  Learning in a Digital World Paloma Díaz,Andri Ioannou,Kaushal Kumar Bhagat,J. Michael Spector,2019-06-29 This book aims at guiding the educators

from a variety of available technologies to support learning and teaching by discussing the learning benefits and the challenges that interactive technology imposes. This guidance is based on practical experiences gathered through developing and integrating them into varied educational settings. It compiles experiences gained with various interactive technologies, offering a comprehensive perspective on the use and potential value of interactive technologies to support learning and teaching. Taken together, the chapters provide a broader view that does not focus exclusively on the uses of technology in educational settings, but also on the impact and ability of technology to improve the learning and teaching processes. The book addresses the needs of researchers, educators and other stakeholders in the area of education interested in learning how interactive technologies can be used to overcome key educational challenges.

  100 Ideas for Secondary Teachers: Supporting EAL Learners Catharine Driver,Chris Pim,2018-04-19 No matter what you teach, there is a 100 Ideas

title for you! The 100 Ideas series offers teachers practical, easy-to-implement strategies and activities for the classroom. Each author is an expert in their field and is passionate about sharing best practice with their peers. Each title includes at least ten additional extra-creative Bonus Ideas that won't fail to inspire and engage all learners. _____

From EAL experts Chris Pim and Catharine Driver come 100 ideas for providing secondary teachers with strategies and activities to support the induction, assessment and learning of students with English as an additional language (EAL) in tutor time, in specific subjects and at whole-school level. There is so much pressure on teachers to deliver engaging and innovative lessons that both adhere to the demands of the curriculum and get the necessary results. Having to plan lessons, implement strategies and create effective resources for EAL students can be a challenge, and with over 15% of secondary school students exposed to a language other than English in their home (according to 2016 data from the Department for Education), it is a challenge affecting every teacher. This book provides practical plans for giving EAL learners general support, but also includes ideas linked to specific subjects, especially key problem areas such as mathematics and science, to help EAL learners get the most out of lessons. 100 Ideas for Secondary Teachers: Supporting EAL Learners is a treasure trove of adaptable ideas to use for students who are beginners and advanced learners of EAL.

This new edition of Getting Things Done will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

  Collaborative Networks for a Sustainable World Luis M. Camarinha-Matos,Xavier Boucher,Hamideh Afsarmanesh,2010-09-21 Collaborative Networks for a Sustainable World Aiming to reach a sustainable world calls for a wider collaboration among multiple stakeholders from different origins, as the changes needed for sustainability exceed the capacity and capability of any individual actor. In recent years there has been a growing awareness both in the political sphere and in civil society including the bu- ness sectors, on the importance of sustainability. Therefore, this is an important and timely research issue, not only in terms of systems design but also as an effort to b- row and integrate contributions from different disciplines when designing and/or g- erning those systems. The discipline of collaborative networks especially, which has already emerged in many application sectors, shall play a key role in the implemen- tion of effective sustainability strategies. PRO-

VE 2010 focused on sharing knowledge and experiences as well as identi- ing directions for further research and development in this area. The conference - dressed models, infrastructures, support tools, and governance principles developed for collaborative networks, as important resources to support multi-stakeholder s- tainable developments. Furthermore, the challenges of this theme open new research directions for CNs. PRO-VE 2010 held in St.
