VHS: Video Cover Art Thomas Hodge,2015 Video cover art is a unique and largely lost artform representing a period of unabashed creativity during the video rental boom of the 1980s to early 1990s. The art explodes with a succulent, indulgent blend of design, illustration, typography, and hilarious copywriting. Written and curated by Tom The Dude Designs Hodge, poster

artist extraordinaire and VHS obsessive, with a foreword by Mondo's Justin Ishmael, this collection contains over 240 full-scale, complete video sleeves in the genres of action, comedy, horror, kids, sci-fi, and thriller films. It's a world of mustached, muscled men, buxom beauties, big explosions, phallic guns, and nightmare-inducing monsters. From the sublime to the ridiculous, some are incredible works of art, some are insane, and some capture the tone of the films better than the films themselves. All are amazing and inspiring works of art that captivate the imagination. It's like stepping back in time into your local video store!

Montfort, Patsy Baudoin, John Bell, Ian Bogost, Jeremy Douglass, 2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of 10 PRINT, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.
