Dana E. Aspinall

The First 20 Hours Josh Kaufman,2013-06-13 Forget the 10,000 hour rule— what if it’s possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What’s on your list? What’s holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don’t have and effort you can’t spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That’s why it’s difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It’s so much easier to watch TV or surf the web . . . In The First 20 Hours, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you’ll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You’ll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you’re trying to achieve, and what you’ll be able to do when you’re done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it’s easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you’re performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, The First 20 Hours will help you pick up the basics of any skill in record time . . . and have more fun along the way.

I CAN READ YOU LIKE A BOOK(EasyRead Super Large 20pt Edition) Gregory Hartley,2007 Are you in business, journalism, law enforcement, or medicine? Do you face students in a classroom or criminals in a courtroom? Are you in a relationship or looking for one? Do you have children? Then you need the skills to read them like a book! I Can Read You Like a Book features a system for scanning and interpreting anyone's body language, enabling you to figure out what they are really saying or feeling: Review: Check out someone quickly, from head to toe. Evaluate: Know what to look for; notice what's relevant. Analyze: Spot voluntary versus involuntary movements; factor in gender, context, culture. Decide: Draw your conclusion. Step-by-step, you will develop the same skills the best interrogators and detectives use to assess spies, criminals, and witnesses. As part of the process, you will observe some of the most famous people in the world through interrogator Greg Hartley's eyes. You'll discover what emotions these politicians, pundits, and stars are leaking through their body language and facial expressions, and what their answers (or non-answers) are really saying. I Can Read You Like a Book gives you the fastest, most efficient method to read body language. In any kind of face-to-face competition, first encounters or daily encounters, and even watching the news, you will spot the messages and emotions that people are really sending--whether they know it or not. As a bonus, you will learn how to use your own face and body to your advantage, whether you're trying to evade a difficult question, handle a sensitive situation, or just playing poker! Gregory Hartley's expertise as an interrogator first earned him honors with the United States Army. More recently, it has drawn organizations such as the Defense Intelligence Agency, Navy SEALs, federal law enforcement agencies, and national TV show such as Montel Williams and CNN magazines to seek his insights into what suspected terrorists--as well as celebrities--really mean when they answer tough questions. He resides near Atlanta, Georgia. Maryann Karinch is the author of nine books including How to Spot a Liar: Why People Don't Tell the Truth ... and How You Can Catch Them with Greg Hartley. She is founder of the Rudy Agency, a literary agency based in Colorado.

As You Like It William Shakespeare,2004-05-31 As You Like It has sometimes seemed a subversive play that exposes the instability of gender roles and traditional values. In other eras it has been prized - or derided - as a reliable celebration of conventional social mores. The play's ability to compass these extremes tells an interesting story about changing cultural and theatrical practices. This edition provides a detailed history of the play in production, both on stage and on screen. The introduction examines how changing conceptions of gender roles have affected the portrayal of Rosalind, one of Shakespeare's greatest comic heroines. The striking differences between the British tradition and the freer treatment the play has received abroad are discussed, as well as the politics of court versus country. The commentary, printed alongside the New Cambridge edition of the text, draws on primary sources to illuminate how costuming, stage business, design, and directorial choices have shaped the play in performance.

Unreasonable Success and How to Achieve It Richard Koch,2020-09-22 Can We Map Success? Successful people typically don't plan their success. Instead they develop a unique philosophy or attitude that works for them. They stumble across strategies which are shortcuts to success, and latch onto them. Events hand them opportunities they could not have anticipated. Often their peers with equal or greater talent fail while they succeed. It is too easy to attribute success to inherent, unstoppable genius. Bestselling author and serial entrepreneur Richard Koch charts a map of success, identifying the nine key attitudes and strategies can propel anyone to new heights of accomplishment: Self-belief Olympian Expectations Transforming Experiences One Breakthrough Achievement Make Your Own Trail Find and Drive Your Personal Vehicle Thrive on Setbacks Acquire Unique Intuition Distort Reality With this book, you can embark on a journey towards a new, unreasonably successful future.
