This study explores in an effort to develop operational means of determining optimal capacity of intended low-density recreation facilities was ( 1 ) to establish the empirical relation between the benefits enjoyed during a wilderness outing as a function, among other things, of the number of other parties encountered, and (2) a means of estimating the expected frequency of encounters as a function of the intensity of use of any wilderness area.

As other pioneer families begin building new homes, Elizabeth has never felt more alone. However, when Eli unexpectedly returns, confesses his love, and proposes, Elizabeth accepts with her family's blessing. A community begins to take shape, but not without growing pains. As an alternative to the local minister's fiery sermons, Elizabeth's father begins to preach at home, raising the ire of some. Racial biases arise against Brady, Elizabeth's African-American hired hand. Eli's warm sentiments toward Indians also raises concerns. Can Elizabeth and her family overcome these differences and begin a legacy of reconciliation and love?
