Monks and Merchants Annette L. Juliano, Judith A. Lerner, Michael Alram, Asia Society, 2001-10 Stunning works in precious metals, glass, and stone -- many recently excavated and virtually unknown outside China -- shed new light on a pivotal epoch in Chinese history. From the 4th through 7th century, monks and merchants freely traveled along the fabled Silk Road, linking China with the west, propagating Buddhism, and purveying exotic goods and artifacts that fundamentally transformed Chinese culture and society. This sumptuous volume, the first to explore the magnificent treasures and sites of China's northwest section of the Silk Road, accompanies an exhibition at the Asia Society in New York. The text by an international team of scholars illuminates the importance of the region in this period of fertile cross-cultural exchanges between Eastern and Western Asia.

Buddhism Across Asia Tansen Sen, 2014-11-11 e; Buddhism across Asia is a must-read for anyone interested in the history and spread of Buddhism in Asia. It comprises a rich collection of articles written by leading experts in their fields. Together, the contributions provide an in-depth analysis of Buddhist history and transmission in Asia over a period of more than 2000 years. Aspects examined include material culture, politics, economy, languages and texts, religious institutions, practices and rituals, conceptualisations, and philosophy, while the geographic scope of the studies extends from India to Southeast Asia and East Asia. Readers' knowledge of Buddhism is constantly challenged by the studies presented, incorporating new materials and interpretations. Rejecting the concept of a reified monolithic and timeless 'Buddhism', this publication reflects the entangled 'dynamic and multi-dimensional' history of Buddhism in Asia over extended periods of 'integration', 'development of multiple centres', and 'European expansion', which shaped the religion's regional and trans-regional identities.e; - Max Deeg, Cardiff University

Architectural Conservation in Asia John H. Stubbs, Robert G. Thomson, 2016-11-10 At a time when organized heritage protection in Asia is developing at a rapid pace, Architectural Conservation in Asia provides the first comprehensive overview of architectural conservation practice from Afghanistan to the Philippines. The country-by-country analysis adopted by the book draws out local insights, experiences, best practice and solutions for effective cultural heritage management that will inform study and practice both in Asia and beyond. Whereas architectural conservation in much of the Western world has been extensively documented, this book brings together coverage of many regions where architectural conservation has been understudied. Following on from the highly influential companion volumes on global architectural conservation and architectural conservation in Europe and the Americas, with this book the authors extend their pioneering global examination to the dynamic and evolving field of architectural conservation in Asia. Throughout the book, the authors and regional experts provide local case studies and profile topics that bring depth and insight to this ambitious study. As architectural conservation becomes increasingly global in practice, this book will be of considerable assistance to architectural conservation practitioners, site managers and students of architecture, planning, archaeology and heritage studies worldwide.

Asia's Heritage Trend Jongil Kim,Minjae Zoh,2023-09-20 Kim and Zoh bring together a team of contributors to analyse the role of heritage studies across Asia, and its impact on Asia and its constituent countries. Is there such a thing as 'Asian heritage'? Is it more helpful to understand Asia as a single unit, or as a set of sub- regions? What can we learn about Asia's present through its archaeology and heritage? Covering a wide range of countries, including Afghanistan, Cambodia, China, Korea, Laos, Myanmar, Japan, Taiwan, Thailand and Vietnam, the contributors to this book address these key questions. In doing so they look at a number of critical issues, such as UNESCO World Heritage status, cultural propaganda, cultural erasure and difficult heritage. While addressing Asia's past they also observe key issues within present- day Asia, further providing conceptual and practical insights into the methods that are being applied to the study of Asia's heritage today. A valuable resource for scholars and students of Asian history and culture, archaeology, heritage studies, anthropology and religious studies.
