All students begin at Level 1. If a student struggles here, go back and administer Level A. Instruction is one-on-one or in small groups. Teach scripted lessons daily in two 30-minute sessions. On the completion of each level, formal assessments are given. ELSB includes everything you need to implement a multi-year literacy curriculum.

**Testing and Inclusive Schooling** Bjorn Hamre, Anne Morin, Christian Ydesen, 2018-05-11 *Testing and Inclusive Schooling* provides a comparative perspective on seemingly incompatible global agendas and efforts to include all children in the general school system, thus reducing exclusion. With an examination of the international testing culture and the politics of inclusion currently permeating national school reforms, this book raises a critical and constructive discussion of these movements, which appear to support one another, yet simultaneously offer profound contradictions. With contributions from around the world, the book analyses the dilemma arising between reforms that urge schools to move towards a constantly higher academic level, and those who practice a politics of inclusion leading to a greater degree of student diversity. The book considers the types of problems that arise when reforms implemented at the international level are transformed into policies and practices, firmly placing global educational efforts into perspective by highlighting a range of different cases at both national and local levels. *Testing and Inclusive Schooling* sheds light on new possibilities for educational improvements in global and local contexts and is essential reading for academics, researchers and postgraduate students interested in international and comparative education, assessment technologies and practices, inclusion, educational psychology and educational policy.
