a comprehensive set of worksheets and forms to assist you in planning, operating, and evaluating your camp. You can use these printable tools as the book guides you step by step through the camp management process. You will be exposed to an array of program choices and training and administrative tasks that will

help you run successful camps. The author draws on her 12 years of experience in running day camps to help you plan your camp. You will learn how to gather information in making wise decisions as you get started, how to plan for safety and comply with health and safety standards, and how to develop camp policies and communicate with parents. You will then be guided through organizing the camp structure, including registration, the business plan, and the daily schedule. You will explore how to hire, train, develop, and evaluate staff, and you will examine common camp programs and discover how to select and implement your own program. Finally, you will learn how to evaluate your program and use that evaluation in preparing future camps. *Day Camp Programming and Administration: Core Skills and Practices* covers all you need to know to operate your own facility-based day camp--whether you are a professional in a municipal recreation department, a fitness owner looking to branch out, or a campus recreation professional. This guide addresses challenges you'll face as a new day camp provider through practical examples, tried-and-true suggestions, and tips that will help you fulfill your community's needs, increase your bottom line, and provide fruitful experiences for your day campers.

E-Learning in the 21st Century D. Randy Garrison, 2011

Edward I's Granddaughters Louise Wyatt, 2023-06-30 Edward I and his offspring, especially Edward II, are not shrouded by the mists of time. Edward I's two sons and daughter by his second marriage are lesser known, especially the eldest, Thomas Plantagenet of Brotherton. He made no particular impression on history, despite being Earl of Norfolk and Earl Marshal, but Thomas did father three children. Of these, only one is usually remembered: Margaret of Norfolk. Indomitable, defiant, respected and fiercely intelligent, she defied her cousin Edward III more than once and outlived most of her family. Her brother Edward of Norfolk died young but her sister, Alice of Norfolk, survived

childhood. But not for long. In 1338, by the time she was fourteen, Alice was married to Sir Edward Montagu, younger brother of the famous earl of Salisbury, William Montagu and Bishop of Ely, Simon Montagu. Edward was a warrior knight at Crecy, involved in the wars with Scotland, loyal to his brother and his king. The marriage produced five children within a decade, but by 1350 Edward Montagu was showing his dark side and was part of the knightly criminal gangs that terrorized local areas. One day in June 1351, Alice of Norfolk paid the price. Despite being a Plantagenet, daughter of an earl, granddaughter, niece and cousin to kings, Alice of Norfolk has mostly been forgotten. Even looking at contemporary records, Alice hardly features apart from land and property dealings with her husband. A dusty reference to the unfortunate circumstances of her death marks the end of her life and one which will more than likely remain a mystery.

Fandom Culture and The Archers Cara Courage,Nicola Headlam,2022-05-18 Fandom Culture and The Archers looks beyond the popular success of the Archers to explore how the program, and the themes it discusses, are used in teaching, learning, research and professional settings, and how the Academic Archers fandom helps shape these real life impacts.

The Next Generation of Distance Education Leslie Moller,Jason B. Huett,2012-02-07 The world of education is being radically altered with the change being driven by technology, openness, and unprecedented access to knowledge. Older correspondence-style methods of instructional delivery are passé and “classroom adapted to the web” approaches to learning are often ineffective and do little to harness the transformational potential of technology. E-Learning scenarios, mobile technologies, communication and information access, and personal learning environments are becoming mainstream and, as a result, control of the learning process is shifting away from institutions and into the hands of learners. This volumes promotes a forward-thinking agenda for

research and scholarship that highlights new ideas, deep insights, and novel approaches to “unconstrained” learning.

The 13th Target Mark de Castrique,2012-06-29 From the author of *Blackman's Coffin*, one of Amazon's Top 10 Mysteries for 2008 When his wife dies of ovarian cancer, Russell Mullins quits the

Secret Service to repurpose his life. He joins a Washington D.C. private protection company and is assigned to guard Paul Luguire, a Federal Reserve executive and its chief liaison with the U.S. Treasury. Mullins and Luguire form a strong friendship. So when a police detective calls in the middle of the night with word of Luguire's suicide, Mullins doesn't buy it. His doubts are reinforced by Amanda Church, a former Secret Service colleague now in the Federal Reserve's cyber-security unit. She uncovered a suspicious financial transaction initiated by Luguire only days before his death. He authorized unrequested funds to be transferred from the Federal Reserve to a regional bank. Even stranger, after Luguire's suicide, Amanda finds the transaction has been erased from Federal Reserve records. The regional bank now shows the money wired from an offshore account in the name of Russell Mullins. Someone is setting Rusty up. And when the bank president is murdered, Mullins rockets to the top of the suspect list. As a tenacious reporter develops leads, Mullins follows a conspiratorial trail of killing and kidnapping that leads from a shadowy mastermind to the possible destruction of America's financial system. In an age of Wall Street meltdowns and downgrading of the U.S. credit rating, the secretive Federal Reserve has a pivotal role. Twelve targets are known. The clock is ticking. What, or who, is the thirteenth?

Sports web encyclopaedia C. Ashok,2005

Mammon and the Archer O.Henry,2022-07-29 The story is about a wealthy businessman whose son wants to propose to his sweetheart before she leaves the USA for Europe in a couple of days' time. Although the son believes that money cannot buy you time – the one thing he dearly needs more of if he is to woo his beloved – the events of the story suggest that money can be used to buy someone extra time. O. Henry's short stories are well known for their wit, wordplay, warm characterization and clever twist endings.

Educational Media and Technology Yearbook Michael Orey, Robert Maribe Branch, 2016-12-13 The Educational Media and Technology Yearbook has become a standard reference in many libraries and professional collections. It provides a valuable historical record of current ideas and developments in the field. Part one of this updated volume, "Trends and Issues in Learning, Design and Technology," presents an array of chapters that develop some of the current themes listed above, in addition to others. In Part Two, "Leadership Profiles," authors provide biographical sketches of the careers of instructional technology leaders. Part Three, "Organizations and Associations in North America," and Part Four, "Worldwide List of Graduate Programs in Learning, Design, Technology, Information or Libraries," are, respectively, directories of instructional technology-related organizations and institutions of higher learning offering degrees in related fields. Finally, Part Five, the "Mediagraphy," presents an annotated listing of selected current publications related to the field.

Quarterly Review of Distance Education Michael Simonson, Anymir Orellana, 2022-12-01 The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles, research briefs, reviews, and editorials dealing with the theories, research, and practices of distance education. The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors. The Quarterly Review publishes full-length manuscripts as well as research briefs, editorials, reviews of programs and scholarly works, and columns. The Quarterly Review defines distance education as institutionally-based formal education in which the learning group is separated and interactive technologies are used to unite the learning group.

Liberty Is Sweet Woody Holton, 2021-10-19 A "deeply researched and bracing retelling" (Annette Gordon-Reed, Pulitzer Prize-winning historian) of the American Revolution, showing how the

Founders were influenced by overlooked Americans—women, Native Americans, African Americans, and religious dissenters. Using more than a thousand eyewitness records, *Liberty Is Sweet* is a “spirited account” (Gordon S. Wood, Pulitzer Prize-winning author of *The Radicalism of the American Revolution*) that explores countless connections between the Patriots of 1776 and other Americans whose passion for freedom often brought them into conflict with the Founding Fathers. “It is all one story,” prizewinning historian Woody Holton writes. Holton describes the origins and crucial battles of the Revolution from Lexington and Concord to the British surrender at Yorktown, always focusing on marginalized Americans—enslaved Africans and African Americans, Native Americans, women, and dissenters—and on overlooked factors such as weather, North America’s unique geography, chance, misperception, attempts to manipulate public opinion, and (most of all) disease. Thousands of enslaved Americans exploited the chaos of war to obtain their own freedom, while others were given away as enlistment bounties to whites. Women provided material support for the troops, sewing clothes for soldiers and in some cases taking part in the fighting. Both sides courted native people and mimicked their tactics. *Liberty Is Sweet* is a “must-read book for understanding the founding of our nation” (Walter Isaacson, author of *Benjamin Franklin*), from its origins on the frontiers and in the Atlantic ports to the creation of the Constitution. Offering surprises at every turn—for example, Holton makes a convincing case that Britain never had a chance of winning the war—this majestic history revivifies a story we thought we already knew.

Fostering Innovation in Venture Capital and Startup Ecosystems Sharma, Renuka, Mehta, Kiran, Yu, Poshan, 2024-03-11 The disruptive potential of technologies such as Artificial Intelligence (AI), blockchain, the Internet of Things (IoT), and biotechnology catalysts redefine traditional business models and serve as instrumental forces in attracting venture capital investments. The lower barriers

to entry, facilitated by these disruptive technologies, empower entrepreneurs to bring their ideas to market, creating a more accessible landscape for funding and innovation. *Fostering Innovation in Venture Capital and Startup Ecosystems* explores this transformative intersection, where emerging technologies catalyze change, fuel innovation, and redefine the dynamics of financial investments and entrepreneurial endeavors. Moreover, the book delves into how embracing AI, IoT, blockchain, and augmented reality/virtual reality can expedite innovation, enhance efficiency, and scale businesses. Through a multidisciplinary lens, readers understand how these technologies influence established markets, drive economic growth, and create job opportunities. This book is ideal for venture capitalists, angel investors, entrepreneurs, startup founders, and policymakers.

International Trade Law and Domestic Policy Jacqueline Krikorian, 2012 Critics of the World Trade Organization argue that its binding dispute settlement process imposes a neoliberal agenda on its member states with little to no input from their citizenry or governments. If this is the case, why would any nation agree to participate? In *International Trade Law and Domestic Policy*, Jacqueline Krikorian explores this question by examining the impact of the WTO's dispute settlement mechanism on domestic policies in the United States and Canada. She demonstrates that the WTO's ability to influence domestic arrangements has been constrained by three factors: judicial deference, institutional arrangements, and strategic decision making by political elites in Ottawa and Washington. In this groundbreaking assessment of whether supranational courts are now setting the legislative agenda of sovereign nations, Krikorian brings the insights of law and politics scholarship to bear on a subject matter traditionally addressed by international relations scholars. By doing so, she shows that the classic division between these two fields of study in the discipline of political science, though suitable in the postwar era, is outdated in the context of a globalized world.

Jeffrey Archer: The Kurds "The Simple Truth" Lorraine Holloway-White,2013-05-01 Possible government cover-up's, media blackout's, Princess Diana, MI5, politics and an ordinary woman right in the heart of it. Jeffrey Archer is the only name people connect to Kurdish Relief, as he was given a peerage based on a concert named The Simple Truth, claiming responsibility for raising GBP57 million. This proved to be just that, a claim. Behind the scenes, British Aid for the Kurds (BAFK) were the largest independent Relief Aid organisation at the time, but who were they? Their work went unreported with achievements hidden. Raising approximately GBP200 million worth of relief aid, they were deemed unimportant. John Major's government instead pushed Jeffrey Archer as the hero of the hour instead- why? BAFK's appeal was launched almost a month before Archer's. Why was he given a life peerage for one of the smallest relief aid efforts for the Kurds? Why was there not room for both appeals? The story starts with Parcels for the Gulf. Read the facts and decide for yourselves.
