**When UFOs Attack – Documented Cases of Hostile Alien Encounters** Chet Dembeck, 2020-06-27 If there is one misguided theme I have heard repeated many times in and outside of the UFO community, it is the notion that UFOs and extraterrestrials are our benevolent technological and spiritual superiors, who are only trying to watch over us and gently guide human kind from a path of nuclear, biological and ecological self-destruction to an interstellar highway of spiritual enlightenment and prosperity. This mantra has been repeated ad nauseum ever since the first UFO was sighted and close encounter was experienced. Yet, there is much documented evidence that these aliens, extraterrestrials or inter-dimensional interlopers may not always be benevolent. On the contrary, there is much more proof that these uninvited guests, who boldly penetrate our airspace, have at times kidnapped, injured and killed innocent humans and animals. Thankfully, this wasn't the case in the latest, solidly documented close-encounter case recorded in a recently released Pentagon UFO study. The usually mum Department of Defense almost appeared eager to report the Nov. 14, 2004 UFO incident, experienced by former Navy pilot David Fravor, who repeated a familiar story to all of us who have studied the history of Ufology the last 70 years. While flying a routine mission off an aircraft carrier he and other pilots spotted a UFO that made incredibly sharp turns and reached speeds impossible for aircraft using Earth's technology. As he watched this mystery craft zip away at an extremely high speed, he came to the same conclusion many of his fellow, military pilots have come to: It was not of this world, Fravor told various news organizations. He added that no human could have possibly withstood the G force of such a tremendous thrust of sudden acceleration. In this concise report, I will present to you documented evidence of a pilot unlike Fravor, who suffered harm in such a mysterious encounter. Such incidents are vastly under reported. For example, until I really started researching this subject, I never realized that a U.S. Army pilot became the first known casualty as a result of such UFO aggression. Although the Army denied this, and summarily covered up this horrifying event with no less than three different, ever- morphing cover stories, I will present you with documentation and eyewitness accounts from credible witnesses that prove within a reasonable doubt that on a January afternoon in 1948 hostile extraterrestrials committed an act of war against the United States. It was likely not the first - and certainly - will not be the last. I will also present evidence that proves that the population of a small island was terrorized and its impoverished residents used as guinea pigs by an alleged flap of UFOs that harassed and injured scores of innocent men and women for a period of months. Some of these unfortunates still carry the scars from burns and

wounds that were inflicted upon them by these unknown perpetrators. The proof consists of eyewitness accounts and secret documents that have been leaked out over several decades. Additionally, in this report, I will document numerous cases of aggressive and hostile UFO acts taken against both military and commercial pilots. As a bonus, I have also included many little known UFO sighting reports from the early 1860's to the present. Even though some of these are not directly hostile encounters, all of them invaded our airspace and in some cases crash landed, exposing humans to potential injury or death. Plus, I will present documentation of ongoing cattle mutilations that remain a dark mystery but point to either nefarious government and alien culprits -- or a collaboration of both. In conclusion, I must warn you that some will not like this report. They will categorize my conclusions as alarmist and sensational. But as always, I leave it up to you the reader to decide.

**Alien Invasion** Travis S. Taylor,Bob Boan,2011-06-01 What if there really are aliens and they do attack? Read what two scientists reveal in this how-to survival manual for the space age. Some events (such as a deliberate asteroid strike) produce such a massive setback to life, the Earth and humanity that we must understand and prepare for them, even if the chances are low that they'll come about. But where to begin? Drs. Travis S. Taylor and Bob Boan are experienced scientists, physicists with expertise in both defense and military signal intelligence and experience working with the Department of Defense and NASA. These two intellectual heavyweights take us on an amazing journey through what we do<sup>3</sup>/<sub>4</sub>and do not<sup>3</sup>/<sub>4</sub>know about how to defend ourselves from space. Sure, that day may never come in our lifetimes<sup>3</sup>/<sub>4</sub>but everyone should have a copy of this lying around just in case. . . . **Alien Invasion** Allan Morey,2019-08-01 We have all wondered about the possibility of intelligent life visiting Earth. But what if their intentions were to take over? With superior intelligence and weapons, humans may not stand a chance. This title explores the worst-case scenario of an alien invasion, from what we know about the potential for alien life to what plans may be in the works in case of attack. Features look back at the flying saucer sighting in Roswell, and a narrative opening envisions what an attack might look like. Watch out! Aliens may attack without warning!

**The Alien Prophet** John B. Fuller,2013 James and his girlfriend, Flo, agree to meet at a company picnic. James arrives at the site, and just as he notices Flo going toward him, there is a big explosion and a flash of light. James, unable to move, sees bodies scattered everywhere. Clusters of light

enter each body, and each in turn disappears. Flo also disappears in this way. The lights enter James and, finding him alive, orders him to forget what has happened. James does not forget; he is recruited by this life-form from alternate Earth and is given great powers. James returns Flo and many others to Earth. They discover that the aliens harvest X cells from human bodies. James finds many possible ways for the aliens to harvest the calls they require. James and Flo, along with other humans, live in a dome provided by the aliens. They are attacked, as alien invaders, by world governments with little success. Over many years, most of the dome people move without notice back to the world population. Finally being alone in the dome, James and Flo move to the west coast. When Flo dies, James paddles a canoe out to the Pacific. He is picked up by a pirate ship and taken to their base in Africa. James becomes known as the alien prophet and helps many people achieve freedom. He becomes tired and again paddles out to sea and drowns. Under a new leader, the system of cell harvest falls apart, and the police closes them down. The other universe aliens disappear from Earth's skies, and Earth leaders declare a victory over these aliens (Xanderites). After many quiet years, a large planet-size ship arrives and settles in Earth orbit. This causes great damage with earthquakes, volcanoes, and high tides. Small ships leave the mother ship and attack worldwide. Earth has no defense against them, and millions die. A last-hope meeting of NORAD is desperately seeking some solution when the Xanderites reappear. They announce that they are willing to help but can only hold the invaders, not defeat them. They state that, as this Earth is no longer fit for humans, they will move the survivors to an alternate Earth they have discovered. There are no functioning Earth governments, so NORAD accepts the offer. All Earth survivors, except Muslims who state they are fighting a holy war, are moved to a wilderness Earth and build settlements. There is a total of 146,000 survivors who build a new world. After a few hundred years, old Earth becomes only a myth, a legend, and the origin of man is unknown. The Xanderites do not appear on this Earth.

**Saucer Attack!** Eric Nesheim, 1997 *Saucer Attacks!* captures images of the UFO phenomenon from the golden age of flying saucers, beginning in 1947 with the infamous Roswell Incident, and taking readers into the prosperous post-war years, when it seemed that the night skies were riddled with inexplicable phenomena. Teeming with 200 images from a variety of sources, *Saucer Attacks!* is a compendium of everything related to a time when the imagination ran wild.

*American Aliens* Gina Hagler, 2019-12-15 Do UFOs and aliens exist? Many people claim they don't. Many others are convinced that not only do they exist, but that in order to avoid widespread panic, the U.S. government released several reports that intentionally covered up all existing proof. Exciting text, accompanied by spine-tingling full-color images and intriguing sidebars, discusses some of the sightings and abductions that have been reported from around the world since the late 1800s. Readers will discover just what people have claimed to witness and experience and what the experts have to say about these strange reports.

*The New Science of the Ufo* Kenneth W. Behrendt, 2013-05-10 The New Science of the UFO now completes author and researcher Kenneth W. Behrendt's groundbreaking trilogy on the subject of UFOs. It contains a complete scan of all 24 issues of a previously out of print, privately published, typescript UFO research journal titled Annals of Ufological Research Advances or AURA, for short, which was the basis for his first two volumes, Secrets of UFO Technology and The How and Why of UFOs. Practically every conceivable facet of the UFO enigma was explored in the pages of AURA at a level of scientific detail that was unprecedented in the field of ufology. Those able to obtain some of the limited number of copies of each issue available to the public learned all about such exotic topics as: the sources of the mysterious glows that envelope nocturnal UFOs; why some malfunctioning UFOs must eject liquid metals in order to correct their propulsion system problems; how alien crews tap our earthly electrical power grids to recharge their scout craft; the nature of the mysterious angel hair and devil jelly residues left by hovering craft; how alien paralysis weapons are used for their personal defense and how crews protect their mother ships from attack; how alien telepathy works; how the living space creatures known as zerooids can biologically duplicate UFO capabilities; and much, much more! The material in AURA was intended for the most serious of ufologists seeking ultimate and satisfying answers to the mysteries that they were exploring. Now for the first time in almost two decades, these answers are again available for a new generation of researchers.

*How to Defend Yourself Against Alien Abduction* Ann Druffel, 2010-02-17 "A very powerful book . . . Druffel's research does us all a great service."—Dr. Edgar Mitchell, Apollo 14 astronaut and author of The Way of the Explorer In 1988 Ann Druffel, who has researched UFOs for forty years, discovered a little-known fact that had been drowned in abduction hysteria—documented evidence that people have successfully fended off attack by the "greys," the short, big-eyed aliens now familiar through so much popular media. Using her database of 250 case studies, including seventy "resisters,"

Druffel has ascertained nine techniques that witnesses use to ward off alien entities and even break off abductions in progress. And perhaps even more astonishing, this evidence points to the possible true identity of the greys and their link to the abducting entities of myth and folklore. *How to Defend Yourself Against Alien Abduction* covers various resistance techniques, including: • Mental Struggle: Block their mind control • Physical Struggle: Fight back • Righteous Anger: Summon your inviolate rights • Protective Rage: Guard your loved ones • Support from Family Members: Seek strength in numbers • Intuition: Sense them coming • Metaphysical Methods: Create a personal shield • Appeal to Spiritual Personages: Get help from on high • Repellents: Use time-tested fend-off substances Complete with hair-raising true tales of courage and illustrated with eyewitness sketches, *How to Defend Yourself Against Alien Abduction* is the only book with step-by-step instructions on what to do—and not to do—if aliens come knocking on your door.

**Exposed, Uncovered & Declassified: UFOs and Aliens** Michael Pye, Kirsten Dalley, 2011-06-15 What are UFOs? Why are they here? What is the Government not telling us? *Exposed, Uncovered, and Declassified: UFOs & Aliens* strives to address all of these questions--and more--by covering new evidence of famous sightings and contact with aliens, and uncovering classified files from world-class collections and archives--all courtesy of the world's leading experts on modern ufology. Nuclear physicist and world-renowned UFO expert Stanton T. Friedman discusses how close we really are to interstellar travel. Erich von Daniken, father of the ancient astronaut theory, discusses the possibility and evidence of ancient hybrid creatures created by visiting god-like aliens. Nick Pope, former member of the British Ministry of Defence, covers the latest UFO documents released by the UK's National Archives, including such fascinating information as: what Churchill knew, why the documents are being released now, what's in them, and what's still being withheld. Donald R. Schmitt, the former co-director of the J. Allen Hynek Center for UFO Studies, takes on the aftermath of the Roswell incident, discussing in detail the initial stages of the government's cover-up attempts. Air Force veteran Thomas J. Carey chronicles the military's attempts to intimidate people into not telling their stories about what they have seen with their own eyes. The niece of Betty and Barney Hill, Kathleen Marden, gives a short history of cases of alien abduction, many which continue to baffle the American public and UFO investigators alike. Nick Redfern provides a fresh take on the famous 1953 UFO crash in Kingman, Arizona, and explores its possible connection to a government program to reverse-engineer alien spacecraft. Something is out there, and *Exposed, Uncovered, and Declassified: UFOs & Aliens* will help us find out exactly what--or who--it is.
