Art Information and the Internet Lois Swan
Jones, 2013-12-16 In the first book of its kind,
art information expert Lois Swan Jones discusses
how to locate visual and textual information on
the Internet and how to evaluate and supplement
that information with material from other formats-
-print sources, CD-ROMS, documentary videos, and
microfiche sets--to produce excellent research
results. The book is divided into three sections:
Basic Information Formats; Types of Websites and
How to Find Them; and How to Use Web Information.
Jones discusses the strengths and limitations of
Websites; scholarly and basic information
resources are noted; and search strategies for
finding pertinent Websites are included. *Art
Information and the Internet* also discusses
research methodology for studying art-historical
styles, artists working in various media,
individual works of art, and non-Western cultures-
-as well as art education, writing about art,
problems of copyright, and issues concerning the
buying and selling of art. This title will be
periodically updated.

Someone Has to Die for This Derek
Molyneux, Darren Kelly, 2021-06-11 Hot on the heels
of *Killing at its Very Extreme*, Dublin: October
1917 – November 1920, *Someone Has to Die for This*,
Dublin: November 1920 – July 1921 wrenches the
reader into the final frenetic months of Dublin's

War of Independence, in uncompromising, unflinching, and unprecedented detail. The reader will follow in the footsteps of IRA assassination units on Bloody Sunday, witness the hellish conditions in Croke Park, taste the gripping tension that stalked the city as intelligence services battled it out over the winter, while equally clandestine peace feelers were set in play. The pressure ratchets up in 1921 as surging IRA Active Service Units take the fight to the Auxiliaries, police and military in Dublin. Swathes of the country erupt into violent attacks and barbarous reprisals. Killings escalate in daily ambushes. Prison escapes are vividly detailed, as are the Mountjoy hangings. Shuttle diplomacy intensifies as a settlement is desperately sought, but fault lines develop among the Republican leadership. Street-battles paralyse the city with civilians bearing a brutal burden; the IRA relentlessly presses on. The devastating Custom House attack precedes the war's ferocious final weeks, culminating in a near bloodbath that almost scuppered the truce. Experience these breathtaking events through the eyes of their participants. This is an unforgettable story, its style providing long-overdue justice.

Scania 112 and 142: at Work Patrick W. Dyer, 2014-05-16 In the eight years from 1980 when Scania introduced the 2-series trucks covered in Patrick Dyer's new book, they produced no less than 135,311 units. For much of that time the 142 held the title of the most powerful production truck in Europe. Why was this range so successful? One reason was that the Scania's advanced modular manufacturing system allowed it to cover weight categories from 16 to 174 tons without any special types. Operators could specify exactly the right truck for their needs and Scania's production and efficiency were streamlined. Scania got both the engineering and design just right, matching improved versions of their tried and tested running gear with new frames and a modern, class-leading cab designed by Italian stylist, Giorgetto Giugiaro. *Scania 112 and 142 at Work* is Patrick Dyer's seventh book in the series. Once more he has been able to draw on two hundred fine photographs, some from Scania's own archive, as well as working shots by truck enthusiasts.

Our War Too Margaret Paton-Walsh, 2002 In the late 1930s, a number of American women—especially those allied with various peace and isolationist groups—protested against the nation's entry into World War II. While their story is fairly well known, Margaret Paton-Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary. Paton-Walsh recounts how the United States became involved in the war, but does so through the eyes of American women who faced it as a necessary evil. Covering the period between 1935 and 1941, she examines how these women functioned as political actors—even though they were excluded from positions of power—through activism in women's organizations, informal women's networks, and even male-dominated lobbying groups. In the Great Debate over whether America should enter the war, some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U.S. involvement—but also because they believed war was preferable to a Nazi victory. Paton-Walsh shows that this activism involved some of the most prominent women of their day. Elizabeth Cutter Morrow—whose son-in-law, Charles Lindbergh, was an isolationist spokesman—supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast. Soon other women joined this debate: Esther Brunauer of the AAUW, journalist Dorothy Thompson, and organizations like the League of

Women Voters and National Women's Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause. Focusing on the conflict in Europe, Paton-Walsh shows how these women grasped the implications of the Lend-Lease program for America's entry into the war but supported it nevertheless. By late 1941, the Women's Division of the Fight for Freedom Committee had been established; no longer merely advocating aid to Britain to keep American boys out of battle, this organization supported direct American involvement in the war as a means of stopping Nazi oppression. While most historians have focused on women's pacifism, Paton-Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs. *Our War Too* is a story of American women trying to reconcile the irreconcilable, to preserve both their principles and their peace. It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build-up to the war.

African American Culture and Legal Discourse R. Schur,2009-12-07 This work examines the experiences of African Americans under the law and how African American culture has fostered a rich tradition of legal criticism. Moving between novels, music, and visual culture, the essays present race as a significant factor within legal

discourse. Essays examine rights and sovereignty, violence and the law, and cultural ownership through the lens of African American culture. The volume argues that law must understand the effects of particular decisions and doctrines on African American life and culture and explores the ways in which African American cultural production has been largely centered on a critique of law.
