**News Around the World** Pamela J. Shoemaker, Akiba A. Cohen, 2012-12-06 What's news? A front-page news story in the United States might not appear in a newspaper in China. Or a minor story on German television may be all over the airwaves in India. But *News Around the World* shows that the underlying nature of news is much the same the world over and that people--no matter what their jobs or their status in society--tend to hold similar notions of newsworthiness. In this richly detailed study of international news, news makers and the audience, the authors have undertaken exhaustive original research within two cities--one major and one peripheral--in each of ten countries: Australia, Chile, China, Germany, India, Israel, Jordan, Russia, South Africa, and the United States. The nations were selected for study based on a central principle of maximizing variation in geographic locations, economic and political systems, languages, sizes, and cultures. The remarkable scope of the research makes this the most comprehensive analysis of newsworthiness around the globe: 10 countries studied, each with a university country director 2 cities in each country examined, one major and one peripheral 60 news media studied (newspapers, television, and radio news programs), resulting in 32,000+ news items analyzed 80 focus groups with journalists, public relations practitioners, and audience members 2,400 newspaper stories ranked according to newsworthiness and compared with how prominently they were published. *News Around the World* provides

remarkable insight into how and why news stories are reported, testing and improving a theory of cross-cultural newsworthiness and is essential reading for anyone seeking to understand international media and journalism.

*Greek Islands* Anne Midgette, 1999 Annotation. Fully colour-illustrated travel guides packed with information on the history and culture of a destination.

**Religious Liberty in Transitional Societies** John Anderson, 2003-08-14 It is commonly assumed that the issue of religion declines in political significance as societies modernise. However, the upheaval associated with the shift from authoritarian to more open regimes can be accompanied by a revitalisation of religion. Individuals within these societies are struggling to find meaning in the seeming chaos of political change; religious elites are seeking to define their own role within the new order; and political elites are looking for new ways of ensuring legitimacy and building national unity. In this book John Anderson constructs a theoretical framework where he compares and contrasts the politics of religious liberty in two Southern European countries, two Central-Eastern European countries and the evolution of the former USSR, particularly Russia. Exploring these issues of religious 'recognition' and religious diversity, Anderson attempts to expose the wider problem of creating a democratic mentality in such transitional societies, through extensive original research and interviews.

*Greece on the Couch* Mark Dragoumis, 2004 Mark Dragoumis, author of *The Greek Economy*, selects 32 enlightening pieces from *Analyse This*, his popular weekly column for the Athens News. With his characteristic wit, pathos and unsparing commentary, Dragoumis sits Greece on the couch to probe into its daily workings and unworkings. On

the road to healing the nation, he uncovers Greece's deep-seated idiosyncracies: why employers call in tips on the whereabouts of illegal immigrants only on Fridays; why Greeks covet civil service appointments and shun jobs in the private sector; why the old Pasok should be put out of its misery; and why the Virgin Mary is so popular.

**Global Perspectives on Human Migration, Asylum, and Security** Akrivopoulou, Christina M., 2017-11-30 Unstable social climates are causing the displacement of large numbers of people around the world. Thus, the issue of safe replacement arises causing the need for new policies and strategies regarding immigration. *Global Perspectives on Human Migration, Asylum, and Security* is a timely reference source for the latest research on the challenges, risks, and policies of current relocation and refugee flows, as well as address security problems in relation to these aspects of immigration. Featuring coverage on a wide variety of topics and perspectives such as terrorism, racism, and human rights, this publication is ideally designed for academicians, policy makers, researchers, and practitioners seeking current research on the current societal happenings of refugee integration around the world.

**Negotiating Democracy** Isaac A. Blankson, Patrick D. Murphy, 2008-06-05 Explores the relationship between media and democracy against the broader background of globalization.

*Immigrants and the Informal Economy in Southern Europe* Joaquin Arango, Martin Baldwin-Edwards, 2014-06-11 Illegal immigrants constitute a major issue in southern European countries. This book is the first piece of published research in this area and gives a comparative analysis of southern European immigration policies. Detailed accounts

of each country's pattern of informal immigrant employment are located within a broader setting of contemporary immigration controls.

**Statement of Disbursements of the House** United States. Congress. House, 1996  
Covers receipts and expenditures of appropriations and other funds.

**Analysing Fascist Discourse** Ruth Wodak, John E. Richardson, 2013 For the past 80 years, there has been disagreement about how to classify or define fascism. Through discourse analysis examples of fascism in Europe in the 20th century and through to today, this book reflects the range of these debates, and argues that a more context-sensitive approach is required.

*Audience Feedback in the News Media* Bill Reader, 2015-02-11 As long as there has been news media, there has been audience feedback. This book provides the first definitive history of the evolution of audience feedback, from the early newsbooks of the 16th century to the rough-and-tumble online forums of the modern age. In addition to tracing the historical development of audience feedback, the book considers how news media has changed its approach to accommodating audience participation, and explores how audience feedback can serve the needs of both individuals and collectives in democratic society. Reader writes from a position of authority, having worked as a letters to the editor editor and has written numerous research articles and professional essays on the topic over the past 15 years.

*REGINE - Regularisations in Europe* Martin Baldwin-Edwards, Albert Kraler, 2009  
REGINE is a research project on regularisation practices in the European Union. The aim of the project is to provide a thorough mapping of practices relating to the regularisation

of third country nationals illegally resident in EU Member States. Two additional non-EU countries - Switzerland and the US - will also be covered to gain insights in regularisation practices and the impact of regularisations elsewhere. In examining regularisation practices, the project also investigates the relationship of regularisation policies to the overall migration policy framework, including to protection issues and refugee policies. Moreover, the project examines the political position of different stakeholders towards regularisation policies on the national level. Finally, the project examines potential options for policies on regularisation on the European level, incorporating Member States as well as other stakeholders' views on possible instruments on the European level.

*The Meanings of Europe* Claudia Wiesner, Meike Schmidt-Gleim, 2014-01-03 What is Europe? What are the contents of the concept of Europe? And what defines European identity? Instead of only asking these classical questions, this volume also explores who asks these questions, and who is addressed with such questions. Who answers the questions, from which standpoints and for what reasons? Which philosophical, historical, religious or political traditions influence the answers? This book addresses its task in three parts. The first concentrates on the controversies around the meaning of Europe. The second focuses on the role of the European Union. The third discusses Europe and its relations to different types of otherness, or rather, non-European-ness. The volume produces a complex and plural picture of the concepts, ideas, debates and (ex)changes associated with the concept of Europe, and has a clear significance for today's debates on European identity, Europeanization, and the EU.

**Security, Insecurity and Migration in Europe** Gabriella Lazaridis, 2016-04-01

Having often been framed in terms of security concerns, migration issues have simultaneously given rise to issues of insecurity: on the one hand, security of borders, political, societal and economic security/insecurity in the host country; on the other, social, legal and economic concerns about human security, with regard to both EU citizens and migrants entering Europe. In terms of state security, migration is a core target of increasingly globally networked surveillance capabilities, whilst with respect to human security, it exposes the gap between the protections that migrants formally enjoy under international law and the realities they experience as they travel and work across different countries. Drawing on the latest research from across the EU, *Security, Insecurity and Migration* explores the concerns of states with regard to migration and the need to protect the fundamental rights of migrants. An interdisciplinary examination of the issues of security and insecurity raised by migration for states, their citizens and migrants themselves, this book will be of interest to scholars of politics, sociology and geography researching migration, race and ethnicity, human and state security and EU politics and policy.

Adoption, Memory, and Cold War Greece Gonda Van Steen, 2019-12-02 This book presents a committed quest to unravel and document the postwar adoption networks that placed more than 3,000 Greek children in the United States, in a movement accelerated by the aftermath of the Greek Civil War and by the new conditions of the global Cold War. Greek-to-American adoptions and, regrettably, also their transactions and transgressions, provided the blueprint for the first large-scale international adoptions, well before these became a mass phenomenon typically associated with Asian children. The story of these

Greek postwar and Cold War adoptions, whose procedures ranged from legal to highly irregular, has never been told or analyzed before. *Adoption, Memory, and Cold War Greece* answers the important questions: How did these adoptions from Greece happen? Was there any money involved? Humanitarian rescue or kid pro quo? Or both? With sympathy and perseverance, Gonda Van Steen has filled a decades-long gap in our understanding, and provided essential information to the hundreds of adoptees and their descendants whose lives are still affected today.

**Geo. P. Rowell and Co.'s American Newspaper Directory ,1877**

*The Persistent Objector Rule in International Law* James A. Green, 2016-03-03 The persistent objector rule is said to provide states with an 'escape hatch' from the otherwise universal binding force of customary international law. It provides that if a state persistently objects to a newly emerging norm of customary international law during the formation of that norm, then the objecting state is exempt from the norm once it crystallises into law. The conceptual role of the rule may be interpreted as straightforward: to preserve the fundamentalist positivist notion that any norm of international law can only bind a state that has consented to be bound by it. In reality, however, numerous unanswered questions exist about the way that it works in practice. Through focused analysis of state practice, this monograph provides a detailed understanding of how the rule emerged and operates, how it should be conceptualised, and what its implications are for the binding nature of customary international law. It argues that the persistent objector rule ultimately has an important role to play in the mixture of consent and consensus that underpins international law.
