Job analysis data, interviews, field observation, and expert judgments about the quality of measures formed the foundation for the Roadmap. The resulting Roadmap is composed of eight projects. Projects 1 and 2, Concurrent Criterion-Related Validation of Readily Available Predictor Measures Against on the Job Performance and Development and Implementation of Content Valid Job Sample Tests, supplement SF selection and classification with measures of leadership, temperament, and communication and analytic skills that could be implemented quickly. Computerised Test Generation for Cross-National Military Recruitment S.H. Irvine,2014-03-03 “‘Computerised Test Generation for Cross-National Military Recruitment’ by Prof. Sidney H. Irvine is a handbook for use in occupational psychology, test construction and psychometrics. The book describes the development of the British Army Recruitment Battery (BARB) by Prof. Irvine and his colleagues at the University of Plymouth. BARB is a computer-administered selection battery that is still in use to this day and is capable of developing new parallel tests for every candidate in the recruitment process. In telling the story, Sidney Irvine describes not only the development of the battery itself, funded by the UK Ministry of Defence, but all the work that went on before and afterwards, in the United Kingdom, with European allies and in the United States. _x000D_ Prof. Irvine argues that judicious application of the current state-of-the art in psychometric selection tests can be used to maximise retention and minimise attrition. As such, this long-awaited book will be of great interest to psychologists, psychometricians, test developers, those involved in personnel selection and all with an interest in military history, in particular the history of military science. With a foreword and chapter introductions from a worldwide array of subject matter experts, the book also has a full subject index and an extensive bibliography. I commend it heartily.” – Professor Jamie Hacker Hughes CPsychol CSci FBPSS, Former Defence Consultant Advisor in Psychology, Ministry of Defence, United Kingdom.
