**The Reception of Vatican II** Matthew L. Lamb, Matthew Levering, 2017-02-09 From 1962 to 1965, in perhaps the most important religious event of the twentieth century, the Second Vatican Council met to plot a course for the future of the Roman Catholic Church. After thousands of speeches, resolutions, and votes, the Council issued sixteen official documents on topics ranging from divine revelation to relations with non-Christians. But the meaning of the Second Vatican Council has been fiercely contested since before it was even over, and the years since its completion have seen a battle for the soul of the Church waged through the interpretation of Council documents. The Reception of Vatican II looks at the sixteen conciliar documents through the lens of those battles. Paying close attention to reforms and new developments, the essays in this volume show how the Council has been received and interpreted over the course of the more than fifty years since it concluded. The contributors to this volume represent various schools of thought but are united by a commitment to restoring the view that Vatican II should be interpreted and implemented in line with Church Tradition. The central problem facing Catholic theology today, these essays argue, is a

misreading of the Council that posits a sharp break with previous Church teaching. In order to combat this reductive way of interpreting the Council, these essays provide a thorough, instructive overview of the debates it inspired.

**NICOMACHEAN ETHICS** Aristotle, 2017-04-20 ♦ EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health,

that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.◆

**The Responsibility to Protect in International Law** Natalie Oman, 2019-12-06 This book tracks the development of the emerging international legal principle of a responsibility to protect over the past two decades. It contrasts the influential version of the principle introduced by the International Commission on Intervention and State Sovereignty in 2001 with subsequent interpretations of the responsibility to protect advocated by the United Nations through its human protection agenda, and reviews the dangers and inconsistencies inherent in both perspectives. The author demonstrates that the evolving responsibility to protect principle can be recruited to support a wide range of irreconcilable projects, from those of cosmopolitan constitutionalism to those of hegemonic international law. However, despite the dangers posed by this susceptibility to conceptual hijacking, Oman argues that the responsibility to protect, like human rights, is an essential a modern emancipatory formation. To remedy this dangerous malleability, the author advocates a third, distinctive interpretation of the responsibility to protect designed to limit its cooptation by liberal anti-pluralist and hegemonic international law agendas. Oman outlines the key features of such a minimalist conception, and explores its fit with the RtoP version of the responsibility to protect promoted in recent years by the UN. The author argues that two crucial features missing from the UN

reading of the principle should be developed in future: an acknowledgement of the role of non-state actors as bearers of the responsibility to protect, and a recognition of the principle's legal character. Both of these aspects of the principle offer means to democratize the international law-making enterprise.

**The Internet of Elsewhere** Cyrus Farivar, 2011-06-08 Through the lens of culture, *The Internet of Elsewhere* looks at the role of the Internet as a catalyst in transforming communications, politics, and economics. Cyrus Farivar explores the Internet's history and effects in four distinct and, to some, surprising societies—Iran, Estonia, South Korea, and Senegal. He profiles Web pioneers in these countries and, at the same time, surveys the environments in which they each work. After all, contends Farivar, despite California's great success in creating the Internet and spawning companies like Apple and Google, in some areas the United States is still years behind other nations. Surprised? You won't be for long as Farivar proves there are reasons that: Skype was invented in Estonia—the same country that developed a digital ID system and e-voting; Iran was the first country in the world to arrest a blogger, in 2003; South Korea is the most wired country on the planet, with faster and less expensive broadband than anywhere in the United States; Senegal may be one of sub-Saharan Africa's best chances for greater Internet access. *The Internet of Elsewhere* brings forth a new complex and modern understanding of how the Internet spreads globally, with both good and bad effects.

**The Joy of the Gospel** Pope Francis, 2014-10-07 The perfect gift! A specially priced, beautifully designed hardcover edition of *The Joy of the Gospel* with a foreword by Robert Barron and an afterword by James Martin, SJ. “The joy of the gospel fills the hearts and lives of all who encounter

Jesus... In this Exhortation I wish to encourage the Christian faithful to embark upon a new chapter of evangelization marked by this joy, while pointing out new paths for the Church's journey in years to come." – Pope Francis This special edition of Pope Francis's popular message of hope explores themes that are important for believers in the 21st century. Examining the many obstacles to faith and what can be done to overcome those hurdles, he emphasizes the importance of service to God and all his creation. Advocating for "the homeless, the addicted, refugees, indigenous peoples, the elderly who are increasingly isolated and abandoned," the Holy Father shows us how to respond to poverty and current economic challenges that affect us locally and globally. Ultimately, Pope Francis demonstrates how to develop a more personal relationship with Jesus Christ, "to recognize the traces of God's Spirit in events great and small." Profound in its insight, yet warm and accessible in its tone, The Joy of the Gospel is a call to action to live a life motivated by divine love and, in turn, to experience heaven on earth. Includes a foreword by Robert Barron, author of Catholicism: A Journey to the Heart of the Faith and James Martin, SJ, author of Jesus: A Pilgrimage
