Managing Command and Control in the Persian Gulf War Thomas C. Hone,Mark D. Mandeles,Sanford S. Terry,1996-09-24

During Desert Shield, the Air Force built a very complicated organizational architecture to control large numbers of air sorties. During the air campaign itself, officers at each level of the Central Command Air Forces believed they were managing the chaos of war. Yet, when the activities of the many significant participants are pieced together, it appears that neither the planners nor Lt. Gen. Charles A. Horner, the Joint Force Air Component Commander, knew the details of what was happening in the air campaign or how well the campaign was going. There was little appreciation of the implications of complex organizational architectures for military command and control. Against a smarter and more aggressive foe, the system may well have failed.

Crossing the Stream Elizabeth-Irene Baitie,2021-06-08 A powerful coming-of-age story of self-discovery and overcoming fear.”–Kirkus Reviews, starred review Ato hasn’t visited his grandmother’s house since he was seven. He’s heard the rumors that she’s a witch, and his mother has told him he must never sit on the old couch on her porch. Now here he is, on that exact couch, with a strange-looking drink his grandmother has given him, wondering if the rumors are true. What’s more, there’s a freshly dug hole in her yard that Ato suspects may be a grave meant for him. Meanwhile at school, Ato and his friends have entered a competition to win entry to Nnoma, the island bird sanctuary that Ato’s father helped created. But something is poisoning the community garden where their project is housed, and Ato sets out to track down the culprit. In doing so, he brings his estranged mother and grandmother back together, and begins healing the wounds left on the family by his father’s death years before. And that hole in the yard? It is a grave, but not for the purpose Ato feared, and its use brings a tender, celebratory ending to this deeply felt and universal story of healing and love from one of Ghana’s most admired children’s book authors.

Tragedy and Postcolonial Literature Ato Quayson,2021-01-21 This book examines tragedy and tragic philosophy from the Greeks through Shakespeare to the present day. It explores key themes in the links between suffering and ethics through postcolonial literature. Ato Quayson reconceives how we think of World literature under the singular and fertile rubric of tragedy. He draws from many key works – Oedipus Rex, Philoctetes, Medea, Hamlet, Macbeth, and King Lear – to establish the main contours of tragedy. Quayson uses Shakespeare's Othello, Chinua Achebe, Wole Soyinka, Tayeb Salih, Arundhati Roy, Toni Morrison, Samuel Beckett and J.M. Coetzee to qualify and expand the purview and terms by which Western tragedy has long been understood. Drawing on key texts such as The Poetics and The Nicomachean Ethics, and augmenting them with Frantz Fanon and the Akan concept of musuo (taboo), Quayson formulates a supple, insightful new theory of ethical choice and the impediments against it. This is a major book from a leading critic in literary studies.

Aesthetic Nervousness Ato Quayson, 2007-06-29 Focusing primarily on the work of Samuel Beckett, Toni Morrison, Wole Soyinka, and J. M. Coetzee, Ato Quayson launches a thoroughly cross-cultural, interdisciplinary study of the representation of physical disability. Quayson suggests that the subliminal unease and moral panic invoked by the disabled is refracted within the structures of literature and literary discourse itself, a crisis he terms aesthetic nervousness. The disabled reminds the able-bodied that the body is provisional and temporary and that normality is wrapped up in certain social frameworks. Quayson expands his argument by turning to Greek and Yoruba writings, African American and postcolonial literature, depictions of deformed characters in early modern England and the plays of Shakespeare, and children's films, among other texts. He considers how disability affects interpersonal relationships and forces the character and the reader to take an ethical standpoint, much like representations of violence, pain, and the sacred. The disabled are also used to represent social suffering, inadvertently obscuring their true hardships.
