The Israeli-American Connection Michael Brown, 2018-02-05 The Israeli-American Connection examines the ways in which the American experience influenced some of the major leaders of the yishuv, the Jewish settlement in Palestine, during and between the world wars. In six biographical chapters, Michael Brown studies Vladimir Jabotinsky, Chaim Nahman Bialik, Berl Katznelson, Henrietta Szold, Golda Meir, and David Ben-Gurion, focusing on each leader's involvement with and image of America, as well as the impact of America on their lives and careers.

Fuzzy Models in Economics Gorkhmaz Imanov, 2020-10-07 This book offers a timely guide to fuzzy methods applied to the analysis of socioeconomic systems. It provides readers with a comprehensive and up-to-date overview of the algorithms, including the theory behind them, as well as practical considerations, current limitations and solutions. Each chapter focuses on a different economic problem, explaining step by step the process to approach it, using the corresponding fuzzy tools. The book covers elements of intuitionistic fuzzy logics, fuzzy entropy and the fuzzy DEMATEL method, a fuzzy approach to calculate the financial stability index. It also reports on some new models of social, financial and ecological security, and on a novel fuzzy method for evaluating the quality of development of information economy.

Saint Sergius of Radonezh, His Trinity Monastery, and the Formation of the Russian Identity David B. Miller, 2010-11-05 When Sergius of Radonezh founded a monastery near Moscow, his example spawned a movement of monastic foundations throughout Russia. Within three decades of his death in 1392, Sergius was recognized as a saint, and by 1450 many considered him the intercessor for the Russian land who freed its people from Mongol rule. Over the next century and a half, thousands sought St. Sergius' intercession with gifts to the monastery. Moscow's rulers made Sergius patron saint of their dynasty and of the Russian tsardom. By 1605, the Trinity-Sergius monastery was the biggest house in Russia. Miller presents Trinity's dramatic history from the fourteenth century to the beginning of the Time of Troubles. Using extensive archival materials, he traces the evolution of Trinity's relationship to Sergius' venerated and its traditions, governance, social composition, and the lifestyle of its members. In lucid prose, Miller argues that St. Sergius' cult and monastery became integrating forces on a national scale and vital elements in the forging of a Russian identity, economy, and cohesive society. The power of religion to shape national identity is a lively topic today, and Miller's study will interest both medievalists and modern historians, as well as readers of Orthodox Church history.

The Growth of the Law in Medieval Russia Daniel H. Kaiser, 2014-07-14 By examining the growth of legal institutions and concepts in Russia from the twelfth to the fifteenth centuries, Daniel Kaiser shows how the process of legal change reflects a gradual transformation of the political life, social relations, and accepted values of a traditional society. Originally published in 1981. □□□ □□□□□□□□ **HaDavar (The Word of □□□□)** Daniel Perek, HaDavar, D'var ????, or "The Word of Yah," is a new translation of the scriptures. The source text for the Tanak, or "Old Testament," is the Masoretic Hebrew. The source text for the Brit Khadashah is the Aramaic Peshitta texts of the New Testament. This four-volume set contains the Hebrew version of the Tanak from the Masoretic text, and a new English translation of those texts, with transliterations for Hebrew terms in an English-friendly tone. The author's purpose is to give a more accurate, Hebrew/Jewish rendering of the texts, without giving up the beauty of Scripture for the English reader. Volume 4, The Brit Khadashah, is coming soon.

Reanimated Voices Daniel E. Collins, 2001-07-09 Reanimated Voices addresses three activities:

reporters evoking speech events; interpreters (re)constituting those speech events; and historical pragmatic eavesdropping in time on the reporters and interpreters. Can one reconstruct aspects of pragmatic competence on the basis of written texts only? *Reanimated Voices* answers this in the affirmative. It offers a methodology for historical-pragmatic reconstruction to explain the synchronic patterns of variation in premodern writings. *Reanimated Voices* examines the distribution of reporting strategies in a corpus of medieval Russian texts. Forms preferred in specific recurring contexts are matched with the need(s) served by those contexts — a fit reflecting collective intentionality. Occasional “residual forms” -strategies that appear in contexts where others predominate- also reflect cooperative behavior; they index utterances departing from the prototype or unusual configurations of participants. Thus *Reanimated Voices* explores reporting as an activity of rational agents coordinating interpretation in accordance with cultural and institutional notions of relevance.

Myeloid Leukemia Harry Iland, Mark Hertzberg, Paula Marlton, 2008-02-02 A panel of internationally recognized research scientists and clinical investigators brings together a diverse collection of readily reproducible methods for identifying and quantifying a large number of specific genetic abnormalities associated with the broad spectrum of myeloid malignancies. Highlights include techniques for the detection of BCR-ABL mutations and resistance to imatinib mesylate, detection of the FIP1L1-PDGFR fusion in idiopathic hypereosinophilic syndrome and chronic eosinophilic leukemia, classification of AML by DNA-oligonucleotide microarrays, and detection of the V617F JAK2 mutation in myeloproliferative disorders. In addition to gene rearrangements, other prognostically relevant molecular lesions such as FLT3 mutations and WT-1 overexpression are covered.

The Communist International and US Communism, 1919-1929 Jacob Zumoff, 2014-08-21 This book examines the development of the Communist Party in the United States in its first decade, from 1919 to 1929. It argues that the Communist International played an important role in the early part of this decade in forcing the party to Americanise. By the late 1920s, however, the Comintern, reflecting the Stalinisation of the Soviet Union, intervened into the American party to ensure the Stalinisation of American Communism.

Peasant Farming in Muscovy Robert E. F. Smith, 1977 This comprehensive study of farming methods and agrarian organization in Russia before the time of Peter the Great shifts the emphasis from the great estates to the basic production unit, the peasant family farms, and uses archaeological and ethnographic materials to supplement the documentary evidence. The methods of production and the farm implements used are described in detail and Professor Smith argues that features inherent in peasant farming account for Russian backwardness during this period. Part I classifies and describes the range of agrarian activities carried on in Muscovy - arable farming, hayfields, livestock, and gathering from the forest - and presents a model of a hypothetical farm unit; Part II examines three regions - Moscow, Toropets and Kazan - which stretch across central European Russia; and Part III provides a chapter on the relationship between peasant farming and the state.

This volume also includes several extended tracts in various Native American languages, including Bribeuf's 1636 description

of Huron grammar, Lalemant's interlinear translation of a Huron prayer, Vimont's letter in Algonquin, Le Jeune's description of Montagnais, and many others. American Legal Education Abroad Susan Bartie,David Sandomierski,2021-07-06 A critical history of the Americanization of legal education in fourteen countries The second half of the twentieth century witnessed the export of American power—both hard and soft—throughout the world. What role did US cultural and economic imperialism play in legal education? *American Legal Education Abroad* offers an unprecedented and surprising picture of the history of legal education in fourteen countries beyond the United States. Each study in this book represents a critical history of the Americanization of legal education, reexamining prevailing narratives of exportation, transplantation, and imperialism. Collectively, these studies challenge the conventional wisdom that American ideas and practices have dominated globally. Editors Susan Bartie and David Sandomierski and their contributors suggest that to understand legal education and to respond thoughtfully to the mounting present-day challenges, it is essential to look beyond a particular region and consider not only the ideas behind legal education but also the broader historical, political, and cultural factors that have shaped them. *American Legal Education Abroad* begins with an important foundational history by leading Harvard Law School historian Bruce Kimball, who explains the factors that created a transportable American legal model, and the book concludes with reflections from two prominent American law professors, Susan Carle and Bob Gordon, whose observations on recent disruptions within US law schools suggest that their influence within the global order of legal education may soon fall into further decline. This book should be considered an invaluable resource for anyone in the field of law.
