Developing Asian Bondmarkets Takatoshi Ito,Yung Chul Park,2014-01-10 The absence of vibrant bondmarkets in East Asia was a significant contributor to the 1997–98 financial crisis. Ever since, the development of local bondmarkets has been a major objective of financial reforms in many East Asian economies. This effort has been frustrated by the inability to reach a consensus on whether Asian bondmarkets are truly needed in East Asia, whether they can be made viable in the competitive environment of the global economy, how they should be created and what role intergovernmental cooperation should play in their definition and creation. Developing Asian Bondmarkets helps build this consensus, proposing how to develop robust and efficient bondmarkets in East Asia. This book,

the first of its kind, comes from the Finance Forum of the Pacific Economic Cooperation Council.

**Well-Oiled Diplomacy** Adam N. Stulberg, As a window into understanding the relationship between globalization and the pursuit of national security, Adam N. Stulberg examines Russia's mixed success at leveraging energy advantages in Eurasia from 1992 to 2002. Stulberg supplements traditional analyses of statecraft by highlighting indirect market and regulatory mechanisms for altering the behavior of foreign and subnational actors, as well as by demonstrating the usability of soft power and global networks. The power of this new theory of strategic manipulation is illustrated in several case studies, including Russia's successful natural gas diplomacy toward Turkmenistan and Kazakhstan, Russia's troubled oil diplomacy toward Azerbaijan and Kazakhstan, and Russia's mixed success with commercial nuclear diplomacy toward Kyrgyzstan and Kazakhstan.

This study considers strategic defense in the context of 4 competing strategic theories: deterrence through mutual assured destruction; deterrence through nuclear warfighting; deterrence relying on non-nuclear defense; & disarmament. Non-nuclear, space-based defense is not only feasible, but in some ways preferable to reliance on weapons of mass destruction. To support his case, he outlines a proposed actual system. Illus.
