Argo Antonio J. Mendez, Matt Baglio, 2012 The true, declassified account of CIA operative Tony Mendez's daring rescue of American hostages from Iran that inspired the critically-acclaimed film directed by and starring Ben Affleck, and co-starring John Goodman, Alan Arkin, and Bryan Cranston. On November 4, 1979, Iranian militants stormed the American embassy in Tehran and captured dozens of American hostages, sparking a 444-day ordeal and a quake in global politics still reverberating today. But there is a little-known drama connected to the crisis: six Americans escaped. And a top-level CIA officer named Antonio Mendez devised an ingenious yet incredibly risky plan to rescue them before they were detected. Disguising himself as a Hollywood producer, and supported by a cast of expert forgers, deep cover CIA operatives, foreign agents, and Hollywood special effects artists, Mendez traveled to Tehran under the guise of scouting locations for a fake science fiction film called *Argo*. While pretending to find the perfect film backdrops, Mendez and a colleague succeeded in contacting the escapees, and smuggling them out of Iran. Antonio Mendez finally details the extraordinarily complex and dangerous operation he led more than three decades ago. A riveting story of secret identities and international intrigue, *Argo* is the gripping account of the history-making collusion between Hollywood and high-stakes espionage.

Unsinkable Daniel Allen Butler, 2012-01-02 The first modern work to give a comprehensive picture of the RMS Titanic and the people intertwined with her fate, from disaster to recovery. Drawn from primary sources and contemporary accounts and updated to coincide with the April 2012 anniversary, this new heart-rending narrative allows readers to come to their own conclusions about this legendary vessel. Daniel Allen Butler spend more than 30 years researching the work, delving into the lives of every principal participant. In addition to examining the roles played by individual, he also looks into the problems of equipment and errors in technical data that resulted in the deaths of 1502 people. Rather than focussing on the night of the tragedy alone, he also investigates the events leading up to and following the fateful night.

Upside Down Margaret B. Blackman, 2004-01-01 In the roadless Brooks Range Mountains of northern Alaska sits Anaktuvuk Pass, a small, tightly knit Nunamiut Eskimo village. Formerly nomadic hunters of caribou, the Nunamiut of Anaktuvuk now find their destiny tied to that of Alaska's oil-rich North Slope, their lives suddenly subject to a century's worth of innovations, from electricity and bush planes to snow machines and the Internet. Anthropologist Margaret B. Blackman has been doing summer fieldwork among the Nunamiut over a span of almost twenty years, an experience richly and movingly recounted in this book. A vivid description of the people and the life of Anaktuvuk Pass, the essays in *Upside Down* are also an absorbing meditation on the changes that Blackman herself underwent during her time there, most wrenchingly the illness of her husband, a fellow anthropologist, and the breakup of their marriage. Throughout, Blackman reflects in unexpected and enlightening ways on the work of

anthropology and the perspective of an anthropologist evermore invested in the lives of her subjects. Whether commenting on the effect of this place and its people on her personal life or describing the impact of ?progress? on the Nunamiut?the CB radio, weekend nomadism, tourism, the Information Superhighway?her essays offer a unique and deeply evocative picture of an at once disappearing and evolving world.
