## **Routledge Handbook of New Media in Asia** Larissa

Hjorth, Olivia Khoo, 2015-11-06 While a decade ago much of the discussion of new media in Asia was couched in Occidental notions of Asia as a default setting for technology in the future, today we are seeing a much more complex picture of contesting new media practices and production. As new media becomes increasingly an everyday reality for young and old across Asia through smartphones and associated devices, boundaries between art, new media, and the everyday are transformed. This Handbook addresses the historical, social, cultural, political, philosophical, artistic and economic dimensions of the region's new media. Through an interdisciplinary revision of both new media and Asia the contributors provide new insights into the complex and contesting terrains of both notions. The Routledge Handbook of New Media in Asia will be the definitive publication for readers interested in comprehending all the various aspects of new media in Asia. It provides an authoritative, up-to-date, intellectually broad, conceptually cutting-edge guide to the important aspects of new media in the region — as the first point of consultation for researchers, advanced level undergraduate and postgraduate students in fields of new media and Asian studies.

**Rifqa** Mohammed El-Kurd, 2021-10-12 Rifqa is Mohammed El-Kurd's debut collection of poetry, written in the tradition of Ghassan Kanafani's Palestinian Resistance Literature. The book narrates the author's own experience of dispossession in Sheikh Jarrah--an infamous neighborhood in Jerusalem, Palestine, whose population of refugees continues to live on the brink of homelessness at the hands of the Israeli government and US-based settler organizations. The book, named after the author's late grandmother who was forced to flee from Haifa upon the genocidal establishment of Israel, makes the observation that home takeovers and demolitions across historical Palestine are not reminiscent of 1948 Nakba, but are in fact a continuation of it: a legalized, ideologically-driven practice of ethnic cleansing.
