The Russian Way of War Department of Department of the Army,2019-07-17 PRINTED IN COLOR
- The Russian Way of War - Force Structure, Tactics, and Modernization of the Russian Ground Forces Published by the U.S. Army Training and Doctrine Command G2's Foreign Military Studies Office in 2016, this book picks up where the FM 100-2 series left off and discusses Russian military structure, capabilities, and future development. Includes July 2019 BONUS materials on the following:

*1K17 Szhatie (1К17 Шхатие) Russian Stiletto Laser Tank *Combat Laser System (Peresvet)
 Russian Laser Cannon *T-14 Armata Main Battle Tank *T-15 Heavy Infantry Combat Vehicle
 *Kurganets-25 Light Tracked Armored Vehicle *2S35 Koalitsiya-SV 152-mm Self-Propelled Howitzer
 *VPK-7829 Bumerang Modular Infantry Wheeled Fighting Vehicle

Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound

paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

Armed Forces ,1982

Fire from the Sky Richard C Knott,2016-02-15 *Fire from the Sky* is the first complete history of the most decorated Navy squadron of the Vietnam War. Richard C. Knott tells the dramatic history of the HAL-3 Seawolves, the U.S. Navy's first and only helicopter gunship squadron of the Vietnam War. The squadron was established “in country” to support the fast, pugnacious river patrol boats of the brown water navy. Flying combat-worn Hueys borrowed from the Army, the mission of the Seawolves quickly expanded to include rapid response air support to any friendly force in the Delta needing immediate assistance. The Seawolves inserted SEALs deep into enemy territory, and extracted them, often

despite savage enemy opposition. They rescued friendly combatants from almost certain capture or death, and evacuated the wounded when Medevac helicopters were not available.

Army and Navy Journal ,1947

River Warfare in Vietnam Robin L. Rielly,2024-02-19 America's entrance into the wars in Vietnam came as a result of several factors. Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion. This expansion was intensified by the outbreak of the Korean War, making it necessary for the United States to revamp its Southeast Asian policy. During the French era, control of Vietnam's rivers, streams and canals became necessary. This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam. The focal point of this study is a new assessment of the conduct of river warfare. Drawing on little-known French, Vietnamese and American sources and materials, it sheds light on an important aspect of the Vietnam War. Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject.
