Stained Glass Virginia Chieffo Raguin, 2013 Stained glass is a monumental art, a corporate enterprise dependent on a patron with whom artists blend their voices. Combining the fields now labeled decorative arts, architecture, and painting, the window transforms our experience of space. Windows of colored glass were essential features of medieval and Renaissance buildings. They provided not only light to illuminate the interior but also specific and permanent imagery that proclaimed the importance of place. Commissioned by monks, nuns, bishops, and kings, as well as by merchants, prosperous farmers, and a host of anonymous patrons, these windows vividly reflect the social, religious, civic, and aesthetic values of their eras. Beautifully illustrated with reproductions from the remarkable stained glass collection at the J. Paul Getty Museum, *Stained Glass* addresses the making of a stained glass window, its iconography and architectural context, the patrons and collectors, and the challenges of restoration and display. The selected works include examples from Austria, Belgium, England, France, Germany, the Netherlands, and Switzerland. Subject matter ranges from monumental religious scenes for Gothic churches to lively heraldic panels made for

houses and other secular settings. Integrating comparisons to works of art in other media, such as manuscripts, drawings, and panel paintings, this book encourages the general reader to see stained glass as an element of a broad artistic production.

Stained Glass as an Art Henry Holiday, 1896

*Judson* David Judson, 2020-03-17 Judson: Innovation in Stained Glass by David Judson and Steffie Nelson is a history of the world-renowned family of artisans who began crafting stained glass windows in Los Angeles in 1897. Five generations of Judsons have worked with artists, architects, and designers to create Old World-style stained glass whose quality and craftsmanship has often been compared to the work of Louis Tiffany. Famed for its Craftsman glass, Judson arts-and-crafts era windows have been celebrated by experts in the field for decades. Judson's work with Frank Lloyd Wright on Hollyhock House in the 1920s was recently re-saluted when the house was named to the UNESCO World Heritage Sites list. Established in the Pasadena during the heyday of the Arroyo Culture, headquarters of Judson Studios are still housed in the original Craftsman-era home and studio of patriarch William Lees Judson. Much of Judson's finest early work was installed in religious buildings. Along with the studio's numerous institutional and residential projects, Judson: Innovation in Stained Glass illustrates fine work in churches dating back to the early twentieth century. Modern work is also featured, including the extraordinary Air Force Academy Chapel in Colorado Springs, completed in 1962, a mid-century wonder whose soaring panels of color introduced an architecturally mesmerizing approach to stained glass that had never been executed

before. In 2018, under David Judson's leadership, the studio created the world's largest fused glass window for the Church of the Resurrection in Leawood, Kansas. Including 140 panels, and measuring more than 3,400 square feet of art glass, the window made news internationally, intriguing congregants, tourists, and stained glass experts alike with its precision detail and artful melding of colors in a mural that depicted both sacred and secular stories. Once Judson Studios developed methods for blending subtle variations of color in glass for the Church of the Resurrection window, the possibilities of glass as an artist's medium were apparent. Now, in addition to its work in traditional leaded stained glass, Judson Studios is working with fine artists creating effects in fused glass that were previously unachievable. Most recently, fine artist Sarah Cain worked with Judson Studios to create a work in glass 10 feet high by 150 feet long; it was installed at the San Francisco International Airport in July 2019. About the Authors: David Judson is president of Judson Studios, the fifth generation of the Judson family to lead the studio since it was founded in 1897. David oversees the studio's creative process, where he works with architects, designers, and artists who turn to Judson for its legendary work in stained glass. In 2015, he opened the second Judson Studios facility which incorporates the firm's innovative fusing technology that allows fine artists to express their vision in glass. David is the president of the Stained Glass Association of America (SGAA) and lives with his family in Pasadena, California. Steffie Nelson has covered art, design, and culture for The New York Times, Los Angeles Times, W Magazine, and others.

*Arts & Crafts Stained Glass* Peter Cormack, 2015 An insightful corrective demonstrating the Arts and Crafts Movement's indelible impact on British and American stained glass Beautifully illustrated and based on more than three decades of research, *Arts & Crafts Stained Glass* is the first study of how the late-19th-century Arts and Crafts Movement transformed the aesthetics and production of

stained glass in Britain and America. A progressive school of artists, committed to direct involvement both in making and designing windows, emerged in the 1880s and 1890s, reinventing stained glass as a modern, expressive art form. Using innovative materials and techniques, they rejected formulaic Gothic Revivalism while seeking authentic, creative inspiration in medieval traditions. This new approach was pioneered by Christopher Whall (1849-1924), whose charismatic teaching educated a generation of talented pupils--both men and women--who produced intensely colorful and inventive stained glass, using dramatic, lyrical, and often powerfully moving design and symbolism. Peter Cormack demonstrates how women made critical contributions to the renewal of stained glass as artists and entrepreneurs, gaining meaningful equality with their male colleagues, more fully than in any other applied art. Cormack restores stained glass to its proper status as an important field of Arts and Crafts activity, with a prominent role in the movement's polemical campaigning, its public exhibitions, and its educational program. Published for the Paul Mellon Centre for Studies in British Art

**Contemporary Designs Stained Glass Pattern Book** Anna Croyle, 2009-01-01 Traditional stained glass artists can expand their craft with the dynamic modern look of 70 patterns, including Butterfly Breeze, Peonies, and others. Each design appears in color on inside covers.

**Rainbow Like an Emerald: Stained Glass in Lorraine in the Thirteenth and Early Fourteenth Centuries** Meredith Parsons Lillich, 1991

**Arts and Crafts Stained Glass Pattern Book** Carolyn Relei, 2002-07-15 Inspired by the elegant simplicity of the Arts and Crafts movement, this compilation of original patterns is the handiwork of an expert in stained glass design. Artists and artisans will find a wealth of design options among its 73 handsome motifs. Here is a garden of florals, with sprays of blossoms and

single buds, running patterns of flowering vines, and other images drawn from the natural world, many reduced in the sinuous curved lines that foreshadow the development of Art Nouveau. Framed by oval, rectangular, square, round, and half-round borders, these royalty-free designs are easily adapted for use in a wide variety of craft projects.
