

Arthur Cosmetics

William Arthur Poucher

Perfumes, Cosmetics and Soaps William Arthur Poucher, 2013-11-11 w. A. Poucher's original 'Perfumes, Cosmetics and Soaps', first published in 1923, were the first comprehensive text books to deal exclusively with the work of the perfume and cosmetic industry, and received recognition and approval throughout the world. Their success and popularity was due primarily to the fact that they provided a practical guide not only to those engaged in the industry, but to a section of readers interested in the mystique and romance which at that time was associated with the perfume and cosmetic arts. It was also an outstanding feature that the books were easily readable, subject matter being expressed in a clear and understandable fashion without the frills of pseudo-science or advanced technology. In revising Volume III and editing Volume I it has been my aim to continue in the pattern and style of their author, and to this end I have not intended to write a new book, but have attempted a true revision, and it is a remarkable fact that many of the original writings made nearly 50 years ago can still apply to an industry which since that time has developed beyond recognition.

Poucher's Perfumes, Cosmetics and Soaps William Arthur Poucher, Akbar Jan Jouhar, 1991

Cosmetics Hilda Butler, 1993 The first edition of this work was written by W.A. Poucher in 1923. His aim was to produce a comprehensive coverage of products giving simple background theories with basic formulations and their methods of manufacture. This new edition follows in this tradition and maintains the simplicity of approach aimed at students or specialists in one discipline, with some knowledge of science, who need an introduction to cosmetic science and technology.

Perfumes, Cosmetics & Soaps William Arthur Poucher, 1936

Poucher's Perfumes, Cosmetics, and Soaps William Arthur Poucher, 1993 Cosmetic Science has developed greatly since the publication of the 8th edition of this textbook in 1974. Although the first part of this volume still consists of chapters about product preparations in alphabetical order, each product category has been revised and updated by a specialist. An outline of the biology, structure and function of skin, hair, teeth and nails and the reasons for the need for cosmetics are given in those dealing with the relevant preparations. Throughout, the word Cosmetics includes toiletries and thus all products which protect, cleanse, adorn, and perfume the human body, and combat body odour and perspiration. The 'f' spelling for the element 'sulfur' and its derivatives has been used following the recommendations of the International Union of Pure and Applied Chemistry (IUPAC) and the decision taken by the Royal Society of Chemistry (RSC) and the British Standards Institute (BSI) to use 'f' instead of 'ph' in all their publications. This stems from the derivation of the use of the 'f' from Latin and its use in England until the 15th century.
