*Cash Incentives and Military Enlistment, Attrition, and Reenlistment* Beth J. Asch,2010 This monograph provides an empirical analysis of the enlistment, attrition, and reenlistment effects of bonuses, applying statistical models that control for such other factors as recruiting resources, in the case of enlistment and deployments in the case of reenlistment, and demographics. Enlistment and attrition models are estimated for the Army and our reenlistment model approach is twofold. The Army has greatly increased its use of reenlistment bonuses since FY 2004, and we begin by providing an in-depth history of the many changes in its reenlistment bonus program during this decade. We follow this with two independent analyses of the effect of bonuses on Army reenlistment. As we show, the results from the models are consistent, lending credence to the robustness of the estimates. One approach is extended to the Navy, the Marine Corps, and the Air Force, to obtain estimates of the effect of bonuses on reenlistment for all services. We also estimate an enlistment model for the Navy. The estimated models are used to address questions about the cost-effectiveness of bonuses and their effects in offsetting other factors that might adversely affect recruiting and retention, such as changes in the civilian economy and frequent deployments--P. iii.

*The Pathet Lao: Leadership and Organization* Joseph Jeremiah Zasloff,1973 The report analyzes the Laotian revolutionary movement commonly known as the Pathet Lao--its leaders, commanding party (People's Party of Laos), the Lao Patriotic Front, its political and administrative organization, and its military forces. The document also presents biographical information on 12 'founding fathers' who are probably among the leading policymakers, and discusses their characteristics. Leadership continuity is remarkable, having lasted through 20 years of intermittent war and coalition with no evidence of major purges or defections. Eight appendixes include biographies, policy statements, a list of fronts, and brief profiles of 53 informants.

*U.S. Marines In Vietnam: The Landing And The Buildup, 1965* Dr. Jack Shulimson,Maj. Charles M. Johnson,2016-08-09 This is the second volume in a series of chronological histories prepared by the Marine Corps History and Museums Division to cover the entire span of Marine Corps involvement in the Vietnam War. This volume details the Marine activities during 1965, the year the war escalated and major American combat units were committed to the conflict. The narrative traces the landing of the nearly 5,000-man 9th Marine Expeditionary Brigade and its transformation into the II Marine Amphibious Force, which by the end of the year contained over 38,000 Marines. During this period, the Marines established three enclaves in South Vietnam's northernmost corps area, I Corps, and their mission expanded from defense of the Da Nang Airbase to a balanced strategy involving base

defense, offensive operations, and pacification. This volume continues to treat the activities of Marine advisors to the South Vietnamese armed forces but in less detail than its predecessor volume, U.S. Marines in Vietnam, 1954-1964; The Advisory and Combat Assistance Era.
