Window Sabine Eckmann,Lutz Peter Koepnick,Mildred Lane Kemper Art Museum,2007 Windows both connect and divide interior and exterior, public and private spaces. Interfaces update the function of the window in today's world of omnipresent screens and digital information. Window?|Interface, based on a forthcoming exhibition at the Mildred Lane Kemper Art Museum, explores how artists such as Olafur Eliasson, Cerith Wyn Evans, Monika Fleischmann, Kirsten Geisler, Pierre Huyghe, Richard Long, and others have addressed the role of windows and interfaces as mediums of perception and transport. The book investigates art that explores the limits of the body in relation to the surrounding world and reveals the embodied character of human experience. Lavishly illustrated and accompanied by essays that situate the exhibition in the context of contemporary art, this volume is the second in the Kemper Art Museum's Screen Arts and New Media Aesthetics series, inaugurated in 2006.

In Art, Windows Catherine McGrew Jaime,2016-09-07 Windows are a part of our everyday life. But do we think of them when we think of great art? Here is a picture book for adults and students of all ages...A picture book of windows in art! Different colors, shapes, sizes...Some that are only small parts of the painting, some which are the focus of the painting. Some showing windows from the inside and some from the outside. Look through these paintings that span many centuries, and notice the similarities and the differences between them...See the colors, the textures and patterns, and more. Take note of whether there are people included in the different paintings; and if so, are men, women, or children more often portrayed with the windows? Do you like certain artists or styles more than others? But, most of all, enjoy!

Broken Windows Graffiti NYC James Murray,Karla Murray,2002 Full of vibrant, energetic and explosive images, Broken Windows Graffiti NYC documents the flowering of the graffiti movement of the post-train era. In the 1980's graffiti was pushed out of the subways as the trains were cleaned once and for all. In the 1990's, much of the graffiti action in New York migrated to the city's walls, enabling the 'writers' to execute more refined and concept-driven large-scale pieces. By the end of decade, this new medium was being used to great effect. Photographers James & Karla Murray took great pains to faithfully capture an unprecedented re-birth of the movement documenting the most significant murals created between 1996 2001. Broken Windows contains insightful interviews, an extensive selection of womens' graffiti, and features the work of more than 180 artists from The United States, Germany, France, Sweden, Finland, Denmark, Holland, Italy, and Norway.

Windows for the world Jasmine Allen,2018-04-12 Windows for the world explores the display and reception of nineteenth-century British stained glass in a secular exhibition context. International in scope, the book focuses on the global development of stained glass in this period as showcased at, and influenced by, these exhibitions. It recognises those who made and exhibited stained glass and demonstrates the long-lasting impact of the classification and modes of display at these events. A number of exhibits are illustrated in colour and are analysed in relation to stylistic developments, techniques and material innovations, as well as the broader iconographies of nation and empire in the nineteenth century.

Contemporary Indonesian Art Yvonne Spielmann,2017-02-28 Indonesian art entered the global contemporary art world of independent curators, art fairs, and biennales in the 1990s. By the mid-2000s, Indonesian works were well-established on the Asian secondary art market, achieving record-breaking prices at auction houses in Singapore and Hong Kong. This comprehensive overview introduces Indonesian contemporary art in a fresh and stimulating manner, demonstrating how contemporary art breaks from colonial and post-colonial power structures, and grapples with issues of identity and nation-building in Indonesia. Across different media, in performance and installation, it amalgamates ethnic, cultural, and religious references in its visuals, and confidently brings together the traditional (batik, woodcut, dance, Javanese shadow puppet theater) with the contemporary (comics and manga, graffiti, advertising, pop culture). Spielmann's Contemporary Indonesian Art surveys the key artists, curators, institutions, and collectors in the local art scene and looks at the significance of Indonesian art in the Asian context. Through this book, originally published in German, Spielmann stakes a claim for the global relevance of Indonesian art.

Living Art Elly Kent, Virginia Hooker, Caroline Turner, 2022-11-08 Living Art: Indonesian Artists Engage Politics, Society and History is inspired by the conviction of so many of Indonesia’s Independence-era artists that there is continuing interaction between art and everyday life. In the 1970s, Sanento Yuliman, Indonesia’s foremost art historian of the late twentieth century, further developed that concept, stating: ‘New Indonesian Art cannot wholly be understood without locating it in the context of the larger framework of Indonesian society and culture’ and the ‘whole force of history’. The essays in this book accept Yuliman’s challenge to analyse the intellectual, sociopolitical and historical landscape that Indonesia’s artists inhabited from the 1930s into the first decades of the new millennium, including their responses to the COVID-19 pandemic. The inclusion of one of Yuliman’s most influential essays, translated into English for the first time, offers those outside Indonesia an insight into a formative period in the generation of new art knowledge in Indonesia. The volume also features essays by T. K. Sabapathy, Jim Supangkat, Alia Swastika, Wulan Dirgantoro and FX Harsono, as well as the three editors (Elly Kent, Virginia Hooker and Caroline Turner). The book’s contributors present recent research on issues rarely addressed in English-language texts on Indonesian art, including the inspirations and achievements of women artists despite social and political barriers; Islam-inspired art; artistic ideologies; the intergenerational effects of trauma; and the impacts of geopolitical change and global art worlds that emerged in the 1990s. The Epilogue introduces speculations from contemporary practitioners on what the future might hold for artists in Indonesia. Extensively illustrated, Living Art contributes to the acknowledgement and analysis of the diversity of Indonesia’s contemporary art and offers new insights into Indonesian art history, as well as the contemporary art histories of Southeast Asia and Asia more generally.
