Current Issues in Asian Tourism Chris Cooper, C. Michael Hall, 2020-06-09 This comprehensive volume was put together in response to the growing amount of research on tourism in Asia and an increasing number of authors from Asian countries. It concentrates on two aspects of Asian Tourism: first, the Asian tourists themselves, and second, economic development and tourism in the Asian region. The first part of the collection focuses on three areas: the motivations of different types of Asian tourist; the characteristics and behaviour of particular Asian tourist segments; and, finally, an analysis of specific research issues. The second part of the book then goes on to explore the governance and organisation of tourism in the Asian region, and the nature of Asian growth and competitiveness as it relates to tourism. The articles in this book were originally published in the journal *Current Issues in Tourism*.

Asia on Tour Tim Winter, Peggy Teo, T.C. Chang, 2008-09-25 With the vast majority of academic theory on tourism based on 'Western' tourists, *Asia on Tour* illustrates why the rapid growth of travel for leisure and recreation in Asia demands a reappraisal of how tourism is analyzed and understood. Examining domestic and intra-regional tourism, the book reveals how improvements in infrastructures, ever increasing disposable incomes, liberalized economies, the inter-connectivities of globalization and the lowering of borders, both physical and political, are now enabling millions of Asians to travel as tourists. Drawing upon multidisciplinary theoretical perspectives and up-to-date empirical research, the twenty-three accessible essays in this volume indicate why a rigorous and critical study of Asian tourism must become integral to both our analysis of this rapidly transforming region and our interpretation of global tourism in the twenty first century. As a rich collection of essays on heritage and tourism oriented around Asian tourists, *Asia on Tour* will be of particular interest to students and scholars working in the fields of tourism, Asian studies, geography, heritage, anthropology, development, sociology, and cultural and postcolonial studies.

Quantitative Tourism Research in Asia Sajad Rezaei, 2018-12-14 The purpose of this book is twofold. First, this book is an attempt to map the state of quantitative research in Asian tourism and hospitality context and provide a detailed description of the design, implementation, application, and challenges of quantitative methods in tourism in Asia. Second, this book aims to contribute to the tourism literature by discussing the past, current and future quantitative data analysis methods. The book offers new insights into well-established research techniques such as regression analysis, but goes beyond first generation data analysis techniques to introduce methods seldom – if ever – used in tourism and hospitality research. In addition to investigating existing and novel research techniques, the book suggests areas for future studies. In order to achieve its objectives the analysis is split into three main sections: understanding the tourism industry in Asia; the current status of quantitative data analysis; and future directions for Asian tourism research.

Tourism in South and Southeast Asia C. Michael Hall, Stephen Page, 2012-10-12 'Tourism in South and South East Asia' is a comprehensive and solid introduction to tourism in South and South East Asia with a specific appeal both to institutions in the region, and other institutions who wish to expose students to one of the most dynamic tourism regions in the world. Despite downturns in outbound tourism (due to the current economic crisis), inbound tourism from outside the region has continued to increase with governments placing more emphasis on the economic significance of tourism than ever. 'Tourism in South and South East Asia' is the first tourism book to deal comprehensively with the implications of the Asian economic crisis for tourism. With South and South East Asia set to be the fastest growing area of tourism activity in the world well into the next century, 'Tourism in South and South East Asia' is an essential text for students both within and outside of this region. Dealing with concepts, themes and issues which are pertinent to tourism development, planning, marketing and management; these two internationally known authors have produced an authoritative text that covers all aspects of this topic through the use of illustrative and relevant case studies.

Tourism in South-East Asia Michael Hitchcock, Victor T. King, Michael J.G. Parnwell, 2018-11-15 South-East Asia has developed rapidly as a tourist destination, but what are the effects of this growth upon the peoples of the region? How far is it possible to control the impact of tourism whilst also supporting the industry's role in the region's development? This book, first published in 1993, attempts to answer these questions by providing a critical analysis of the nature of tourism as it has developed in the area. It questions commonly held assumptions about tourism both from a western perspective and from the point of view of policy makers in the region. It explores central issues such as the impact of tourism on the environment, culture and the economy, placing it within an historical and political context in order to assess the implications of current developments. The contributors use case studies from a variety of countries on such aspects as the sex industry, dream holidays and rural handicrafts, assessing tourist perceptions, both domestic and international, and policy decisions. By taking a long-term perspective it should provoke thought on the ways to develop sustainable tourism for the future.

Managing Asian Destinations Ying Wang, Aishath Shakeela, Anna Kwek, Catheryn Khoo-Lattimore, 2018-04-05 This book focuses on the planning, marketing, and management of Asian tourism destinations, and evaluates current

developments within Southeast-Asia and the wider Asia-Pacific region. As more Asian destinations enter the global tourism arena and more Asian travellers look to explore destinations in Asia and beyond, an understanding of how Asian destinations practice tourism is crucial to the future sustainable development of global tourism. This book provides an invaluable stock of research and knowledge based on the Asian practice and experience in destination planning, marketing, and management, offering insights into the latest development and trends in the region.

China's Rise In Mainland Asean: New Dynamics And Changing Landscape Suthiphand Chirathivat,Buddhagarn Rutchatorn,Anupama Devendrakumar,2019-01-15 The rationale for this volume on China's Rise in Mainland ASEAN: New Dynamics and Changing Landscapes stems from the rise in recent years of China, ASEAN's giant neighbor, and in its wake the significant economic, political, and socio-cultural developments in the ASEAN region. In the last two decades, China has successfully established itself as a powerful regional and global power, surpassing Japan in 2010 as the second largest economy of the world, and has become a major player in the affairs of South East Asian nations. At the same time, while China's spectacular growth makes it vulnerable in terms of expanding its global dependence, it also makes its neighbours equally vulnerable due to their growing dependence on China. All of these developments have led China through its evolving foreign policy to exert considerable influence on its immediate ASEAN neighbours in many complex ways. While the China-ASEAN bilateral relations are soaring, there are growing concerns among ASEAN member countries about the nature of China's engagement with ASEAN. In this context, this book focuses on China's influence on mainland ASEAN countries: Cambodia, Lao PDR, Myanmar, Thailand and Vietnam. China's Rise in Mainland ASEAN: New Dynamics and Changing Landscapes contributes useful insights, rich discussions, as well as the debates relevant to building a knowledge base about and better understanding of China's rising influence in mainland ASEAN.

The World Meets Asian Tourists Philip L. Pearce,Mao-Ying Wu,2016-12-14 The movement of Asian citizens across continents now occurs on an unprecedented scale. What are the interests of Asian tourists and what are the impacts on host communities? This book addresses questions about Asian tourist contact with unfamiliar countries and cultures and the implications for the marketing, planning and policy of tourist markets.

Tourism and Opportunities for Economic Development in Asia Ordóñez de Pablos, Patricia,Aung, Zeyar Myo,2017-01-25 The growing market of tourism in Asian countries has caused significant changes to the economy, transportation, and safety for citizens. With the ubiquity of tourism, there is now an increasing need for resources to assist in the challenges that arise. Tourism and Opportunities for Economic Development in Asia is a key resource on the priorities, challenges, and strategies in the globalized economy of the Asian tourism market. Highlighting multidisciplinary studies on cultural tourism, gastronomy, and hospitality management, this publication is an ideal reference source for academicians, researchers, politicians, policy makers, and information technology directors actively involved in the tourism industry.

Current Issues in Asian Tourism Colin Michael Hall,Chris Cooper,2021-04-06 Current Issues in Asian Tourism: Volume II draws together a collection of papers from Current Issues in Asian Tourism (CIAT). CIAT was launched by the editors of Current Issues in Tourism in response to the growing number of papers about tourism in Asia received by the journal and the increasing number of authors from Asian countries. This volume focuses on three aspects of Asian tourism. Firstly, the section on marketing, consumption and demand for Asian tourism includes papers on mega events, creative experiences, World Heritage Sites and pollution. Secondly, a group of papers focus on sustainable Asian tourism destinations including papers on investment, climate change, energy and local food. Finally, there are two chapters on Asian tourism research methods including the use of photography and qualitative methods. The papers in this book were originally published in Current Issues in Asian Tourism.

It seeks to assesses tourism's impact on residents and localities across the region by critically debating and offering new understandings of its dynamics on the global and local levels. Offering a myriad of case studies from a range of different countries in the region, this book is interdisciplinary in nature, thereby presenting a comprehensive overview of tourism's current and future role in development. Divided into four parts, it discusses the nexus of tourism and development at both the regional and national levels, with a focus on theoretical and methodological foundations, protected areas, local communities, and broader issues of governance.
