Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn

what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit “reply all” • you’re being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate’s loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager “A must-read for anyone who works . . . [Alison Green’s] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work.”—Booklist (starred review) “The author’s friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers’ lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

The Forum on China-Africa Cooperation Garth

Shelton, 2008 Research on China’s African engagement has increased significantly in recent years and covers a wide range of topics and issues. While much of this research has been critical of China’s activities on the continent, few observers have attempted to analyse or understand China’s policy towards Africa and the specific diplomatic framework (FOCAC) constructed by China to advance dialogue, problem solving and mutual benefit. FOCAC

forms the central pillar in advancing China-Africa relations and is the arena for constructive diplomatic interaction. It provides the foundation for building a long-term 'win-win' China-Africa relationship. A fuller understanding of FOCAC as a mechanism for advancing such a China-Africa win-win relationship and for building positive South-South relations is required to advance the China-Africa research agenda. This monograph seeks to provide this understanding of FOCAC.--P. [4] of cover.

AIDS and Social Policy in China Joan Kaufman, Arthur Kleinman, Anthony Saich, 2020-10-26 This first English language book on China's AIDS epidemic provides a picture of the current state of the epidemic, a social science and interdisciplinary perspective on gaps in the response, and a blueprint for needed actions. The book's editors are leading experts on China's AIDS epidemic, health and political systems. Contributors comprise some of the world's leading Chinese and international researchers, policy-makers, and civil society representatives working on HIV/AIDS in China. The multi-disciplinary work provides a critically needed social science perspective and analysis of the epidemic, offers a framework for thinking about the spread of HIV in China, and includes suggestions for an effective policy response that also addresses social determinants.

Chinese and Japanese Music-Dramas J. I. Crump, William

P. Malm, 2020-08-06 Chinese and Japanese Music-Dramas is the result of a conference on the relations between Chinese and Japanese music-drama held at the University of Michigan, Ann Arbor, on October 1-4, 1971. In addition to the Association for Asian Studies, four U-M departments participated in the conference: the Center for Japanese Studies, the Center for Chinese Studies, the School of Music, and the Speech Department. One important inspiration for the creation of such an interdisciplinary conference was the fact that each participant had found, after years of individual research on music-drama in East Asia, consistent frustration caused by attempts to deal on their own with multiple cultural and technical problems. Another motivating force was an awareness among many members of the four disciplines involved that the topic is in fact one of the largest untouched fields of scholarly endeavor in both Asian and theatrical studies. The collection opens with J. I. Crump's exploration of the Ming commentators who began to subject Yüan musical drama to the same critiques as other literature from the past. In the second chapter, Rulan Chao Pian looks to the structure of arias in Peking Opera for clues about what distinguishes this art form. William P. Malm turns to three key sources for the performance conventions of Japanese Noh drama to glean any Sino-Japanese music relationships that exist in technical terms and practices. In the fourth essay, Carl Sesar analyzes a Noh play that stages the tension between Chinese influence and Japanese originality. Roy E Teele concludes the volume with a formal study of Noh play structure to assess lineages of influence from Chinese dramatic forms. After each contribution, the editors print a transcript of the conference participants' discussion of that paper, providing the reader with a detailed and nuanced view of how the contributors understood and responded to each other's work.

Our Great Qing Johan Elverskog, 2008-07-31 In a sweeping overview of four centuries of Mongolian history that draws on

previously untapped sources, Johan Elverskog opens up totally new perspectives on some of the most urgent questions historians have recently raised about the role of Buddhism in the constitution of the Qing empire. Theoretically informed and strongly comparative in approach, Elverskog's work tells a fascinating and important story that will interest all scholars working at the intersection of religion and politics. —Mark Elliott, Harvard University

Johan Elverskog has rewritten the political and intellectual history of Mongolia from the bottom up, telling a convincing story that clarifies for the first time the revolutions which Mongolian concepts of community, rule, and religion underwent from 1500 to 1900. His account of Qing rule in Mongolia doesn't just tell us what images the Qing emperors wished to project, but also what images the Mongols accepted themselves, and how these changed over the centuries. In the scope of time it covers, the originality of the views advanced, and the accuracy of the scholarship upon which it is based, *Our Great Qing* seems destined to mark a watershed in Mongolian studies. It will be essential reading for specialists in Mongolian studies and will make an important contribution and riposte to the 'new Qing history' now changing the face of late imperial Chinese history. Specialists in Tibetan Buddhism and Buddhism's interaction with the political realm will also find in this work challenging and thought-provoking. —Christopher Atwood, Indiana University

Although it is generally believed that the Manchus controlled the Mongols through their patronage of Tibetan Buddhism, scant attention has been paid to the Mongol view of the Qing imperial project. In contrast to other accounts of Manchu rule, *Our Great Qing* focuses not only on what images the metropole wished to project into Mongolia, but also on what images the Mongols acknowledged themselves. Rather than accepting the Manchu's use of Buddhism, Johan Elverskog begins by questioning the static, unhistorical, and hegemonic view of political life implicit in the Buddhist explanation. By stressing instead the fluidity of

identity and Buddhist practice as processes continually developing in relation to state formations, this work explores how Qing policies were understood by Mongols and how they came to see themselves as Qing subjects. In his investigation of Mongol society on the eve of the Manchu conquest, Elverskog reveals the distinctive political theory of decentralization that fostered the civil war among the Mongols. He explains how it was that the Manchu Great Enterprise was not to win over Mongolia but was instead to create a unified Mongol community of which the disparate preexisting communities would merely be component parts. A key element fostering this change was the Qing court's promotion of Gelukpa orthodoxy, which not only transformed Mongol historical narratives and rituals but also displaced the earlier vernacular Mongolian Buddhism. Finally, Elverskog demonstrates how this eighteenth-century conception of a Mongol community, ruled by an aristocracy and nourished by a Buddhist emperor, gave way to a pan-Qing solidarity of all Buddhist peoples against Muslims and Christians and to local identities that united for the first time aristocrats with commoners in a new Mongol Buddhist identity on the eve of the twentieth century.

Overtourism Claudio Milano, Joseph M Cheer, Marina Novelli, 2019-06-07 This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as

well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

The Concept of Indigenous Peoples in Asia Christian Erni, 2008 Deals with the controversy in defining indigenous people and indogeneity. Discusses standard-setting activities in international law and ethno-nationalist interpretations in Asia, including 15 country profiles focusing on terms used, government positions, and recognized indigenous nationalities. China Returns to Africa Chris Alden, Daniel Large, Ricardo Soares de Oliveira, 2008 The geopolitical landscape of China-Africa relations has been overlooked during the G8's purported 'Year of Africa', which generated debate in the build-up to the China-Africa Summit in Beijing in 2006. This book offers surveys of China's return to Africa, examining what this relationship holds for diplomacy, trade and development.

Good Economics for Hard Times Abhijit V. Banerjee, Esther Duflo, 2019-11-12 The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the

whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

Spain, China and Japan in Manila, 1571-1644 Birgit Tremml-Werner, 2015 *Spain, China and Japan in Manila, 1571-1644* offers a new perspective on the connected histories of Spain, China, and Japan as they emerged and developed following Manila's foundation as the capital of the Spanish Philippines in 1571. Examining a wealth of multilingual primary sources, Birgit Tremml-Werner shows that cross-cultural encounters not only shaped Manila's development as a Eurasian port city, but also had profound political, economic, and social ramifications for the three pre-modern states. Combining a systematic comparison with a focus on specific actors during this period, this book addresses many long-held misconceptions and offers a more balanced and multi-faceted view of these nations' histories.
