Arpeggios for the Evolving Guitarist (USC) PAT KELLEY, 2016-06-14 Arpeggios are chord notes played one at a time rather than strummed or plucked all together. They are an essential part of great improvising and melody writing because playing chord notes in the right places creates solid melody lines. Chord notes sound more resolved than notes that are chromatic (out of the key). Practicing arpeggios will improve your ability to learn melodies, make reading music easier, and develop your tone and picking accuracy. The first part of this book focuses on the basic fingerings of the following six arpeggios: major 7th, major 7th (#5), dominant 7th, minor 7th, minor 7th (b5), and diminished 7th. This book along with its accompanying audio represents a comprehensive guide to all things arpeggio. It delves into traditional applications of arpeggios, as well as how they relate to slash chords, modal music and more. The student will learn about how arpeggios fall over standard chord progressions, as well as how to embellish arpeggios to make them more musical in performance

situations. Includes access to online audio

All the exercises from the headings of the table of contents progress from easy to advanced in a progressive format. Although this is a book of exercises rather than a method, I have included many helpful tips throughout the book to aid students. As with all my materials, the video lessons are an added educational advantage. Intended for beginner to early-advanced classical guitar students (approximately RCM Toronto Grade 1-9). As a basic prerequisite students would have completed both Volume One and Two of my beginner method book series or an equivalent. There are a number of exercises in upper positions that include accidentals, therefore, additional reading experience is required if you wish to study the entire book. The inclusion of fingering, string numbers, and position marks should make the exercises easy to understand. The 100 open string exercises should be very accessible to beginners and advanced students alike.
