La vérité sur le secteur de l'optique en France Marc GUYOT, 2015-05-27

Malgré l'objectif affiché du gouvernement de réduire le déficit des comptes de la Sécurité Sociale en 2014 et de conduire celle-ci à l'équilibre en 2017, les déficits s'aggravent. Ils passeraient à 14,7 milliards en 2015 dont 10,5 milliards pour la seule branche maladie avec une hausse des dépenses de santé de 3,2 milliards. Dans ce cadre d'augmentation des dépenses de santé, l'optique, comme l'ensemble des secteurs liés à la santé, se caractérise, lui aussi, par une tendance à la hausse des dépenses avec une augmentation moyenne annuelle de +3,9% entre 2008 et 2012. Par ailleurs, en matière d'optique se pose la double question de l'accès de certaines catégories de personnes aux soins et des remboursements de soins. Bien que ne représentant que 3% du total de la consommation médicale en 2013, soit 5,74 milliards d'euros sur une masse de 190,25 milliards d'euros, l'importance de la part prise en charge dans les dépenses d'optique par les organismes complémentaires, tout comme l'extension de la complémentaire santé décidée par le gouvernement, ont amené celui-ci à décider de changer drastiquement les règles du jeu du secteur.

Slow shopping thérapie Valérie Halfon, 2017-04-19 Miroir de notre personnalité, notre manière de dépenser est révélatrice de nos goûts, de nos envies, mais aussi de nos blessures et de nos peurs. Y réfléchir nous offre un éclairage sur nous-même et peut constituer une véritable « thérapie ». Valérie Halfon nous invite à nous interroger afin de : prendre conscience de nos besoins réels et de nos dysfonctionnements ; consommer autrement et assainir nos finances ; nous recentrer sur l'essentiel et gagner en liberté. Loin d'une méthode privative classique, son approche inédite, créative et structurante -illustrée par de nombreux exemples tirés de son expérience de coach - permet à chacun de reprendre le contrôle de sa vie et d'aller jusqu'au bout de ses désirs. Elle s'adresse aux novices comme aux connaisseurs qui y découvriront les bénéfices matériels et spirituels d'une gestion éclairée du budget.

Le marketing Eric Vernet, 2016-12-01 Pédagogique pour les étudiants, opérationnel pour les managers, l'ouvrage apporte les clés pour comprendre et mettre en pratique le marketing actuel : communautés et médias sociaux online, bouche-à-oreille et conversations online, big data, stratégie de co-création, KPI digitaux, e- et m-commerce, e-leader d'opinion, stratégie de marketing viral, earn-paid-own media, référencement naturel et payant, enchères, flash et QR code, beacon, stratégie multi-omni-cross canal, etc. Trois objectifs sont privilégiés et organisés de manière séquentielle : maîtriser l'essentiel du marketing, puis progresser en assimilant les techniques de base, acquérir enfin une réelle expertise sur les questions clés actuelles du marketing. Pour cela, quatre principes ont été retenus :

proposer d'emblée une synthèse des éléments clés, puis approfondir chaque point dans un chapitre distinct ; privilégier la compréhension des comportements du consommateur, en s'appuyant sur les résultats les plus solides des recherches académiques ; donner une vision stratégique du marketing, sans négliger pour autant les aspects techniques et les applications concrètes ; s'appuyer sur des exemples réels développés dans de nombreux Focus Manager, traiter les aspects techniques dans des fiches dédiées et proposer un test de connaissance au terme de chaque chapitre.

Globalization Lui Hebron,John F. Stack Jr.,2016-09-22 Now in a fully revised and updated edition, this balanced and clearly written text explores globalization and its impact from economic, political, social, environmental, and cultural perspectives. Providing a framework and platform for student learning, the book gives readers the tools to unravel the complexities of globalization in all its facets. Lui Hebron and John Stack note that as a hot-button term, globalization is used to describe any number of changes within, among, and between societies and states. Their goal is to reduce the noise engulfing debates and interpretations of one of the most dynamic, contested, applauded, and disparaged phenomena of the twenty-first century. Arguing that current assessments—both positive and negative—of globalization are overblown, the authors treat the dramatically changing landscapes of world politics as less a revolution than an evolution of already established structures and patterns of transnational relations. They trace how globalization has affected individuals, societies, states, and intergovernmental and supranational organizations. Making sense of a world seemingly smaller and incomprehensibly larger, simultaneously centralizing and fragmenting, *Globalization: Debunking the Myths* offers both an indispensable introduction for undergraduates and a concise review for more advanced students.

Entrepreneurship in the Region Michael Fritsch,Jürgen Schmude,2007-10-23 *Entrepreneurship in the Region* approaches many different aspects of entrepreneurship from a regional perspective. The regional influences on entrepreneurship analyzed entail regional peculiarities and disparities in new business formation processes, the success and the employment effects of new firms, the importance of social capital and of network structures as well as entrepreneurship education and training provided in the regions. The articles in this book provide strong evidence for the importance of regional factors that shape entrepreneurship and new firm formation processes. It is shown that regional differences of start-up rates and entrepreneurial attitudes are not at all elusive but tend to be rather persistent and prevail over longer periods of time. The evidence clearly suggests that the regional level can be an appropriate starting point for entrepreneurship policy and that research on the issue may considerably benefit from properly accounting for the spatial dimension.

The New Woman's Survival Catalog Kirsten Grimstad,Susan Rennie,2019-11-19 At once practical and creative, this book was feminism's Whole Earth Catalog

Originally published in 1973, *The New Woman's Survival Catalog* is a seminal survey of the second-wave feminist effort across the US. Edited by Kirsten Grimstad and Susan Rennie in just five months, *The New Woman's Survival Catalog* makes a nod to Stewart Brand's influential *Whole Earth Catalog*, mapping a vast network of feminist alternative cultural activity in the 1970s. Grimstad and Rennie set out on a two-month road trip in the summer of 1973, meeting and interviewing a range of organizations and individuals, and gathering vital information on everything from arts groups to bookstores and independent presses, health, parenting and rape crisis centers and educational, legal and financial resources. These projects express a rejection of the values of existing institutional structures, Grimstad and Rennie wrote, and, unlike the hip male counterculture, represent an active attempt to reshape culture through changing values and consciousness. Arranged in themed sections on art, communications, work and money, child care, self-help, self-defense and activism, *The New Woman's Survival Catalog* provides crucial insight into feminist initiatives and activism nationwide during the Women's Movement. It includes a Making the Book section that details the publication's production. Kirsten Grimstad and Susan Rennie are the coeditors of *The New Woman's Survival Catalog* and *The New Woman's Survival Sourcebook* (1975). They went on to cofound *Chrysalis: A Magazine of Women's Culture*, published out of the Woman's Building in downtown Los Angeles from 1977 to 1981. Grimstad is currently Co-Chair of Undergraduate Studies at Antioch University, Los Angeles; she is the author of *The Modern Revival of Gnosticism and Thomas Mann's Doktor Faustus* (2002). Rennie taught social sciences at Union Institute & University in Cincinnati, worked as a women's health activist and now lives in Venice, California.
