Learning Astrology Damian Sharp,2005-10-08 “[Sharp] elegantly casts a web of astrological knowledge . . . as he explains the nuances of each aspect that influences the individual horoscope.” —Library Journal “Astrology is both a science and an art. It is a symbolic representation of all of the elements—religious, spiritual, emotional, mental and physical, visible and invisible—that exist in the universe and come together in various and diverse combinations to account for individual human beings and the forces that shape and act upon them.” While there are numerous astrology books available, many are decades old and require you to wade through a morass of technical details just to get to the basics. In *Learning Astrology*, Damian Sharp provides a fun, fresh approach to understanding this ancient art, making it easily accessible to those who are completely new to the subject and/or put off by older, more complicated books. In clear, concise language and an easy-to-follow order, he provides insight into sun signs and planets, houses and aspects and shows us how to actually read an astrological chart, simply and accurately. And if you want the more technical details, Sharp provides those, too. By the end of the book, you’ll be discussing conjunctions, sextiles, squares, and trines like a pro. Learn astrology from Damian Sharp and become your own astrologer.

Astrology Mia Rose,2019-12-21 If you want to learn the pro tips and tricks from experts about Love, Careers & Personality Types and How to be successful in life then continue reading... The study of Astrology goes back thousands of years. Our ancient ancestors looked to the sky for many of their answers. Throughout most of its history, astrology was considered a scholarly tradition and was common in academic circles, often in close relation with astronomy, alchemy, meteorology, and medicine. But even now most common people don't have any clear idea that how this process works. Are you one of them? The keys to understanding astrology is by their groupings into elements, qualities, ruling planets and more. This book contains information on each of the traditional Western signs of the Zodiac. In a full new examination of the traditional Zodiac, this book looks at the popular interpretations of the signs and symbols it contains. Here Is a Preview of what you'll get inside the book... Zodiac Controversies Astrology In The Eyes Of Our Ancestors Astrological Charts And Their Significance Explanation Of Each Of The 12 Western Zodiac Signs Love And Relationship Profiles Of Each Zodiac Sign Personality And Compatibility Profiles Of Each Zodiac Sign Ideal Careers For the 12 Zodiac Signs Explore the symbolism, both ancient and modern, as it applies to each of the signs. And much much More! The book also places them in context with their ancient meanings. While some astrological signs are easy to interpret, others have deeper meanings and associations now overlooked in the modern world. It's a journey through the fascinating human traits that the Zodiac provides a reference for and, like all exciting journeys, may contain a few surprises. Also containing an introduction examining why the sky (and what was going on up there) was so important to our ancestors, this book takes a deeper look at how the influence of the stars can fashion those of us who live our lives in their shadows.
