The Evolution of British Asian Radio in England Gloria Khamkar, 2023-03-20 This book uncovers the revolutionary journey of British Asian radio broadcasting. It investigates how British Asian radio broadcasting began in England in the 1960s and developed into the 2000s. The book reflects on the existing literature on media and migration, particularly the issues of settlement and race relations, and examines how the BBC and the government took initiative to address these issues. It also critically analyses the need and demand of the Asian community for its own radio platform, discerning the role of the BBC's radio initiatives, as well as other community-oriented radio experiments, in contributing to the creation of independent British Asian radio in England. This book is essential reading for anyone interested in Ethnic and Mother-tongue Radio Broadcasting, Cultural and Communication Studies, Media History and British Cultural History. It will also help broadcasters, media regulators and policy-makers understand the social and cultural context of the communities they address.

Indian Communities in Southeast Asia (First Reprint 2006) K S Sandhu, A Mani, 2006 In Indian Communities in Southeast Asia thirty-one scholars provide an analytical commentary on the contemporary position of ethnic Indians in Southeast Asia. The book is the outcome of a ten-year project undertaken by the editors at the Institute of Southeast Asian Studies, Singapore. It is multi-disciplinary in focus and multi-faceted in approach, providing a comprehensive account of the way people originating from the Indian subcontinent have integrated themselves in the various Southeast Asian countries. The study provides insights into understanding how Indians, an intra-ethnically diverse immigrant group, have intermingled in Southeast Asia, a region that itself is ethnically diverse.

Afghanistan J. Bruce Amstutz, 1994-07 Dr. J. Bruce Amstutz, U.S. charge d'affaires in Kabul from 1977 to 1980, begins his treatment of the first five years of Soviet occupation with an historical overview of years of Russian meddling in Afghan affairs. He follows this account with a first-hand report of the 1979 invasion, and analyzes the intervention from political, military, and economic perspectives. Important issues are: Afghan political factions, leaders, the human rights and refugee problems, diplomatic efforts to settle conflict, and Soviet measures to repress the Afghans. Photos.

Radio Spectrum Management Haim Mazar (Madjar), 2016-08-29 This book presents the fundamentals of wireless communications and services, explaining in detail what RF spectrum management is, why it is important, which are the authorities regulating the use of spectrum, and how is it managed and enforced at the international, regional and national levels. The book offers insights to the engineering, regulatory, economic, legal, management policy-making aspects involved. Real-world case studies are presented to depict the various approaches in different countries, and valuable lessons are drawn. The topics are addressed by engineers, advocates and economists employed by national and international spectrum regulators. The book is a tool that will allow the international regional and national regulators to better manage the RF spectrum, and will help operators and suppliers of wireless communications to better understand their regulators.

Community Radio Policies in South Asia Preeti Raghunath, 2020-08-07 The book draws on critical media policy studies, to study the principles and

performances of policies and policymaking for community radio in four countries of South Asia---Sri Lanka, Nepal, India, and Bangladesh. It focuses on the processes and practices of deliberation that go into policymaking, across space and time, and the global-local spectrum. It stitches together a critical media policy ethnography, drawing on over a 100 formal interviews and informal conversations with policy actors from South Asia, in a bid to present a deliberative policy analysis of policymaking for community radio in the region. Drawing on Grounded Theory, the book fleshes out the Deliberative Policy Ecology Approach as an inclusive heuristic to study media policies.

Solid State Ionics - Proceedings Of The 3rd Asian Conference On B V R Chowdari,1992-10-09 This book constitutes the proceedings of an up-to-date and comprehensive meeting devoted to the question whether baryon number violation can occur – in the standard model of weak and electromagnetic interactions – at rates which can be relevant to cosmology and particle experiment. There has been a great deal of activity and many new results in the past year, and the meeting was the first occasion for a review of the field. It is the only source in which all the work in this field is reviewed in a single volume. As such, it would provide a useful reference for graduate students and researchers wanting to learn more about this area.

Genocide and Resistance in Southeast Asia Ben Kiernan,2017-07-05 Two modern cases of genocide and extermination began in Southeast Asia in the same year. Pol Pot's Khmer Rouge regime ruled Cambodia from 1975 to 1979, and Indonesian forces occupied East Timor from 1975 to 1999. This book examines the horrific consequences of Cambodian communist revolution and Indonesian anti-communist counterinsurgency. It also chronicles the two cases of indigenous resistance to genocide and extermination, the international cover-ups that obstructed documentation of these crimes, and efforts to hold the perpetrators legally accountable. The perpetrator regimes inflicted casualties in similar proportions. Each caused the deaths of about one-fifth of the population of the nation. Cambodia's mortality was approximately 1.7 million, and approximately 170,000 perished in East Timor. In both cases, most of the deaths occurred in the five-year period from 1975 to 1980. In addition, Cambodia and East Timor not only shared the experience of genocide but also of civil war, international intervention, and UN conflict resolution. U.S. policymakers supported the invading Indonesians in Timor, as well as the indigenous Khmer Rouge in Cambodia. Both regimes exterminated ethnic minorities, including local Chinese, as well as political dissidents. Yet the ideological fuel that ignited each conflagration was quite different. Jakarta pursued anti-communism; the Khmer Rouge were communists. In East Timor the major Indonesian goal was conquest. In Cambodia, the Khmer Rouge's goal was revolution. Maoist ideology influenced Pol Pot's regime, but it also influenced the East Timorese resistance to the Indonesia's occupiers. Genocide and Resistance in Southeast Asia is significant both for its historical documentation and for its contribution to the study of the politics and mechanisms of genocide. It is a fundamental contribution that will be read by historians, human rights activists, and genocide studies specialists.

Finding a New British Asian Sound on BBC Radio Liam McCarthy,2023-09-21 This book explores the contrasting responses to the South Asian diaspora in Britain of BBC local radio and BBC network radio. It highlights the hidden history of how BBC local radio stations developed a schedule of five thousand hours a year of programmes targeted at South Asian communities in England. Local radio stations at the periphery of the BBC built deep and influential connections with marginalised Asian communities, creating the BBC Asian Network in 1989 and played an influential part in building local social cohesion. This contrasts with central BBC policy that reveals a management culture resistant to change and unable to embrace an increasingly diverse Britain – creating a problematic legacy for the BBC. Finding a New British Asian Sound brings new insights into current debates around policy and

institutional racism at the BBC, where South Asian programming on local and network radio remains at risk of closure.

Community Radio in South Asia Kanchan K. Malik, Vinod Pavarala, 2020-06-09 This book explores the state of community radio, a significant independent media movement that began about two decades ago, in different parts of South Asia. The volume outlines the socioeconomic and historical contexts for understanding the evolution and functioning of community radio in an increasingly globalised media environment. It provides a ring-side view of how various countries in South Asia have formulated policies that enabled the emergence of this third sector of broadcasting (public and private being the other two) through radio, rendering the media ecology in the region more pluralistic and diverse. The chapters in the volume, interspersed by practitioner perspectives, discuss a range of key issues related to community radio: radio policies, NGOisation of community radio, spectrum management and democratisation of technology, disasters/emergencies, gender issues, sustainability, and conflicts. One of the first of its kind, this volume will appeal to scholars and researchers of community media and independent media studies, cultural studies, as well as sociology and social anthropology, and South Asian studies.
