J., Heidi Chumley, Gary Ferenchick, Mindy Ann Smith,2015-01-12 2,000 illustrations enable fast and accurate visual diagnosis of more than 200 internal medicine conditions 5-STAR DOODY’S REVIEW! ”The Color Atlas of Internal Medicine is in the same vein as The Color Atlas of Family Medicine, by many of the same authors, which was published in 2009 and updated in 2013. In my review of the 2009 version, I noted, ‘This is what a modern textbook should be. It is concise yet comprehensive in the breadth of topics and, as the title suggests, robust with color photographs of extraordinarily good quality.’ That statement stands for this book as well -- this is what a modern textbook should be. Reiterating my thoughts from 2009, ‘By far, this is one of the best, most useful textbooks I have seen in a very long time. It is a must for the library of every primary care physician. --5 Stars--Doody’s Review Service This beautiful full-color resource delivers everything practicing internists want and need in an atlas. The book features a strong visual approach, the use of introductory cases in all chapters, complete patient management guidance through concise synoptic text, and the inclusion of evidence grades for diagnosis and treatment recommendations. The Color Atlas of Internal Medicine utilizes a consistent chapter organization that includes: Patient Story Epidemiology Etiology/Pathophysiology Diagnosis Differential Diagnosis Management Prognosis Follow Up Patient Education The Color Atlas of Internal Medicine is enhanced by an unsurpassed collection of more than 2,000 high-quality clinical, morphologic, laboratory, and radiological images that represent the signs of the disorders you will most often encounter in everyday practice.

- 📖 **MAKE TIME** Jake Knapp, John Zeratsky,2018-09-25 From the New York Times bestselling authors of Sprint comes “a unique and engaging read about a proven habit framework [that] readers can apply to each day” (Insider, Best Books to Form New Habits). “If you want to achieve more (without going nuts), read this book.”—Charles Duhigg, author of The Power of Habit Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I’ll spend hours on Facebook! Yet that’s exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people’s priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn’t mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That’s what this book is about. As creators of Google Ventures’ renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they’ve packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn’t about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn’t about radically overhauling your lifestyle; it’s about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.
