**Artamonoff** Nicholas Victor Artamonoff,2013 Nicholas V. Artamonoff left behind a photographic puzzle of over one thousand images. He was a student and engineer, who, while studying and living at Robert College in Istanbul, gained an appreciation for the city's history and culture. With his Rollei camera, he captured Byzantine remains, ntering nooks and crannies of fortifications and cisterns. He strolled through the city in the footsteps of architectural historians and archaeologists who explored and uncovered Byzantine Istanbul. his interests were broad: they ranged from imposing churches to the smallest details of architectural sculpture, from bustling marketplaces to the diligent work of lone craftsmen. The abundance of subjects es the Nicholas V. Artamonoff Collection rich and engaging, providing a glimpse into the diverse urban environment in which he lived, and into the versatile photographer he was.

**Killology** Gary Owen,2017-03-24 In Killology, players are rewarded for torturing victims, scoring points for “creativity”. But Killology isn’t sick. In fact it’s marketed by its millionaire creator as a deeply moral experience. Because yes, you can live out your darkest fantasies, but you don’t escape their consequences. Out on the streets, not everybody agrees with him. “There is an instinctive revulsion against taking a human life. And that revulsion can be conquered.”

**Judaism and Islam in Practice** Jonathan E. Brockopp,Jacob Neusner,Tamara Sonn,2005-09-27 Judaism and Islam compare because they concur

that God cares deeply not only about attitudes but actions, not only about what one says to God but how one conducts affairs at home and in the village. In this sourcebook, the authors have selected key passages from the laws of Judaism and Islam which allow a close examination of their mode of expression and medium of thought as well as the substance of the laws themselves. The selected passages concentrate on areas critical to the life of piety and faith as actually practised within the two faith-communities - the relationship between the believer and God, between and among believers, at home in marriage, outside the home in the community and between the faithful and the infidels (for Islam) or idolaters (for Judaism). Judaism and Islam in Practice presents an invaluable collection of sources of Jewish and Islamic law and provides a unique analysis of the similarities and contrasts between the two faiths.

*Frontiers in Nature-based Tourism* Peter Fredman, Liisa Tyrväinen, 2014-01-02 Nature has been a key attraction factor for tourism in the Nordic countries for decades. The demand for nature-based tourism has steadily grown and is one of the most rapidly expanding sectors within tourism across Europe and elsewhere. This demand has created opportunities for nature-based tourism to develop as an economic diversification tool within regions rich in natural amenities. But nature-based tourism is not only about tourism businesses and tourists visiting nature. The natural environment as a basis for tourism involves many challenges related to local communities, public access, nature protection and the management of natural resources. This book covers a broad set of topics in contemporary nature-based tourism from Finland, Iceland, Norway and Sweden. Areas discussed are innovation, fishing rights and supply of angling, recreation experience preferences, national park attractions, the cultural clash between established outdoor recreational use and new tourism activities, the Right of Public Access as opportunity and obstacle, preferences of tourism landscapes, controversies around wilderness development, management of hiking trails, eco-tourism certification, and financing of recreational infrastructure. This book was published as a special issue of the Scandinavian Journal of Hospitality and Tourism.

*Cinematic Storytelling* Jennifer Van Sijl, 2005 What the industry's most successful writers and directors have in common is that they have mastered the cinematic conventions specific to the medium.

Key Ideas in Sociology Martin Slattery, 2003 Key Ideas in Sociology provides a tour d'horizon of the great sociological thinkers of the last two

centuries -- their lives, their main ideas, and their influence on further thinking and practice in sociology. Fifty key thinkers in sociology are represented, both to give a sense of history to the development of the discipline and to exemplify the range of issues that have been covered. Each essay concludes with an annotated Suggested Readings list, and a General Bibliography is also provided.

**City of Gold** Jim Krane, 2009-09-15 Award-winning journalist Jim Krane charts the history of Dubai from its earliest days, considers the influence of the family who has ruled it since the nineteenth century, and looks at the effect of the global economic downturn on a place that many tout as a blueprint for a more stable Middle East The city of Dubai, one of the seven United Arab Emirates, is everything the Arab world isn't: a freewheeling capitalist oasis where the market rules and history is swept aside. Until the credit crunch knocked it flat, Dubai was the fastest-growing city in the world, with a roaring economy that outpaced China's while luring more tourists than all of India. It's one of the world's safest places, a stone's throw from its most dangerous. In City of Gold, Jim Krane, who reported for the AP from Dubai, brings us a boots-on-the-ground look at this fascinating place by walking its streets, talking to its business titans, its prostitutes, and the hard-bitten men who built its fanciful skyline. He delves into the city's history, paints an intimate portrait of the ruling Maktoum family, and ponders where the city is headed. Dubai literally came out of nowhere. It was a poor and dusty village in the 1960s. Now it's been transformed into the quintessential metropolis of the future through the vision of clever sheikhs, Western capitalists, and a river of investor money that poured in from around the globe. What has emerged is a tolerant and cosmopolitan city awash in architectural landmarks, luxury resorts, and Disneyfied kitsch. It's at once home to America's most prestigious companies and universities and a magnet for the Middle East's intelligentsia. Dubai's dream of capitalism has also created a deeply stratified city that is one of the world's worst polluters. Wild

growth has clogged its streets and left its citizens a tiny minority in a sea of foreigners. Jim Krane considers all of this and casts a critical eye on the toll that the global economic downturn has taken. While many think Dubai's glory days have passed, insiders like Jim Krane who got to know the city and its creators firsthand realize there's much more to come in the City of Gold, a place that, in just a few years, has made itself known to nearly every person on earth.

**The World of Wild Cats** Jeff Corwin, 2014-06-02 The reclusive and endangered snow leopard, is one of the many fascinating species covered in this guide. *The World of Wild Cats*, edited by world-famous naturalist Jeff Corwin, teaches about the way wild cats evolved, how they are built and how they behave, reproduce and survive in different habitats around the world. It also highlights some of the most familiar and unique species found worldwide, their current status, what to do if you encounter a wild cat in the wild and what you can do to help to conserve and protect these spectacular creatures. This folding pocket guide is the ideal reference for cat-lovers and teachers alike. Made in the USA.

*Marino Sanudo Torsello, The Book of the Secrets of the Faithful of the Cross* Dr Peter Lock, 2013-07-28 This is the first full translation of Marino Sanudo Torsello's *Secreta fidelium Crucis* to be made into English. The work itself is a piece of crusading propaganda following the fall of Acre in 1291, written between 1300 and 1321, but it includes much of historical relevance along with interesting observations on the early history of Jerusalem and the Crusader Kingdom. The translation is based upon the text edited by Jacques Bongars in 1611. There is an introduction that contextualises the book, its author, his sources and his audience. The notes provide essential information to clarify internal textual references and allusions, as well as the role of Biblical references in Sanudo's grand design. The index is designed to make this detailed text usable and accessible. In this, his major work, Sanudo advocated the conquest of Egypt as the means to regain Jerusalem for the Latins and worked through his points with considerable detail alongside references to 13th-century Mediterranean history, especially involving Louis IX of France and Charles of Anjou, king of Naples. Books I and II give considerable detailed discussion of the concept, plan and costs of his proposed crusade. Book III provides an outline history of the crusades and the crusader states. It is derived from a wide-reading of other sources especially of William of Tyre, and, for events after 1184 on the Eracles, the letters of James of Vitry, and Sanudo's own experiences in the east. Throughout, the work contains a staggering amount of cartographical, ethnographical, geographical, and nautical information, as well as numerous unique insights into historical events and personalities of the late 13th century, not only in

Outremer but in Western Europe.

*The Rise of Unemployment in Europe* Engelbert Stockhammer, 2004 The author considers the evolution of the rate of unemployment. Stockhammer provides a framework that compares the features and implications of the New Keynesian NAIRU model with those of the closely related post Keynesian theory of conflict inflation.

The City in the Greek and Roman World E. J. Owens, 2018-10-24 Drawing on archaeology, literary and epigraphic evidence, professional and technical literature, and descriptions of cities by travellers and geographers, the author traces the developments of town planning, revealing the importance of the city to political, religious, and social life in the Greek and Roman world.
