Astrology 101 Kathleen Sears, 2015-12-04 Explore the mysteries of the cosmos! Too often, astrology guides obscure the mystical wonder of the zodiac with overly tedious details about nodes, houses, angles, and aspects that even Ptolemy would reject. *Astrology 101* cuts out the boring details and lengthy explanations and instead gives you a hands-on lesson that keeps you engaged as you learn how the movements of the stars and planets affect human behavior. From the four elements and twelve houses to astrological personality types and sign compatibility, this compact primer is packed with hundreds of fascinating star sign facts, informative charts and illustrations, and stories of famous astrologers and their predictions for the future. So whether you're looking to find how a Mercury retrograde affects you, or just want to learn more about a specific sun sign, *Astrology 101* has all the answers--even the ones you didn't know you were looking for.

Astrology 101 Gyan Surya, 2003 This offering is designed for people with little or no knowledge of astrology, who would like to be able to understand and interpret their own birth charts, and perhaps those of their loved ones. It is a simple but complete guide to basic chart interpretation, including Sun, Moon, planets, Chiron and the four major asteroids. The approach is holistic, with an emphasis on harmonics. The technical aspects of chart creation and analysis are avoided. If you decide to study the subject in depth, you will most likely want to learn chart calculation and other tools

of astrological application which are not covered here. This is a beginning place, and if studied and applied will provide a good grasp of your chart and a foundation for deeper study. For more information, please visit:

A History of Western Astrology S. J. Tester, 1987 Superb general account.' Times Literary Supplement The story of the history of Western astrology begins with the philosophers of Greece in the 5th century BC. To the magic and stargazing of Egypt the Greeks added numerology, geometry and rational thought. The philosophy of Plato and later of the Stoics made astrology respectable, and by the time Ptolemy wrote his textbook the Tetrabiblos, in the second century AD, the main lines of astrological practice as it is known today had already been laid down. In future centuries astrology shifted to Islam only to return to the West in medieval times where it flourished until the shift of ideas during the Renaissance.

Year of the Horse Ruth May-Hoffman, 2015-08-20 About the East meets West Astrological Personality Portraits Books We are what we are - when you paint your own portrait what do you see? If you believe in astrology, you will always be able to see far beyond the simple three-dimensional outer shell.

Some call it your aura, a radiating light...some say it is the light of your soul. For thousands of years astrology has determined an individual's self is predestined by the positions of the planets when born. Eastern astrology, based on lunar years, and Western astrology, based on the rotation of the earth around the sun, gives the insights needed to envision your portrait. An astrological personality portrait is an allegorical body of information both individual and global in scope. It is designed to reveal facts about our deeper natures as well as our interactions with other individuals, with society and with the larger forces that are at work in the universe. We all seek to better know about ourselves and each other and to gain some clues that will help us smoothly pave the way of our choices, helping us facilitate our passage through life. That is what these personality portraits seek to provide. Clues. Beautifully formatted, these books show you a picture of your astrological self, your strengths and your weaknesses, and how the combination of eastern and western signs creating the whole makes you distinctively and uniquely ...you.

The East Meets West Astrological Personality Portraits Ruth May-Hoffman, 2003-01-01 One of twelve in a series of books with allegorical fine art portraits showing the combination of Eastern Chinese year of birth with Western zodiac. You are introduced to the East meets West concept, including some history, myths, and tales about the formation of both the Eastern and the Western disciplines. All 12 zodiacs combined with the year of the Ox are

displayed in opulent color, accompanied by a delightful narrative.

A History of Western Astrology Volume II Nicholas Campion, 2009-04-16

Astrology is a major feature of contemporary popular culture. Recent research indicates that 99% of adults in the modern west know their birth sign. In the modern west astrology thrives as part of our culture despite being a pre-Christian, pre-scientific world-view. Medieval and Renaissance Europe marked the high water mark for astrology. It was a subject of high theological speculation, was used to advise kings and popes, and to arrange any activity from the beginning of battles to the most auspicious time to have one's hair cut. Nicholas Campion examines the foundation of modern astrology in the medieval and Renaissance worlds. Spanning the period between the collapse of classical astrology in the fifth century and the rise of popular astrology on the web in the twentieth, Campion challenges the historical convention that astrology flourished only between the twelfth and seventeenth centuries. Concluding with a discussion of astrology's popularity and appeal in the twenty-first century, Campion asks whether it should be seen as an integral part of modernity or as an element of the post-modern world.

The Essential Guide to Practical Astrology April Kent,2011-06-07 A down-to-earth guide about the message of the stars. For astrology to be useful there's no need to have a crystal ball, incense, meditation, or faith. Learn the practical language of astrology in this clear, easy-to-understand exploration that goes way beyond daily horoscopes and zodiac. With it, the reader will be able to calculate and read their own and others' birth charts; tell signs and planets from houses; create daily, weekly, monthly, and yearly planners- even make predictions for the future. With a glossary and further resources, this guide explores: ? Why horoscopes and descriptions of sun signs are usually wrong. ? Why many astrologers use the wrong zodiac. ? The several different houses system. ? All the planetary aspects that go beyond the sun and moon. ? The many cycles that determine an astrological forecast.

Native American Astrology Winfried Noe,2006 Through the wisdom of American tribal cultures, meet Mother Earth and Father Heaven, Grandfather Sun and Grandmother Moon, and discover an insightful but little-known source of personal guidance and healing power. Find your Totem, or birth sign, named after one of twelve animal creatures whose spirits inhabit the earth. Then determine the Element that most influences your personality—Earth, Air, Fire, or Water—and how to live in harmony with its energies. Next, discover your Element-Clan, animal totems that are a part of your Elemental family, and the special powers they give you. Finally, explore the Four Winds, the seasons

they influence, and the gifts they bestow. In simple, beautiful descriptions and images, you'll see how these energies affect your loves, vocation, and destiny.

Astrology Dictionary Antonia Beattie, 2003 A fascinating guide to the many different traditions within astrology, including Western, Chinese, and Native American systems. With easy-to-understand charts and delightful illustrations, *Astrology Dictionary* explores the techniques and systems to provide valuable insights into destiny, character, and relationships.

Humanity and the Zodiac Alfred F Seward, 2006-09-01 Astrology comes to our aid by showing us unmistakably our weaknesses and evil tendencies, and instructs us how to attain a state in which we can command and control opposing forces and become giants of strength and power. -from the Preface In this 1909 work, a qualified astrologer offers a detailed analysis of the characters of those born under each of the 12 signs of the zodiac. Discover... . which is the most favorable birth sign to be born under . which sign indicates born lovers . which sign is the domain of prophecy . which sign the members of which are liable to be suspicious and impatient . and much more. American astrologer ALFRED FRANCIS SEWARD (b. 1877) also wrote *Stargazers of Egypt* (1919), *Art of Crystal Gazing* (1920), *Character Reading at a Glance* (1922), and other astrological works.

The ABC of the Old Science of Astrology Sidney Randall, 2006-09-01 Astrology has a great future before it. The children of the new era will be educated, not by ignorant parents and teachers with out-of-date ideas, but by their educated parents and teachers, who will have their horoscopes correctly cast for the exact time of birth.-from the Introduction There was a time, not so long ago, when the new promise of scientific astrology was on the verge of making life infinitely better, from the prospect of a more intimate self-knowledge to the wonderful help a correct horoscope is to medical diagnosis. This charming didactic 1917 primer, from that optimistic era, takes a can-do educational tone in its quest to help young people become their own astrologers. Here are all the astrological lessons any at-home forecaster needs, including.... the importance of the time of birth. how to deal with sidereal time. the meaning of retrograde. how to place the planets properly in a horoscope map. orbs, aspects, trines, and quincunxes. how to read an astrological fortune. understanding houses. and more.
