Vaughn Heppner

Assault Troopers Vaughn Heppner,2014-03-06 The Earth died when aliens rained thermonuclear warheads on her cities and sprayed the surface with a bio-terminator. A deadly poison drifted to every corner of the planet, threatening the last survivors with annihilation.For a soldier in Antarctica like Creed, there is only one way to keep breathing untainted air. He must join the Jelk Corporation as an assault trooper, leaving the planet for outer space. In return for his and other people's services, the Jelk will house the last humans for as long as the assault troopers keep winning.For the price of living and the chance to save humanity, Creed has to wear a shock chip in his neck-Jelk discipline is harsh-and he has to don a symbiotic battlesuit that feeds off his sweat. Human life is cheap in the vast alien war. The assault troopers are little more than suicide soldiers, but for humanity to escape extinction, they must survive. But Creed didn't agree to the bargain in order to remain a dog to the aliens. He has a plan, and he'll need all his cunning to beat the extraterrestrials and begin the road to freedom for the human race.

The Battle of Hue 1968 James H Willbanks,2021-11-25 In late January 1968, some 84,000 North Vietnamese and Viet Cong troops launched a country-wide general offensive in South Vietnam, mounting simultaneous assaults on 36 of 44 provincial capitals, and five of the six autonomous cities (including the capital city of Saigon). The longest and bloodiest battle occurred in Hue, the most venerated place in Vietnam. The bitter fighting that raged there for more than three weeks drew the attention of the world. Hue was the ancient capital of Vietnam, and as such, had been previously avoided by both sides; it had not seen any serious fighting prior to 1968. All that changed on the night of January 31 that year when four North Vietnamese battalions and supporting Viet Cong units simultaneously attacked and occupied both parts of the city straddling the Perfume River. The Communist forces dug in and prepared to defend their hold on the city. US Marines and South Vietnamese soldiers were ordered to clear the city, supported by US Army artillery and troops. A brutal urban battle ensued as combat raged from house to house and door to door. It was a bloody fight and resulted in large-scale destruction of Hue. Eventually, the Marines and the South Vietnamese forces retook Hue, but it turned out to be one of the longest and bloodiest battles of the Tet Offensive, and led to a sea change in US policy in Vietnam.

US Air Cavalry Trooper vs North Vietnamese Soldier Chris McNab,2020-09-17 The tactics and technologies of modern air assault - vertical deployment of troops by helicopter or similar means - emerged properly during the 1950s in Korea and Algeria. Yet it was during the Vietnam War that helicopter air assault truly came of age and by 1965 the United States had established fully airmobile battalions, brigades, and divisions, including the 1st Cavalry Division (Airmobile).This division brought to Vietnam a revolutionary new speed and dexterity in battlefield tactics, using massed helicopters to liberate its soldiers from traditional overland methods of combat manoeuvre. However, the communist troops adjusted their own thinking to handle airmobile assaults. Specializing in ambush, harassment, infiltration attacks, and small-scale attrition, the North Vietnamese operated with light logistics and a deep familiarity with the terrain. They optimized their defensive tactics to make landing zones as hostile as possible for assaulting US troops, and from 1966 worked to draw them into 'Hill Traps', extensive kill zones specially prepared for defence-in-depth. By the time the 1st Cavalry Division (Airmobile) withdrew from Vietnam in 1972, it had suffered more casualties than any other US Army division. Featuring specially commissioned artwork, archive photographs, and full-colour battle maps, this study charts the evolution of US airmobile tactics pitted against North Vietnamese countermeasures. The two sides are analysed in detail, including training, logistics, weaponry, and organization.
