**Beyond Aspectual Semantics** Astrid De Wit, Frank Brisard, Carol Madden-Lombardi, Michael Meeuwis, Adeline Patard, 2024-03-08 This volume brings together insights from leading scholars in the field of grammatical aspect to examine the multifaceted nature of this pivotal linguistic resource used to express temporal meaning. The contributors explore the many ways in which linguistic research can move beyond canonical semantic analyses of aspect, which still focus to a great extent on objective temporal features of what can be called 'situation models', i.e. integrated cognitive representations of designated states of affairs. The chapters in this volume widen this outlook by concentrating on less typical contexts in which aspectual constructions are used, e.g. for affective purposes, to mark the epistemic status of situations, or to shape narrative structures. This focus on non-prototypicality is also reflected in the languages investigated, many of which are understudied with respect to their aspectual constructions, including several African languages and the sign language Kata Kolok. The volume adopts a multidisciplinary methodological approach, and introduces possible directions for future research based on experimental studies, fieldwork research, and translation mining.

Herald Of The Dead George T.K.,2023-06-22 Barely living through the Brotherhood's plans, Arin must survive in a city teeming with intrigue and schemes that rarely include his well-being. More and more of his memories bubble to the surface, making him question whether he genuinely wants to know the truth about himself. On the other hand, the Church strives for its own goals, ignoring the main danger and pushing the world a step closer to catastrophe. Ambition and prophecy will collide in a battle of wills that will determine the fate of many. Matters get further complicated by Arin's lack of magic and the horde of undead about to end all living things in their path.

**Turkey and the Kurdish Peace Process** Arin Savran,2022-11-03 After the fall of the Ottoman Empire following World War I, the Kurds in the Middle East became the largest ethnic group in the region without a state of their own. Divided between Turkey, Syria, Iran, and Iraq, the Kurds have fought for their right to exist as a distinct national group, as well as for governing themselves. **Turkey and the Kurdish Peace Process** provides a historical and conceptual account of events in order to detail the key conditions, factors, and events that gave rise to the PKK (Kurdistan Workers' Party) conflict in Turkey, as well as the conditions influencing the emergence, management, and collapse of the peace talks. Drawing from conflict resolution theories, this book

investigates the transformation of key conflict actors and changes, over time, in their approach to the main conflict issues. Moreover, Arin Y. Savran expands the concept of conflict transformation to encompass the ideological transformation of a movement as a result of a rigorous and deep intellectual epiphany on the part of the political leaders—a phenomenon that is unusual and little is known about, making it all the more relevant to include in future theoretical approaches in peace process studies.

Methodologically, she rethinks conflict transformation/resolution approaches to focus on shifts in beliefs and relationships that occur prior to a peace process or the start of peace negotiations, when often much focus on peace processes is on the post-agreement phase. This book is among the first comprehensive, scholarly accounts to date (in the English language) that analyzes the Kurdish peace process.

Some Assembly Required and Rethinking Normal Arin

Andrews, Katie Rain Hill, 2014-09-30 Two teens. Two struggles. Two unforgettable stories. Now available in one ebook, Arin Andrews and Katie Hill share their personal journeys of undergoing gender reassignment in two inspiring memoirs: *Some Assembly Required* and *Rethinking Normal*. About *Some Assembly Required: The Not-So-Secret Life of a Transgender Teen*: We've all felt uncomfortable in our own skin at some point, and we've all been told that "it's just a part of growing up." But for Arin Andrews, it wasn't a phase that would pass. He had been born in the body of a girl and there seemed to be no relief in sight... In this first-of-its-kind memoir, Arin details the journey that led him to make the life-transforming decision to undergo gender reassignment as a high school junior. He also writes about the thrill of meeting and dating a young transgender woman named Katie Hill—and the heartache that followed after they broke up. *Some Assembly Required* is a true coming-of-age story about knocking down obstacles and embracing family, friendship, and first love. But more than that, it is a reminder that self-acceptance does not come ready-made with a manual and spare parts. Rather, some assembly is always required. About *Rethinking Normal: A Memoir in Transition*: Have you ever worried that you'd never be able to live up to your parents' expectations? Have you ever imagined that life would be better if you were just invisible? Have you ever thought you would do anything—anything—to make the teasing stop? Katie Hill had and it nearly tore her apart. Katie realized very young that a serious mistake had been made: she was a girl who had been born in the body of a boy. In this first-person account, Katie reflects on her pain-filled childhood and the events leading up to the life-changing decision to undergo gender reassignment as a teenager. She reveals the unique challenges she faced

while unlearning how to be a boy and shares what it was like to navigate the dating world and experience heartbreak for the first time in a body that matched her gender identity. Told in an unwaveringly honest voice, *Rethinking Normal* is a coming-of-age story about transcending physical appearances and redefining the parameters of “normalcy” to embody one’s true self.

*Is It Really That Simple?* Arin Luke, 2012-12-26 It doesn’t matter what you believe if what you believe isn’t the truth... Have you ever stopped for more than 30 seconds and thought, Why are we here? Why am I here? Why do I get up every day and go to work? Seek relationships? Desire more? Why do I always feel the need to be in control of life? Of my life? Why does Earth exist? Why does anything exist? The grind of our everyday lives shields us from searching for the most fundamental aspect of human existence: Answering the question of “Why?” Due to the human nature that we involuntarily receive at birth, we all form our own opinions as to assigning the meaning of something. Regardless of our individual viewpoints, we can however all agree upon one central thing... everything, undoubtedly, has meaning. The meaning of any entity can only be determined by its creator. Do you really know why the Creator created you?

**The Next IQ** Arin N. Reeves, 2019-09-23 This groundbreaking new book will introduce you to new ways of thinking about leadership and inclusion in the workplace through an integrated exploration of research studies, stories, learning experiences, and tested solutions. In it, you'll discover how to make individual and collective intelligence more intelligent by changing the way you, and your organization, thinks. The world-changing events of the last few years -- from the use of social media in the protests in Egypt and the hair-trigger volatility in the global financial markets, to the natural disasters in Japan-- have illustrated how the world has become inextricably interconnected. This interconnectedness has changed the ways in which we respond and react, but it must also change the ways in which we think so that we can lead proactively and not reactively. *The Next IQ: The Next Level of Intelligence for 21st Century Leaders* illustrates this change in the way we think -- from the transformation of leadership from being rooted in individual expertise to being formed from multiple and diverse perspectives. It's the start of a conversation on how we need to think, learn, and lead in this new millennium. **Narratives of Hurricane Katrina in Context** Arin Keeble, 2019-05-29 This book analyzes six key narratives of Hurricane Katrina across literature, film and television from the literary fiction of Jesmyn Ward to the cinema of Spike Lee. It argues that these texts engage with the human tragedy and political fallout of the Katrina crisis while simultaneously responding to issues that have characterized the wider, George W. Bush era of American

history; notably the aftermath of 9/11 and ensuing War on Terror. In doing so it recognizes important challenges to trauma studies as an interpretive framework, opening up a discussion of the overlaps between traumatic rupture and systemic or, “slow violence.”

*Big Events, Small Clauses* Cathrine Fabricius-Hansen, Dag Haug, 2012-10-01 This book investigates specific syntactic means of event elaboration across seven Indo-European languages (English, German, Norwegian, French, Russian, Latin and Ancient Greek): bare and comitative small clauses (“absolutes”), participle constructions and related clause-like but non-finite adjuncts that increase descriptive granularity with respect to constitutive parts of the matrix event (elaboration in the narrowest sense), or describe eventualities that are co-located and connected with but not part of the matrix event. The book falls in two parts. Part I addresses central theoretical issues: How is the co-eventive interpretation of such adjuncts achieved? What is the internal syntax of participial and converb constructions? How do these constructions function at the discourse level, as compared to various finite structures that are available for co-eventive elaboration? Part II takes an empirical cross-linguistic perspective. It consists of five self-contained chapters that are based on parallel corpora and study either the use of a specific construction across at least two of the seven object languages, or how a specific construction is rendered in other languages.
