The Entrepreneurial Librarian Mary Krautter,,Mary Beth Lock,Mary G. Scanlon,2014-01-10 The old image of an entrepreneur as a scrappy, independent risk-taker has been replaced by the reality of individuals incorporating innovative ideas in more traditional settings. This collection of essays illustrates how librarians are infusing entrepreneurial principles in a variety of arenas, including public, private, academic, and special libraries. It chronicles how entrepreneurial librarians are flourishing in the digital age, advocating social change, responding to patron demands, designing new services, and developing exciting fundraising programs. Applying new business models to traditional services, they eagerly embrace entrepreneurship in response to patrons' demands, funding declines, changing resource formats, and other challenges. By documenting the current state of entrepreneurship in libraries, this volume upends the public image of librarians as ill-suited to risky or creative ventures and places them instead on the cutting edge of innovations in the field.

Rural Areas in Transition Norman Walzer,Christopher Merrett,2022-12-23 This volume explores new opportunities to reshape local economies in rural areas during the next decade by exploring successful efforts already underway. While reported population declines can paint a bleak picture for rural areas, a different story can be told in looking at the numbers of households, employment, and housing markets. In fact, many rural areas have had steady employment and healthy housing markets. Rural attractions often include proximity to natural recreation areas, personal safety, social interaction, less expensive housing, and high-quality education. This book shows that rural areas are in a major long-term transition and that local leaders who take advantage of these opportunities in their community and economic development strategies can create a very positive future for residents. Students and policymakers in local economic development, sociology of population change, business finance, political economy, and geography will find this a useful resource.
