Asian Sex Slaves in Agony Jessica Wang, 2017-06-24

This is a collection of short stories all of which are based on true events. The first story: A Good Asian Wife: A White American businessman's submissive Asian wife is methodically transformed into a pet dog by her step son, with the full knowledge and consent of the dominant boy's dad. She is trained, subjugated, and dehumanized by her sadistic master. Subsequently he takes full and legal ownership of her on her husband's untimely death. The second story: ASIAN SEX SLAVE MOTHER SUSAN LIN: This is the story about a beautiful young Asian mother trained by her two White step sons to become their sex slave. The third story: Chinese Language Teacher Julie Li and Her White Student Sean: A Chinese language teacher is so taken with one of her white students that she can't stop herself from giving him her body, her will, her very life. And many more ...

Digest of Education Statistics 2012 Thomas D. Snyder, Sally A. Dillow, 2014-04 Digest of Education Statistics 2012 is the 48th in a series of publications initiated in 1962. Its primary purpose is to provide a compilation of statistical information covering the broad field of American education--from pre-kindergarten through graduate school--drawn from government and private sources, but especially from surveys and other activities led by NCES (National Center for Education Statistics) part of the Institute for Education Sciences (IES). The digest contains data on the number of schools, students, and teachers, as well as statistics on educational attainment, finances, libraries, technology, and international comparisons. Details on population trends, education attitudes, labor force characteristics, and federal aid supplies helpful background for evaluating the

education data. This statistical reference could be helpful to parents choosing schools for their children as well as for teachers, librarians, and public administrators as it tracks enrollment, population trends and key areas of studies with student progress. It also tracks the post-secondary/college level detailing undergraduate tuition and room/board ESTIMATE costs at private nonprofit institutions, private for profit institutions and public institutions. It also tallies the number of postsecondary degrees and provides some gender demographics in this area. The Digest contains seven chapters: All Levels of Education, Elementary and Secondary Education, Postsecondary Education, Federal Programs for Education and Related Activities, Outcomes of Education, International Comparisons of Education, and Libraries and Adult Education. Preceding these chapters is an Introduction that provides a brief overview of current trends in American education, which supplements the tabular materials in chapters 1 through 7. The Digest concludes with three appendixes. The first appendix, Guide to Sources, provides a brief synopsis of the surveys used to generate the Digest tables; the second, Definitions, is included to help readers understand terms used in the Digest; and the third, Index of Table Numbers, allows readers to quickly locate tables on specific topics. In addition to updating many of the statistics that have appeared in previous years, this edition contains new material, including: Percentage distribution of 6- to 18-year olds, by parent's highest level of educational attainment, household type (either two-parent or single-parent), and child's race/ethnicity (table 12); Enrollment and percentage distribution of enrollment in public elementary and secondary schools, by race/ethnicity and region (table 44); Number and percentage of public school students participating in programs for English language learners, by

state (table 47); Children 3 to 21 years old served under Individuals with Disabilities Education Act, Part B, by age group and race/ethnicity (table 49); Percentage of 3-, 4-, and 5-year-old children enrolled in preprimary programs, by attendance status, level of program, and selected child and family characteristics (table 57); Number and enrollment of public elementary and secondary schools that have closed, by school level and type (table 109); Number and percentage distribution of public school students eligible for free or reduced-price lunch, by school level, locale, and student race/ethnicity (table 112); Public elementary and secondary charter schools and enrollment, by state (table 117); First-time kindergartners' reading, mathematics, science, cognitive flexibility, and approaches to learning scale scores in fall and spring of the kindergarten year, by selected child, family, and school characteristics (table 135); Number and percentage distribution of kindergartners, by kindergarten entry status (i.e., early entrant, on-time entrant, delayed entrant, or kindergarten repeater) and selected child, family, and school characteristics (table 136); Kindergartners' reading, mathematics, science, cognitive flexibility, and approaches to learning scale scores in fall and spring of the kindergarten year, by kindergarten entry status (table 137); Percentage of 9th-grade students participating in various school-sponsored and non-school-sponsored activities, by sex and race/ethnicity (table 183); Percentage of 4th-, 8th-, and 12th-graders absent from school in the last month, by selected student and school characteristics and number of days absent (table 187); Total and current expenditures per pupil in fall enrollment in public elementary and secondary schools, by function and subfunction (table 214); Total fall enrollment in all postsecondary institutions participating in Title IV

programs, by degree-granting status and control of institution (table 222); Percentage of recent high school completers enrolled in 2-year and 4-year colleges, by income level (table 236); Number of postsecondary students who entered the student loan repayment phase, number of students who defaulted, and 2-year student loan cohort default rates, by level and control of institution (table 400); Number and percentage of persons 16 to 24 years old who were neither enrolled in school nor working, by educational attainment, age group, family poverty status, and race/ethnicity (table 429); Employment to population ratios of all persons, males, and females 16 to 64 years old, by age group and educational attainment (tables 431, 432, and 433); Unemployment rates of all persons, males, and females 16 to 64 years old, by age group and educational attainment (tables 434, 435, and 436); Percentage of high school students age 16 over who were employed, by age group, sex, race/ethnicity, family income, nativity, and hours worked per week (table 441); and Average reading literacy scale scores of fourth-graders and percentage whose schools emphasize reading skills and strategies at or before second grade or at third grade, by sex and country or other education system (table 462).

Social Difference and Constitutionalism in Pan-Asia Susan H. Williams, 2014-02-10 One of the most vexing problems in the theory and practice of politics is the issue of difference. How do we build a just and stable polity in the face of identity differences that have historically been the basis for inequality, injustice, and violence? Such differences can take a variety of forms, including religious difference, race and ethnicity, language difference, urban/rural tensions, and gender. In many countries, divisions such as these are the fault lines that threaten the stability of the social and legal order. This book addresses

the role of constitutions and constitutionalism in dealing with the challenge of difference. In the spring of 2011, a conference held at Indiana University brought together a distinguished group of lawyers, political scientists, historians, religious studies scholars, and area studies experts to consider how constitutions and constitutionalism address issues of difference across a wide swath of the world we called Pan-Asia. Pan-Asia runs from the Middle East, through Central Asia, South Asia, Southeast Asia, East Asia, and into Oceania. This is a meta-region across which ideas and influences have traveled for centuries. It is also an area of the world that includes every type of difference in abundant supply. Pan-Asia, therefore, provides a wonderful laboratory for examining the role of constitutions in addressing difference. The existing literatures, while rich in other ways, do not speak directly to this issue of constitutions as a mechanism for addressing difference. There is a vast political theory literature on the relationship between democracy and difference--

Training of Inferior East Asian Women Jennifer Suzuki, 2015-07-01 What is related in this book is the reality of the next two centuries; what is described is what is already happening and still to come, and what can no

longer come any differently: that every White man shall have asian women as his wives, girlfriends, concubines, pleasure slaves, and meat urinals as the natural progression of the world as inevitable as the river that flows into the ocean however restlessly, violently, that wants to reach its destination, that no longer can stop, and that is afraid to stop; this fact and this reality-this future-speaks even now in a hundred signs; its destiny announces itself on every street corner; and yet some refuse to hear its music; but it will have reached a point when people will no longer be able to delude themselves. As I have said hundreds of times, economic power, as an element of soft power, will not translate into hard power, and feminine superiority will not thereby transubstantiate into masculine superiority, therefore it is imperative, inevitable that this trend will continue to move forward headlong, unabated by any tortured tension that might grow with it from decade to decade. Asian women therefore must always submit to White men's will, and do them all possible honor, and any asian woman who behaves differently is worthy not only of severe censure, but of harsh punishment. I consider, in my judgement, all those asian women who are other than agreeable, kindly, and compliant to White men, should be harshly and rigidly disciplined through corporal punishment until she prostrates on the ground begging for mercy from her lord, her White god. For a good horse and a bad, spurs are required; for a good asian woman or bad, the rod is required. All asian women are by nature pliant and yielding, and hence for those who step beyond their permitted bounds, the rod is required to punish their transgressions and in order to sustain the virtues of other asian women, who practice restraint, the rod is required to encourage and frighten them. An asian woman must know that she is born to serve and worship her White man as her

governor, her lord and her god, and she must learn to love her White man as her own dear life. The new dawn of mankind is here, and White man is that divine sun and asian woman is his emulous moon. As the glorious sun rises from the east, he must kill the submissive moon, who is already humiliated and defeated. The supreme sun will once again cast his light onto this world, and he shall cast his long shadow over the subjugated moon.
