Ohsawa,Shusaku Tsumoto,Ning Zhong,Yong Shi,Lorenzo Magnani,2008-08-17 This book collects selected papers by authors for CODATA 2006, which are relevant to the acquisition of knowledge and the assessment of risk and opportunity that comes from combining data from a number of different disciplines.

The Outsider Jonathan Wilson,2012-12-06 'Aloof, solitary, impassive, the crack goalie is followed in the streets by entranced small boys. He vies with the matador and the flying aces, an object of thrilled adulation. He is the lone eagle, the man of mystery, the last defender' Vladimir Nabokov
Albert Camus, Sir Arthur Conan Doyle, Yevgeny Yevtushenko, Pope John Paul II, Julian Barnes and not forgetting Nabokov himself ... it's safe to say the position of goalkeeper has over the years attracted a different sort of character than your average footballer. In this first-ever cultural history of the 'loner' between the posts, Jonathan Wilson traces the sometimes dangerous intellectual and literary preoccupations of the keeper, and looks at how the position has secured a certain existential cool. He travels to the Bassa region of Cameroon, which has produced two of Africa's greatest keepers, and also to Romania to talk to Helmuth Duckadam, who saved four penalties for Steaua Bucharest in the 1986 European Cup final. His absorbing tactical and technical insights into football history even take us back to the days when matches were contested without a man between the sticks. THE OUTSIDER is the definitive account of that most mysterious of footballing personalities - the goalkeeper.

Atlante dei gatti. Razze curiosità e avventure feline Jana Sedlackova,Helena Haratová,2022

Caccia alla volpe AA. VV.,2022-03-15T17:45:00+01:00 È qui raccolta una serie di nuovi studi dedicati al Rainaldo e Lesengrino, testo composto in Italia settentrionale tra il XIII e il XIV secolo, che rielabora in forme autonome la complessa materia del Roman de Renart francese ed è giunto a noi principalmente attraverso i manoscritti di Oxford (Bodleian Library, Canon. it. 48) e di Udine (Biblioteca Arcivescovile, 26). L'oggetto testuale è stato programmaticamente preso in esame attraverso l'ottica pluriprospettica di molte e diverse discipline (paleografia e codicologia, storia della miniatura, storia della lingua, linguistica, filologia), chiamate innanzitutto a discutere i problemi fondamentali della datazione e della localizzazione, con il fine di porre in intersezione e in dialettica i metodi e i risultati.

Praeneste tra archeologia ed epigrafia Marietta Horster,Maria Grazia Granino Cecere,2021-11-22

Praeneste, l'odierna Palestrina, nel Latium vetus ha una lunga storia di comunità indipendente risalente al tempo della Repubblica. In epoca imperiale e nella tarda antichità, la città rimase attraente e vivace: era ben collegata con altre città dell'impero Romano, e il santuario della Fortuna era assiduamente frequentato, come peraltro già lo era stato in epoca repubblicana. Gli oggetti e le iscrizioni presentati in questo volume, dagli specchi alle statue e ai sigilli, attestano tutti i periodi anzidetti. Concentrandosi, tra l'altro, sui siti di ritrovamento e sui gruppi di oggetti, questo volume è molto di più di un resoconto del lavoro preliminare sul previsto fascicolo Praeneste di CIL XIV e di studi puntuali sull'epigrafia di una città del Lazio. Il volume offre infatti un contributo importante e aggiornato alla ricerca archeologica e storica su Palestrina ed è corredato da un importante apparato illustrativo.

Reclaiming the Roman Capitol: Santa Maria in Aracoeli from the Altar of Augustus to the Franciscans, c. 500–1450 Claudia Bolgia, 2023-04-28 Prominently located on the Arx, the northern summit of the Capitoline hill, S. Maria in Aracoeli is the most significant medieval church of Rome to survive to the present day. Second major church of the Lesser Brothers or *fratres minores* in the Italian peninsula, and Roman headquarters of the Order, the Aracoeli played a vital role in the interaction between the Franciscans and the papacy, the friars and the laity, and the religious and civic authorities, as reflected in its art and architecture. On the basis of an interdisciplinary approach combining archaeological analysis with the finding of new archival evidence, reinterpretation of documents and literary and epigraphic sources, this book offers a reconstruction of the original church, its monuments and its Benedictine as well as eighth/ninth-century predecessors, which differs radically from earlier hypotheses. This reassessment in turn allows the author to revisit a number of major questions, including the Franciscans' physical and theoretical appropriation of the past, the adaptation of an ancient site by a 'modern' religious order, the use and functions of space, the interaction between friars, laity and artists, and the contribution of the Roman Franciscans to the development of Marian devotion, thus shedding new light on the social, political and religious history of late-medieval Italy and its impact beyond the peninsula, from England to Bohemia and the Holy Land.

Tortorella, 2016-05-02 Il volume raccoglie i contributi scientifici presentati nell'ambito della Giornata di Studi "Per un corpus dei pavimenti di Roma e del Lazio", svoltasi il 24 novembre 2014 nell'Odeion del Museo di Arte Classica della Facoltà di Lettere e Filosofia della Sapienza Università di Roma, allo scopo di rendere noti a studiosi e studenti i risultati dell'attività di catalogazione e studio di due unità, l'una dell'Università degli Studi di Padova, l'altra della Sapienza, operanti in stretta collaborazione con il MiBACT, l'AISCOM e diverse Istituzioni locali. L'obiettivo è la creazione di un corpus dei rivestimenti pavimentali di Roma e del Lazio: il workshop costituisce un primo bilancio della ricerca, nel corso del quale sono state messe a confronto esperienze diverse e riconsiderate complessivamente le prospettive di tale indagine.

The Cheeses of Italy: Science and Technology Marco Gobetti, Erasmo Neviani, Patrick

Fox, 2018-05-28 The book will contain a detailed description on the historical aspects of cheese manufacture, a culmination of historical information on the most traditional and worldwide popular Italian cheese varieties. An overview on cheese production is also included, covering the main general aspects. An overall classification of Italian cheeses will follow, aiming to categorize all the cheese varieties that have a tradition and/or an economic importance. Based on a large literature review, the core of the book will include descriptions cheese making traits which are unique to Italian cheese biotechnology. In particular, the milk chemical composition, the use whey or milk natural starters, some technology options (e.g., curd cooking), the microbiota composition and metabolism during curd ripening, especially for cheese made with raw milk, and the main relevant biochemical events, which occur during the very long-time ripening, will be described. The last part of the book will consider a detailed description of the biotechnology for the manufacture of the most traditional and popular cheeses worldwide.

Historical Atlases Walter Goffart, 2003-07-15 Today we can walk into any well-stocked bookstore or library and find an array of historical atlases. The first thorough review of the source material, *Historical Atlases* traces how these collections of maps for history—maps whose sole purpose was to illustrate some historical moment or scene—came into being. Beginning in the sixteenth century, and continuing down to the late nineteenth, Walter Goffart discusses milestones in the origins of historical atlases as well as individual maps illustrating historical events in alternating, paired chapters. He focuses on maps of the medieval period because the development of maps for history hinged particularly on portrayals of this segment of the postclassical, modern past. Goffart concludes the book with a detailed catalogue of more than 700 historical maps and atlases produced from 1570 to

1870. Historical Atlases will immediately take its place as the single most important reference on its subject. Historians of cartography, medievalists, and anyone seriously interested in the role of maps in portraying history will find it invaluable.
