Applications of Fire Engineering Martin Gillie,Yong Wang,2017-09-06 This book holds the proceedings of the Conference on Applications of Structural Fire Engineering (ASFE 2017), held on September 7-8, 2017, in Manchester, UK. The ASFE'17 conference will be the next in a series (2009, 2011, 2013, 2015) of successful conferences that aim to bring together experts and specialists in design against fire from all over the world to share ideas and to acquire knowledge in the field of structural fire engineering. Practice in structural engineering increasingly accepts the benefits of performancebased approaches to the design of structures for fire resistance. This conference will focus on the application of design methods, both manual and computational, for structures to resist fire. Particularly relevant themes will be fire modelling, simulation of the heat transfer between fire and structures, and modelling of structural behaviour at elevated temperatures using numerical methods or software implementations of design codes.

Maori Health and Government Policy 1840-1940 Derek A. Dow,1999 This book maps official endeavours to meet Maori health needs during the first hundred years of organised European settlement in New Zealand. Focusing on policy initiative rather than health outcomes, Maori Health and Government Policy explores four major themes: the administration and funding of Maori health,; the association between Maori and hospitals; the subsidised medical officers who provided primary health care; and infection control and the sanitary measures. Other topics include the role of missionary medicine in the 1840s and 1850s and Maori health research.

Handbook of Environmental Physiology of Fruit Crops Bruce Schaffer,Peter C. Andersen,2018-05-04 These exciting new companion handbooks are the only ones of their kind devoted solely to the effects of environmental variables on the physiology of the world's major fruit and nut crops. Their cosmopolitan scope includes chapters on tropical and temperate zone species written by scientists from several continents. The influence of environmental factors, such as irradiance, temperature, water and salinity on plant physiology and on vegetative and reproductive growth, is comprehensively discussed for each crop. In addition to being a thorough and up-to-date set of textbooks, the organization of the two volumes makes them an excellent reference tool. Each chapter focuses on a single crop, or a group of genetically or horticulturally related crop, and is appropriately divided into subsections that address individual environmental factors. Some chapters emphasize whole-plant physiology and plant growth and development, while other chapters feature theoretical aspects of plant physiology. Several chapters provide botanical background discussions to enhance understanding of the crop's response to its environment.

The Treaty of Waitangi / Te Tiriti o Waitangi Claudia Orange, 2021-01-12 The Treaty of Waitangi/Te Tiriti o Waitangi is a foundational document for New Zealand. Signed in 1840 by more than 540 rangatira and representatives of the British Crown, the Treaty set out an agreement between Māori and the European newcomers that remains central to this country's cultural and political life. Claudia Orange's writing on the Treaty has contributed to New Zealanders' understanding of this history for over thirty years. In this new edition of her popular illustrated history, Dr Orange brings the narrative of Te Tiriti/Treaty up to date, covering major developments in iwi claims and Treaty settlements – including the 'personhood' established for the Whanganui River and Te Urewera, applications for customary title in the foreshore and seabed, and critical matters of intellectual property, language and political partnership. New Zealand's commitment to the Treaty claims process has far-reaching implications for this country's future, and this clear account provides readers with invaluable insights into an all-important history. The Treaty of Waitangi by Claudia Orange was first published in 1987 to national acclaim, receiving the Goodman Fielder Wattie Award. This widely respected history has since advanced through several new editions. The Treaty of Waitangi/Te Tiriti o Waitangi: An Illustrated History is the most comprehensive account yet, presented in full colour and drawing on Dr Orange's recent research into the nine sheets of the Treaty and their signatories.

First to Care Graeme Hunt, 2009 FIRST TO CARE: 125 YEARS OF THE ORDER OF ST JOHN IN NEW ZEALAND, 1885-2010 brings to life the history of one of our most ubiquitous and vital charitable organisations. The heavily illustrated book provides a vivid account of public-spiritedness, enterprise and innovation by people involved in St John over the past 125 years, peppered with occasional disputes and setbacks along the way. St John invented and popularised 'first aid' as we know it. It provided medical assistance from the sidelines of our sports fields from as early as 1891 and it played a leading role in disaster relief from its formative days. From humble beginnings it established a nationwide ambulance service that today is the envy of the St John fraternity worldwide.
