Effectiveness and Satisfaction in Antenatal Care M.

Enkin,I. Chalmers,1982-04-22 The potential contribution of antenatal care to health is enormous. However, if this potential is to be fully realised the content and organisation of that care must be more imaginatively conceived and realised and must take into account the uncomfortable paradox that antenatal care is a mixture of science and magic. This book faces that paradox, asking: 'what in antenatal care has been shown by proper scientific method to work?'; 'what is questionable dogma?'; 'what is magic?'; 'what should be done now?'. This volume is intended not only for those professionals giving the care and for the potential mothers receiving it, but also for all those who influence decisions concerning the future of antenatal care, such as

politicians, researchers and the public in general.

Chasing the Gator Isaac Toups,Jennifer V. Cole,2018-10-23 A badass modern Cajun cookbook from Top Chef fan favorite Isaac Toups and acclaimed journalist Jennifer V. Cole, featuring 100 full-flavor stories and recipes. Things get a little salty down in the bayou... Cajun country is the last bastion of true American regional cooking, and no one knows it better than Isaac Toups. Now the chef of the acclaimed Toups' Meatery and Toups South in New Orleans, he grew up deep in the Atchafalaya Basin of Louisiana, where his ancestors settled 300 years ago. There, hunting and fishing trips provide the ingredients for communal gatherings, and these shrimp and crawfish boils, whole-hog boucheries, fish fries, and backyard cookouts -- form the backbone of this book. Taking readers from the backcountry to the bayou, Toups shows how to make: A damn fine gumbo, boudin, dirty rice, crabcakes, and cochon de lait His signature double-cut pork chop and the Toups Burger And more authentic Cajun specialties like Hopper Stew and Louisiana Ditch Chicken. Along the way, he tells you how to engineer an on-the-fly barbecue pit, stir up a dark roux in only 15 minutes, and apply Cajun ingenuity to just about everything. Full of salty stories, a few tall tales, and more than 100 recipes that double down on flavor, Chasing the Gator shows how -- and what it means -- to cook Cajun food today.

The Emergence of Noopolitik John Arquilla,David

Ronfeldt,Dionne Barnes-Proby,Elizabeth Williams,John Christian,1999-04-15 Strategy, at its best, knits together ends and means, no matter how various and disparate, into a cohesive pattern. In the case of a U.S. information strategy, this requires balancing the need to guard and secure access to many informational capabilities and resources, with the opportunity to achieve national aims by fostering as much openness as practicable. The authors' term to represent such strategic balancing is guarded openness. They go on to describe noopolitik (nu-oh-poh-li-teek)--an emerging form of statecraft that emphasizes the importance of sharing ideas and values globally, principally through the exercise of persuasive soft power rather than traditional military hard power. This study discusses the opportunities that may be raised by the emergence of noopolitik--ranging from construction of a noosphere (a globe-spanning realm of the mind) to recommendations that, for example, the U.S. military should begin to develop its own noosphere (among and between the services, as well as with U.S. allies). In the area of international cooperation, the authors offer strategic approaches for improving the capacity of state and nonstate actors to work together to address transnational problems. In addition, the authors recommend specific doctrinal developments, implied by the emergence of information strategy--including the pressing need to deal with such ethical concerns as the first use of information weapons, concepts of proportional response, and the need to maintain the immunity of noncombatants. Ultimately, the authors call for an innovative turn of mind as policymakers and strategists rethink how best to adapt to the epochal transformations being wrought by the information revolution.
