The Art of Communicating Thich Nhat Hanh, 2013-08-13 Zen master Thich Nhat Hanh, bestselling author of *Peace is Every Step* and one of the most respected and celebrated religious leaders in the world, delivers a powerful path to happiness through mastering life's most important skill. How do we say what we mean in a way that the other person can really hear? How can we listen with compassion and understanding? Communication fuels the ties that bind, whether in relationships, business, or everyday interactions. Most of us, however, have never been taught the fundamental skills of communication—or how to best represent our true selves. Effective communication is as important to our well-being and happiness as the food we put into our bodies. It can be either healthy (and nourishing) or toxic (and destructive). In this precise and practical guide, Zen master and Buddhist monk Thich Nhat Hanh reveals how to listen mindfully and express your fullest and most authentic self. With examples from his work with couples, families, and international conflicts, *The Art of Communicating* helps us move beyond the perils and frustrations of misrepresentation and misunderstanding to learn the listening and speaking skills that will forever change how we experience and impact the world.

Fujishin employs a distinctively encouraging and conversational approach as he explains the basic communication skills necessary to improve in numerous contexts—including public speaking, small group, interpersonal, intercultural, leadership, interviewing, and technology-based communication. The result is an easy-to-read book that provides the tools to implement powerful changes in the ways you interact with others.

Media Research Marshall McLuhan,2014-01-02 Herbert Marshall McLuhan (1911-1980) received his PhD in English literature from Cambridge University and taught in the United States and Canada. He is best known, however, as the founding father of media studies. McLuhan was Director of the Center for Culture and Technology at the University of Toronto. Among his ground-breaking works on the psychic and social dimensions of communication technology are *The Gutenberg Galaxy* (1962); *Understanding Media: the Extensions of Man* (1964); and *The Medium Is the Massage: An Inventory of Effects* (1967). Michel Moos' premise is that Marshall McLuhan's importance derives from his achievements in rethinking the entire process of education and training itself, not with his popular fame as media guru, and he analyzes McLuhan's work from the feedback effect his vision continues to provide, rather than from the perspective of interpreting McLuhan's pronouncements on the electronic media. Moos contrasts McLuhan's thoughts with those of such thinkers as Roland Barthes, Fredric Jameson, Friedrich Kittler, Donna Haraway, and Deleuze and Guattari, and renders an updated account of the effect of the mass media on our society and ourselves. The concept the medium is the message is the hub around which Marshall McLuhan's explorations revolved. McLuhan's interests ranged from sixteenth-century literature to twentieth-century business practices. With wit and literary flair, he reported the media's influence on society and on the individual. He concluded that we could not escape being transformed by the forces that are hidden deeply within the electronic telecommunications revolution of the sixties. For McLuhan, the new mediums of film, television, and the emerging realm of the digital were the modern equivalent of Gutenberg's printing press. Essays by M. McLuhan. Edited and with a Commentary by M.A. Moos.
