Rhodos Reiseführer Michael Müller Verlag Hans-Peter Siebenhaar,2023-07-28 Anders reisen und dabei das Besondere entdecken: Mit den aktuellen Tipps aus den Michael-Müller-Reiseführern gestalten Sie Ihre Reise individuell, nachhaltig und sicher. Rhodos, der Klassiker unter den Reisezielen Griechenlands, zählt stolze 300 Sonnentage im Jahr. Kein Wunder, dass die Hauptinsel des Dodekanes, die schon in der Antike zu den Traumzielen im Mittelmeer gehörte, im letzten Jahrhundert nach und nach vom modernen Massentourismus erschlossen worden ist. Trotzdem glänzt Rhodos auch weiterhin mit märchenhaften Stränden, abgeschiedenen Buchten und einsamen Bergwäldern, in denen es sich herrlich wandern lässt. Rhodos präsentiert sich aber auch als lebendiges Geschichtsbuch: Die vielfältigen historischen Hinterlassenschaften lenken den Blick auf die griechische Antike, die Epoche der Kreuzritter und die Zeit der türkischen und italienischen Besetzung. Hans-Peter Siebenhaar, der Rhodos seit zwei Jahrzehnten bereist, lädt ein zu einer Entdeckungsreise auch abseits touristischer Standardrouten, beleuchtet Hintergründe und führt die Freunde der mediterranen Küche in urige Fisch tavernen, in edle Feinschmeckerrestaurants und zu ambitionierten Weingütern. Abgeschmeckt wird das Reisemenü mit einer gehörigen Portion reisepraktischer Infos und Vorschlägen zu Wandertouren.

Ithaca Forever Luigi Malerba,2021-02-23 After twenty years, Odysseus finally returns to Ithaca, but instead of receiving the homecoming he had hoped for finds himself caught in an intense battle of wills with his faithful and long-suffering wife Penelope. When Penelope recognizes him under the guise of a beggar, she becomes furious with him for not trusting her enough to include her in his plans for ridding the palace of the Suitors. As a result, she plays her own game of fictions to make him suffer for this lack of faith, inspiring jealousy, self-doubt, and misgivings in her husband, the legendary Homeric hero. In this captivating retelling of the Odyssey, Penelope rises as a major force with whom to be reckoned. Shifting between first-person reflections, Ithaca Forever reveals the deeply personal and powerful perspectives of both wife and husband as they struggle for respect and supremacy within a marriage that has been on hold for twenty years. Translated by PEN award-winner Douglas Grant Heise, Luigi Malerba's novel gives us a remarkable version of this greatest work of western literature: Odysseus as a man full of doubts and Penelope as a woman of great depth and strength.

Contested Ethnicities and Images David L. Balch,2015-04-28 Ethnic values changed as Imperial Rome expanded, challenging ethnocentric values in Rome itself, as well as in Greece and Judea. Rhetorically, Roman, Greek, and Judean writers who eulogized their cities all claimed they would receive foreigners. Further, Greco-Roman narratives of urban tensions between rich and poor, proud and humble, promoted reconciliation and fellowship between social classes. Luke wrote Acts in this ethnic, economic, political context, narrating Jesus as a founder who changed laws to encourage receiving foreigners, which promoted civic, missionary growth and legitimated interests of the poor and humble. David L. Balch relates Roman art to early Christianity and introduces famous, pre-Roman Corinthian artists. He shows women visually represented as priests, compares Dionysian and Corinthian charismatic speech and argues that larger assemblies of the earliest, Pauline believers "sat" (1 Cor 14.30) in taverns. Also, the author demonstrates that the image of a pregnant woman in Revelation 12 subverts imperial claims to the divine origin of the emperor, before finally suggesting that visual representations by Roman domestic artists of "a category of women who upset expected forms of conduct" (Bergmann) encouraged early Christian women like Thecla, Perpetua and Felicitas to move beyond gender stereotypes of being victims. Balch concludes with two book reviews, one of Nicolas Wiaters book on the Greek biographer and historian Dionysius, who was a model for both Josephus and Luke-Acts, the second of a book by Frederick Brenk on Hellenistic philosophy and mystery religion in relation to earliest Christianity.--

My Mother's Sons Patrick Krayner,2013-09-09 My Mother's Sons provides a thoughtful model for how Western Christian workers can respectfully negotiate sexual boundaries and norms in Muslim contexts. Westerners are inclined to impose their own culturally shaped notions of gender equality and justice on non-egalitarian communities, alienating the very people they are seeking to serve. The author draws on his own research among Pakistani Pashtuns, intercultural theory, and exegesis of Christian and Islamic sacred texts to show that it is possible to work for transformational change without offending those who live within a patriarchal system.

Time-saver Standards for Building Types Joseph De Chiara,2001 Covers structures and places as diverse as residences, museums, libraries, and theaters, hospitals and nursing homes, churches, air and truck terminals, retail shops, restaurants, hotels, industrial parks, playgrounds, and arenas. This is a worthy competitor to Architectural graphic standards. It is illustrated with hundreds of plans, diagrams, tables, and schematics which help in the design of more functional, meaningful, and interesting buildings. De Chiara and Callender provide detailed information on the essential components of each building type, emphasizing the characteristic functions involved. This edition offers new information on facilities for such purposes as education, justice and correction, entertainment, health, and sports and recreation. The book features special sections on housing for the elderly and the handicapped, including access for the handicapped to public and government buildings.

All the King's Horses Indra Kagis McEwen,2023-04-11 How the Italian Renaissance reinvented the power of princes by rediscovering Vitruvius and his architecture—and justified their right to rule. In Vitruvius: Writing the Body of Architecture, Indra Kagis McEwen argued that Vitruvius's

first-century BC treatise De architectura was informed by imperial ideology, giving architecture a role in the imperial Roman project of world rule. In her sequel, All the King’s Horses, McEwen focuses on the early Renaissance reception of Vitruvius’s thought beginning with Petrarch—a political reception preoccupied with legitimating existing power structures. During this “age of princes” various signori took over Italian towns and cities, displacing independent communes and their avowed ideal of the common good. In turn, architects, taking up Vitruvius’s mantle, designed for these princes with the intent of making their power manifest—and celebrating “the rule of one.” Through meticulous descriptions of the work of architects and artists from Leon Battista Alberti to Leonardo, McEwen explains how architecture became an instrument of control in the early Italian Renaissance. She shows how architectural magnificence supported claims to power, a phenomenon best displayed in one of the era’s most prominent monumental themes: the equestrian statue of a prince, in which the horse became an emanation of the will of the rider, its strength the expression of his strength.

Architectural, Construction, Environmental and Digital Technologies for Future Cities Natalia Potienko,Elena Ahmedova,Antonina Karlina,Vladimir Faerman,2022-04-27 This book offers an overview of Russian and international experience in developing the concept of future cities and its practical implementation. The concept of future cities is associated with several important trends. The first trend is the sustainable development of the urban environment and the implementation of eco-friendly technologies and materials in civil construction, industrial and power plants. The harmonious coexistence of the citizens with all forms of nature in the urban habitat becomes a great value. The second trend is the individualization of the aesthetical and architectural image of the future cities. The city's unique flavor based on the blending of the historical legacy and architectural traditions is now as important as the utility of the environment. The third trend is the digitalization of the urban environment with the use of state-of-the-art sensors, information and communication technologies, and data science. The efficiency of operations and services achieved by the extensive use of complex IoT networks becomes a value as well. The last trend is the adaptation of the urban and social environment for individual demands of a community and a person. Individual comfort and safety are now more important than ever before. By addressing these trends, the volume discusses local and international plans, practices, and technologies aimed at the development and implementation of future cities.

Negotiated Settlements Steven A Wernke,2013-02-24 This multidisciplinary--indeed, transdisciplinary--combination of archaeological, historical, and ethnographic research reveals how the Andean people of southern Peru's Colca Valley experienced and responded to successive waves of colonial rule by the Inka and Spanish empires from the fifteenth through seventeenth centuries. While most research splits the prehispanic and post-conquest eras into separate domains of study, Steven Wernke's perspective explicitly combines archaeological and documentary sources to bridge the Spanish conquest of the Andes. He integrates GIS-based spatial analyses of documentary sources with archaeological survey and the only excavations of an early Spanish doctrinal settlement in the highland Andes to present a local perspective on how new communities and landscapes emerged as part of a continuous process of adapting to consecutive imperial occupations. Wernke's findings show how Spanish ideals of urban order penetrated this rural provincial setting as early as the first generation after the conquest, as well as the ways the integration of Spanish ideals depended on their resonance with prehispanic Andean precedents. Through integration of empirical research and social theory, this volume contributes to current debates on colonial and postcolonial theory, historical anthropology, and the growing field of colonial archaeology. At ease whether examining religious practice at early Franciscan mission settlements or reconstructing prehispanic Andean land use, Wernke argues that we should avoid thinking of relations within the Inka and Spanish states as a dichotomy between colonizers and colonized; instead he traces how new kinds of communities and landscapes were co-produced at the local scale.
