Michelangelo Astrologer

A Congeries of Cosmic Considerations Michelangelo Astrologer, 2020-11-23 This the third book of astrological essays from New York based medical and forensic astrologer, Michelangelo, whose two previous books, *Random Ramblings of an Astrological Autodidact*, and *Miscellaneous Maunderings about the Starry Sky*, have both been rated 5-stars on Amazon. *Random Ramblings* was also reviewed very favorably by astrologer Mary Plumb in *The Mountain Astrologer* in Mar/April 2019. This latest effort is comprised of some 17 essays (18 with the introduction, *A Fascination with Fate*), although one of them is not astrological, per se, but rather focuses on a dream divination with *Voyager Tarot*. The author was a Certified *Voyager Tarot* Consultant for a number of years, worked somewhat closely with its creator, James Wanless, Ph. D., and always incorporates some aspect of Tarot divination into his astrological consultations. There are, reflective of his customary enthusiasms, a number of essays on various creatives, ranging from Joni Mitchell to Luciano Pavarotti to Peter Sellers to the twin exponents of the jazz-rock group, Steely Dan, Daniel Fagen and Walter Becker. Medical astrology is, nominally, his principal focus as an astrological consultant, and there are investigations with that thrust, especially that of jazz pianist, Bill Evans, the last contribution to this book, as well a notable forensic endeavor (pun intended), on the shipwreck of the HMS *Bark Endeavour*, the intrepid vessel, a converted collier (coal-carrier), that transported Captain James Cook on his epic voyages of discovery in the Pacific. *Endeavour* famously ran aground on the Great Barrier Reef during its master's initial foray into Australian waters. There is one case of suicide, American tenor, Jerry Hadley, and a brief horary investigation involving a lost credit card case, an occurrence of no small import!! Many of these essays have previously appeared in astrologer Smiljana Gavranic's excellent publication, *Infinity Astrological Magazine*, which she distributes from

her native Serbia. The analyses of these horoscopes incorporate a range of traditional and innovative astrological techniques, as well as a number of chart wheels, in full color, and they would be of interest to fledgling astrologers who would wish to see astrology in action, as well as senior practitioners, and interested laypersons.

Saral Jyotish Part-3 Astrology Simplified V. P. Goel, This part of Saral Jyotish contains five topics- Bandhan Yoga, Upchaya House, Vipreet Raj Yoga, Dispositors and Shakti Yoga. These are fundamental, but indicate topics of Astrology and are used daily, by every Astrologer. This book demystifies these concepts and explain them in an easy-to-understand manner, with lots of examples. In-depth explanations and practical application of these topics can help an Astrologer strengthen basic concepts and predict correctly.

The Only Way to Learn Astrology: Horoscope analysis Marion D. March, Joan McEvers, 2009-12 This Second Edition of the highly popular and best-selling The Only Way to Learn Astrology series continues the traditions of Volumes 1 and 2 by presenting refinements of astrological interpretation, as well as the actual process of putting it all together into a meaningful, informative analysis. Part I, liberally sprinkled throughout with horoscopes of many famous and fascinating personalities, takes you through the 144 possible placements of house rulers-valuable information that is otherwise difficult to find in contemporary astrological literature. Part II presents examples of depth analysis using the horoscopes of four prominent individuals. Part III covers special, specific areas of delineation such as health, vocation, personal appearance, marriage and more.

Be Your Own Astrologer: Ascendant Gemini a Comprehensive Introduction Dr. Bhojraj Dwivedi,2017-02-20
Ascendant is the most important element of Astronomy and Astrology. Ascendant is the fundamental factor or seed of Astrology. This is the base on which the entire mansion of Astrology or the vast banyan tree stands. The calculative portion of Astrology can be solved by computer to a great extent, but the predictive portion is out of question. Astrology without prediction is just like a flower without fragrance. Many a time learned Astrologers and professional fortune-tellers are hesitant in giving correct predictions. The present book is intended to combat this challenge, by presenting facts and figures Ascendant-wise in separate books so that a clear and concise avenue may be opened for those who are aspiring to know what is there in store for them in the celestial world. With the help of this book people can know their future and they can foretell the future of their near and dear ones. It is our humble endeavour to bestow the common people with knowledge of Astrological prediction. Twelve (12) Ascendants arise in the sky during the course of a

day and night. An Ascendant exists for roughly two (2) hours. It is the first step towards giving the prediction on the basis of Ascendant itself. It is hoped that it will be appreciated in the world of Astrology.

Retrograde Jupiter - Part III Himanshu Shangari, 2021-07-19 Welcome to the revised edition (2021) of Retrograde Jupiter Part 3. A retrograde planet may not change its functional nature in a horoscope, in most cases. Hence if a benefic planet goes retrograde in a horoscope, it may still give benefic results. Likewise, if a malefic planet goes retrograde in a horoscope, it may still give malefic results. When a planet goes retrograde, it may undergo some changes in its style of working, rather than in its nature of working. Due to such changes in its style of operation, retrograde Jupiter may produce results, which may be different than those given by forward-moving Jupiter. This book deals with the placements of retrograde Jupiter in the 7th, 8th and 9th houses of horoscope. Benefic as well as malefic effects of retrograde Jupiter have been discussed in each one of these houses in different signs, along with relevant examples from horoscopes.

When a planet goes retrograde, it may undergo some changes in its style of working, rather than in its nature of working. Debilitated Planets - Part III Himanshu Shangari,2016-04-29 The presence of a planet in its sign of exaltation or the presence of a planet in its sign of debilitation is only a measure of its physical strength or weakness and nothing more than that, to a great extent. Therefore a debilitated planet can also be a benefic or even the most benefic planet in a horoscope whereas an exalted planet can also be a malefic or even the most malefic planet in a horoscope.

Astrology: How to Make and Read Your Own Horoscope Sepharial, 2020-09-28 From the earliest ages of the world's history the subject of Astrology has excited the interest of, and exercised a great influence over, the minds of a certain order of thinking men. The science has never been universal in its acceptance, though it is safe to say that, with its countless adherents in the East and the ever-

increasing number of its advocates in the West, there is no faith which has a more universal application than the belief in the influence of the heavenly bodies over the destinies of human beings. It is not possible within the limits of a small handbook such as this to adequately consider the philosophic paradox which makes of Freewill in man a "necessity in play"; but it is obvious that the concept is not altogether unscientific, seeing that it is customary to speak of the "free path of vibration" in chemical atoms while at the same time it is known that these atoms have their restricted characteristics, modes of motion, &c., and are all subject to the general laws controlling the bodies of which they form integral parts. Let it suffice that if we can trace an actual connectedness between the disposition of the heavenly bodies at the moment of a birth and the known life and character of the individual then born, and an exact correspondence between the course of events in that life with the changes occurring in the heavens subsequent to the moment of birth, we shall do well to accept the fact for what it is worth, and arrange our philosophic notions accordingly. As far back as the year B.C. 2154, we find mention of the great importance attaching to the celestial phenomena in the minds of Chinese rulers. It is recorded in the Historical Classic of China that at that time the astrologers Hi and Ho neglected their duties so that when, on the 10th of October, there was a great eclipse of the Sun at Peking between seven and nine o'clock in the morning, the people were wholly unprepared for it, and "ran about here and there in the utmost consternation." For this offence Hi and Ho were deprived of their offices, their estates were confiscated and they were driven from the kingdom. Among the Hindus we have the classical writers Garga, Parashara, and Mihira, together with their legions of commentators. The Assyrian records are full of astrological allusions regarding the influence of planetary conjunctions and stellar positions. The Greek mythology is nothing but a vast system of cosmographical astrology, and there

is no other history in it than what you may read in the constellations of the heavens and the corresponding evolution of the human race. Aristotle made it a part of his philosophy. Hipparchus, Hippocrates, Thales, Galenius, and others subscribed an intelligent belief in its principles. To Claudius Ptolemy, however, we are indebted for the first concise and scientific statement of its principles and practice, so far as Europe is concerned. He wrote the *Tetrabiblos*, or *Four Books*, and laid the foundations of a true astrological science. Julius Firmicus confirmed Ptolemy and enlarged upon his observations. The subsequent discovery of the planets Uranus and Neptune by Herschel and Adams, widened the field of research and gave to later astrologers the clue to much that hitherto had been imperfectly understood. Not that these discoveries overturned the whole system of astrology, as some have imagined and foolishly stated, or that they negated the conclusions drawn from the observed effects of the seven anciently known bodies of the solar system, but it became possible after a lapse of time to fill in the blank spaces and to account for certain events which had not been traced to the action of any of the already known planets.

A Beginner's Guide to Practical Astrology Vivian E. Robson, 2010-07 Most introductory astrology books, such as this one, are content to teach you the ABC's of astrology: Planets, signs, houses, aspects, pretty much in that order. You're then congratulated that, by the time you reach the end of the book, you can look up the individual pieces and spit out canned interpretations, by rote. Vivian Robson (1890-1942, a man, by the way), expected better. Here is an example: Having found the significator of the matter concerned interpret all aspects to it as things and people affecting it. Suppose Jupiter were chief significator of money and afflicted by Saturn. We should judge that money matters would be hampered by poor conditions, depressing surroundings, ill-health, or whatever Saturn signified in that horoscope. In other words, we should give Jupiter the chief consideration as significator of the matter enquired into, and interpret the action of Saturn in its relation to Jupiter, and not vice-versa. On the other hand if Saturn were the significator we should judge that fits of generosity or extravagance would affect the finances, because Jupiter is expansive in its action, and its afflicting aspect would cause trouble and loss. This general judgment is then refined by taking into account the sign and house occupied by the aspecting planet, and the houses it rules. Thus, suppose with Saturn as significator that Jupiter threw an adverse aspect from the 5th

house. Then we should judge that the extravagance would arise from too much indulgence in pleasure, or from gambling, or other matters ruled by the 5th house. This would be modified by the sign containing Jupiter. A water sign would incline more to self-indulgence, a fiery one to gambling, a sign ruled by Venus to expenditure on women, and so on, thus enabling us to enlarge on the judgement obtained from the house position alone. We should next look to see what houses Jupiter ruled. If it ruled the 3rd we should judge expense and extravagance over journeys, relatives and other third house matters, and by blending the influences, that gambling losses (5th) would come through the advice of relatives (3rd) or some other appropriate blending. . . . This, however, is not the only way the influences would work. . . . There is method to be used, and it is one which needs considerable practice, but it is well-worth the trouble involved, and the student will himself be amazed to find how accurately the most trifling details may be predicted. As a word of advice to the beginner I would say - Do not be afraid to let yourself go in this way. You will make many mistakes to start with, but it is the only way to make your Astrology of practical use. There is too great a tendency nowadays to float about in a comfortable haze of so-called esotericism. The first need of Astrology is accuracy and definition, not pseudo-religious speculation, and it is only by concentrating on the practical and scientific side that we can really make Astrology of service, and obtain for it the recognition it deserves. (pgs. 110-113: go have a look) Someday a picture of the man will be found. Until then, read his books!

course of illness, analyzing general thoughts and plans, consecrating statues, and more.
